PC 1975-879, dated April 22, 1975.

WHEREAS the Committee of the Privy Council have had before them a report from the Prime Minister representing that it is desirable to cause an inquiry to be made into and concerning the concentration of corporate power in Canada.

The Committee, therefore, on the recommendation of the Prime Minister, advise that Robert Broughton Bryce, Esquire, of the City of Ottawa in the Province of Ontario, be appointed a Commissioner under part I of the Inquiries Act to inquire into, report upon, and make recommendations concerning:

- (a) the nature and role of major concentrations of corporate power in Canada;
- (b) the economic and social implications for the public interest of such concentrations; and
- (c) whether safeguards exist or may be required to protect the public interest in the presence of such concentrations.

The Committee further advise that the Commissioner:

1. may exercise all the powers conferred upon him by Section II of the Inquiries Act and be assisted to the fullest extent by government departments and agencies;
2. may adopt such procedure and methods as he may from time to time deem expedient for the proper conduct of the inquiry and sit at such times and in such places in Canada as he may decide from time to time;
3. may engage the services of such counsel, staff, clerks and technical advisers as he may require at rates of remuneration and reimbursement to be approved by the Treasury Board; and
4. shall report to the Governor in Council with all reasonable despatch, and file with the Privy Council Office the papers and records of the Commission as soon as reasonably may be after the conclusion of the inquiry.

PC 1975-999, May 1, 1975, appointed Messrs Pierre Nadeau and Robert W V Dickerson as Commissioners and designated Mr Robert B Bryce as Chairman of the Commission.

PC 1975-8/1366, June 12, 1975, authorized payment to the Commissioners of an honorarium of \$250 per day while on duty as Commissioners of the Commission.

EXPENSES OF ROYAL COMMISSION ON FINANCIAL MANAGEMENT AND ACCOUNTABILITY

	Estimates	Allotments	Expenditures
Expenses	\$ 790,000	\$ 1,117,000	\$ 1,116,210

PC 1976-2884, dated November 22, 1976.

WHEREAS, the Committee of the Privy Council have had before them a report of the right Honourable Pierre Elliott Trudeau submitting:

that the growth of government responsibilities and programmes to meet the needs of Canada in recent years has placed unprecedented demands upon the structure, organization and process of administrative management and control in the Government of Canada;

that the Public Service of the Government of Canada has long enjoyed an enviable reputation for efficiency and probity and the government wishes to ensure the maintenance, in the new circumstances, of the high standards of public service the Canadian people have received in the past and rightly expect:

that reports of the Auditor General have caused the government serious concern that the current state of financial administration in the Government of Canada is not now adequate to ensure full and certain control over and accountability for public funds required for the expanded responsibilities and programmes that now exist; and

that it is essential that the government have the capacity to ensure in the Public Service that authority and accountability together ensure the most efficient use of resources, and that all opportunities to make savings, avoid waste and increase productivity are vigorously pursued.

It is therefore in the national interest that a comprehensive inquiry be made into the best means of providing for financial management in the federal administration of Canada, including departments and Crown agencies, and for the accountability of deputy ministers and heads of Crown agencies for their administration, including evaluation of their performance in this regard; taking into account the constitutional roles and responsibilities of Parliament, Ministers and the Public Service, and more especially the principle of the collective and individual responsibilities of Ministers to Parliament.

The Committee, therefore, on the recommendation of the Prime Minister, advise that; H Marcel Caron, John Edwin Hodgetts, Allen Thomas Lambert and Oliver Gerald Stoner be appointed Commissioners under part I of the Inquiries Act to examine and report on the management system required in the inter-related areas of:

- (i) financial management and control,
 - (ii) accountability of deputy ministers and heads of Crown agencies relative to the administration of their operations, and
 - (iii) the evaluation of the administrative performance of deputy ministers and heads of Crown agencies,
- and the interdepartmental structure, organization and process applicable thereto, including in particular:

- (a) the development, promulgation and application of financial management policy, regulations and guidelines by central agencies,
- (b) procedures to ensure that,
 - (1) necessary changes in policy, regulations and guidelines are identified, and
 - (2) policy regulations and guidelines are adhered to,
- (c) systems and procedures to ensure effective accountability to government and, where appropriate to Parliament, of the administration of government departments and agencies, and
- (d) the organization necessary in central agencies, government departments and Crown agencies to achieve the foregoing.

The Committee further advise:

1. That the Commissioners ensure that their recommendations form a mutually compatible management system appropriate to the requirements of government;
2. That the Commissioners be authorized to exercise all the powers conferred upon them by section 11 of the Inquiries Act and be assisted to the fullest extent by government departments and agencies;
3. That the Commissioners adopt such procedures and methods as they may from time to time deem expedient for the proper conduct of the inquiry and sit at such times and in such places in Canada as they may decide from time to time;

6. That the Commissioners review the reports of the Auditor General for the fiscal years ending March 31, 1975 and March 31, 1976 and the supporting material thereof; and other relevant Parliamentary reports;
7. That the Commissioners submit progress reports if possible, as they complete stages of their study, with an initial report not later than December 31, 1977; and
8. That Allen Thomas Lambert be designated Chairman of the Commission.

PC 1976-3322, December 24, 1976, appointed Mr Robert Després as Commissioner and accepted Mr H Marcel Caron's resignation.

PC 1977-45, January 13, 1977, advises that the Commissioners appointed under Order in Council PC 1976-2884, of the 22nd of November, 1976, as amended by Order in Council PC 1976-3322 of the 24th of December 1976, to inquire into the best means of providing for financial management in the federal administration, be known as the Royal Commission on Financial Management and Accountability.

PC 1977-8/477, February 24, 1977, authorized payment to the Commissioners of an honorarium of \$250 per diem while on duty as Commissioners of the Commission and a non-accountable living allowance of \$65 per diem.

PC 1977-702, dated March 17, 1977.

WHEREAS, the Committee of the Privy Council have had before them a report representing:

- that a Joint Committee consisting of members of the Privy Council and representatives of the National Indian Brotherhood has been established to provide to Ministers of the Crown and Indian leaders an opportunity to discuss problems of concern to the Government of Canada and the status Indians of Canada; and
- that a Joint Sub-Committee on Indian rights and claims, consisting of three members of the Privy Council and three representatives of the National Indian Brotherhood, has been established since the Government of Canada and the status Indians of Canada are concerned that agreement be reached on basic principles and processes for settling grievances about Indian rights and claims.

THEREFORE, the Committee of the Privy Council, on the recommendation of the Prime Minister, advise that:

1. Honourable Mr Justice E Patrick Hartt, a judge of the Supreme Court of Ontario, of Toronto, Ontario, Mr Brian George Pratt, Executive Director, Indian Claims Commission, of Saskatoon, Saskatchewan be appointed to a Commission to be known as the Canadian Indian Rights Commission, to exercise the following duties:
 - (a) to facilitate the development of an inventory and classification of existing claims of status Indians and to report thereon to the Joint Committee; and
 - (b) where directed by the Joint Committee, to assist in the resolution of issues of concern to the Government of Canada and the status Indians of Canada.
2. The appointment of Mr Justice Hartt to the Commission be for a period of five years.
3. The appointment of Mr Brian George Pratt to the Commission be for a period of four years.
4. The Commission be authorized to secure the assistance of such officers and employees of the Government of Canada as may be required for its activities.
5. The Commission be authorized subject to the direction of the Joint Committee to engage the services of such counsel, staff, clerks and advisers as may be required at rates of remuneration and reimbursement to be approved by the Treasury Board.
6. The appointment of the Commissioner appointed by Order in Council PC 1969-2405 of 19th of December, 1969 be terminated as of the day of this Order.
7. In the case of any person who was engaged in the provision of services to the Commissioner appointed pursuant to Order in Council PC 1969-2405 of 19th of December, 1969 on the day immediately preceding the day of this Order by virtue of a contract of service between that person and the said Commissioner the Commissioner appointed pursuant to this Order shall, if so notified in writing by that person of his intention to fulfil his duties on behalf of the Commission appointed pursuant to this Order, assume the obligations and provide the benefits of the contract as if that contract of service had been entered into by the Commission appointed pursuant to this Order.

PC 1977-14/2692, September 22, 1977, authorized payment to Commissioner Mr Brian George Pratt of an honorarium of \$250 per diem while on duty as Commissioner.

that it may be desirable to establish procedures for the purpose of better obtaining and preserving information concerning past events related to such grievances of status Indians;

that in obtaining such information it may be desirable to question elderly Indians with knowledge of the events giving rise to the said grievances in order that a record of such information may be preserved; and

that while both the Government of Canada and the National Indian Brotherhood recognize that such information may be useful in negotiating the settlement of grievances, the position of the Government of Canada is that such information may not be admissible in whole or in part in subsequent legal proceedings and the use of the procedures herein provided shall be without prejudice to the right of any party to such proceedings to contest the admissibility of such information.

that it is advisable now to appoint a Commissioner under the Inquiries Act who may, when a grievance as described above has been referred to him by a member of the Joint Sub-Committee, obtain information from elderly Indians with respect thereto.

THEREFORE, the Committee of the Privy Council, on the recommendation of the Prime Minister, advise that Dr Lloyd Barber, President of the University of Saskatchewan in Regina, Saskatchewan, be appointed a Commissioner under part I of the Inquiries Act to

obtain information from elderly Indians with knowledge of the events giving rise to the said grievance where a member of the Joint Sub-Committee has referred such grievance to the Commissioner for the purpose of obtaining information and he has decided such action is appropriate.

The Committee further advise that:

1. the Commissioner be authorized to exercise all the powers conferred on him by section II of the Inquiries Act;
2. the Commissioner be authorized to adopt such procedures and methods and to make such rules as he deems expedient for the proper conduct of his Inquiry and to sit at such times and places as he may decide;
3. the Commissioner be authorized subject to the direction of the Joint Committee to engage the services of such counsel, staff and clerks as he may require at rates of remuneration approved by the Treasury Board and to secure the assistance of such officers and employees of the Government of Canada as may be required for his activities;
4. the Commissioner file with the Secretariat of the Joint Committee his papers and records as soon as possible after the conclusion of each Inquiry and that the Joint Committee be empowered to furnish copies of such papers and records to such persons and on such terms as the Joint Committee sees fit;
5. the Commissioner shall also file with the Dominion Archivist one copy of his papers and records as soon as possible after the conclusion of each Inquiry.

PC 1977-1911, dated July 6, 1977.

WHEREAS, it has been established that certain persons who were members of the RCMP at the time did, on or about October 7, 1972, take part jointly with persons who were then members of La Sureté du Québec and La Police de Montréal in the entry of premises located at 3459 St. Hubert Street, Montreal, in the search of those premises for property contained therein, and in the removal of documents from those premises, without lawful authority to do so;

WHEREAS, allegations have recently been made that certain persons who were members of the RCMP at the time may have been involved on other occasions in investigative actions or other activities that were not authorized or provided for by law;

WHEREAS, after having made inquiries into these allegations at the instance of the Government, the Commissioner of the RCMP now advises that there are indications that certain persons who were members of the RCMP may indeed have been involved in investigative actions or other activities that were not authorized or provided for by law, and that as a consequence, the Commissioner believes that in the circumstances it would be in the best interests of the RCMP that a Commission of Inquiry be set up to look into the operations and policies of the Security Service on a national basis;

WHEREAS, public support of the RCMP in the discharge of its responsibility to protect the security of Canada is dependent on trust in the policies and procedures governing its activities;

AND WHEREAS, the maintenance of that trust requires that full inquiry be made into the extent and prevalence of investigative practices or other activities involving members of the Royal Canadian Mounted Police that are not authorized or provided for by law.

THEREFORE, the Committee of the Privy Council, on the recommendation of the Prime Minister, advise that, pursuant to the Inquiries Act, a Commission do issue under the Great Seal of Canada, appointing Mr Justice David C McDonald of Edmonton, Alberta, Mr Donald S Rickard of Toronto, Ontario, Mr Guy Gilbert of Montreal, Quebec to be Commissioners under part I of the Inquiries Act:

- to conduct such investigations as in the opinion of the Commissioners are necessary to determine the extent and prevalence of investigative practices or other activities involving members of the RCMP that are not authorized or provided for by law and, in this regard, to inquire into the relevant policies and procedures that govern the activities of the RCMP in the discharge of its responsibility to protect the security of Canada;
- to report the facts relating to any investigative action or other activity involving persons who were members of the RCMP that was not authorized or provided for by law as may be established before the Commission, and to advise as to any further action that the Commissioners may deem necessary and desirable in the public interest; and
- to advise and make such report as the Commissioners deem necessary and desirable in the interest of Canada, regarding the policies and procedures governing the activities of the RCMP in the discharge of its responsibility to protect the security of Canada, the means to implement such policies and procedures, as well as the adequacy of the laws of Canada as they apply to such policies and procedures, having regard to the needs of the security of Canada.

The Committee further advise that the Commissioners:

- be authorized to adopt such procedures and methods as the Commissioners may from time to time deem expedient for the proper conduct of the inquiry;
- be directed that the proceedings of the inquiry be held in camera in all matters relating to national security and in all other matters where the Commissioners deem it desirable in the public interest or in the interest of the privacy of individuals involved in specific cases which may be examined;
- be directed, in making their report, to consider and take all steps necessary to preserve

- (a) the secrecy of sources of security information within Canada; and
 - (b) the security of information provided to Canada in confidence by other nations;
4. be authorized to sit at such time and at such places as they may decide from time to time, to have complete access to personnel and information available in the Royal Canadian Mounted Police and to be provided with adequate working accommodation and clerical assistance;
 5. be authorized to engage the services of such staff and technical advisers as they deem necessary or advisable and also the services of counsel to aid them and assist in their inquiry at such rates of remuneration and reimbursement as may be approved by the Treasury Board;
 6. be authorized to follow established security procedures with regard to their staff and technical advisers and the handling of classified information at all stages of the inquiry;
 7. be authorized to exercise all the powers conferred upon them by section 11 of the Inquiries Act; and
 8. be directed to report to the Governor in Council with all reasonable dispatch and file with the Privy Council Office their papers and records as soon as reasonably may be after the conclusion of the inquiry.

The Committee further advise that, pursuant to section 37 of the Judges Act, His Honour Mr Justice McDonald be authorized to act as Commissioner for the purposes of the said Commission and that Mr Justice McDonald be the Chairman of the Commission.

PC 1977-3080, October 27, 1977, authorized payment to Commissioner Mr Guy Gilbert c.r. of an honorarium of \$650 per diem while on duty as Commissioner of the Commission and a non-accountable living allowance of \$65 per diem.

INTRODUCTION TO THE PUBLIC ACCOUNTS

Nature of the Public Accounts

The Public Accounts is the report of the Government of Canada prepared each fiscal year by the Receiver General as required by Section 55 of the Financial Administration Act.

The report covers the fiscal year of the Government, which ends on March 31, and is prepared from data contained in the accounts of Canada and from more detailed records maintained in departments and agencies. The accounts of Canada is the centralized record of the Government's financial transactions maintained by the Receiver General in which the transactions of all departments and agencies are summarized. Each department is responsible for the accuracy of its accounts and maintains detailed records of the transactions in those accounts.

The report covers the financial transactions of the Government during the year. In certain cases, parliamentary authority to undertake the transactions was provided by legislation approved in earlier years.

Format of the Public Accounts

The Public Accounts is produced in three volumes.

Volume I presents a summary and analysis of the financial transactions of the Government while **Volume II** presents the financial operations of the Government, segregated by department and associated agencies, as well as additional information and analysis of selected types of payments.

Volume III contains the financial statements of Crown corporations which are permitted by legislation to keep their own accounts. These are Schedules C and D (agency and proprietary) corporations, as well as two other agencies, the Bank of Canada and the Canadian Wheat Board which, although not designated as Crown corporations, act as agents of Her Majesty.

Summary Table

Table 1 contains a summary of the loans, investments and advances made by the Government to the Crown corporations as well as the financial assistance paid from budgetary appropriations during the current year. The table also includes the total amount of investments in Crown corporations financed from non-budgetary appropriations as at March 31, 1979 and the return on these investments during the fiscal year of the Government.

Details of the financial assistance authorized by budgetary appropriations and paid to corporations can be found in Volume II under the department through which the corporation reports. The return on investments paid by the corporations to the Government are analyzed in Section 12 of Volume I as well as in the departmental sections of Volume II. Further information on loans, investments and advances made by the Government to the corporations is contained in Section 6 of Volume I.

AIR CANADA

AUDITORS' REPORT

TO THE HONORABLE
THE MINISTER OF TRANSPORT
OTTAWA
AND
TO THE BOARD OF DIRECTORS OF AIR CANADA

We have examined the balance sheet of Air Canada as at December 31, 1978 and the statements of income and retained earnings and changes in financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion these financial statements present fairly the financial position of the corporation as at December 31, 1978 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

We further report that, in our opinion, proper books of account have been kept by the corporation and the accompanying financial statements are in agreement with the books of account.

NOTES TO FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

(a) Property and equipment

Depreciation and amortization is provided by the straight line method and is based on the following estimated useful lives:

Boeing 747	16 years
Lockheed 1011	15 and 16 years
Boeing 727	14 years
DC-8	14 years
DC-9	12 years
Ground equipment and facilities	5 to 30 years

For accounting purposes, leased flight equipment is treated as though it is owned. Expenditures for maintenance and repairs are charged to operating expenses as incurred. Significant expenditures for modifications and betterments are capitalized.

(b) Spare parts

Provision for the obsolescence of aircraft spare parts included in current assets, less their estimated residual value, is made by charges to operating expenses over the service lives of the related aircraft types.

(c) Deferred charges

Costs incurred in introducing new types of aircraft are deferred and amortized on a straight line basis over five years, commencing with the time each type is placed into revenue service.

Financing and other deferred costs are amortized on a straight line basis over the period to which they relate.

(d) Passenger and freight revenues

Passenger and freight sales are recognized as earned revenue when the transportation service is provided. Unearned amounts are treated as current liabilities.

(e) Capitalized interest

Interest is capitalized on payments for major property and equipment additions made prior to their entry into regular service and is included in their cost.

(f) Translation of foreign currencies

Assets and liabilities (including long-term liabilities) are translated into Canadian dollars at year-end exchange rates except spare parts and non-current assets which are translated at exchange rates prevailing when the asset was acquired.

Gains and losses resulting from foreign exchange translation are reflected in income for the year.

(g) Income taxes

The Corporation records income taxes on the tax allocation basis which recognizes the income tax effect on transactions when they are recorded in accounting income, regardless of when such items are recognized for tax purposes. These timing differences can result in deferred income taxes either being provided for or recoverable depending on when the items are recognized for accounting and tax purposes.

(h) Pensions

The cost of funding current service pension benefits is charged to operations as incurred. Unfunded liabilities as determined by actuarial valuation are funded by annual payments which are charged to operations over periods recommended by the actuaries and in accordance with regulatory requirements.

Long-term liabilities include \$100,090,000 payable in U.S. funds and \$14,930,000 payable in pounds sterling which are converted at current exchange rates.

6. Recapitalization

During the year, under the provisions of the Air Canada Act, 1977, the Corporation's share capital and long-term liabilities were rearranged.

In accordance with the terms of the Act and the enabling Order-in-Council, the following obligations and share capital of the Corporation were cancelled on April 13, 1978:

	(\$000)
Long-term liabilities payable to the Government of Canada	290,639
Long-term liabilities payable to the Canadian National Railway Company	344,477
50,000 shares of Air Canada owned by the Canadian National Railway Company	5,000
	<u>640,116</u>
The above obligations and share capital were concurrently replaced by the following:	
Long-term note payable to the Government of Canada	311,107
329,009 of 750,000 newly authorized \$1000 shares issued to the Government of Canada	329,009
	<u>640,116</u>

Had the recapitalization not occurred, the 1978 interest expense on long-term liabilities would have been approximately \$16,781,000 greater.

7. Income Taxes

During 1978 the Corporation amended and refiled certain of its prior years' tax returns. By claiming maximum capital cost allowances, losses were created for income tax purposes which may be used to reduce net income for tax purposes in subsequent years.

As at December 31, 1978, there remain loss carry-forwards for income tax purposes of approximately \$191,011,000 which, if unused, would expire as follows:

	(\$000)
December 31, 1979	46,557
December 31, 1980	101,938
December 31, 1981	42,516
	<u>191,011</u>

8. Nordair Limited

Having obtained all necessary government approvals and having waived the 90% acceptance condition in its cash offer to the holders of all of the Class A and Class B Common Shares of Nordair Ltd., a Montreal based regional airline, Air Canada completed on January 26, 1979 the purchase of 764,447 Class A and 1,123,966 Class B Common Shares at \$12.61 per share for an aggregate amount of \$23,812,888. This represents a controlling interest of 86.46% of the total outstanding shares.

9. Commitments

Commitments for the acquisition of one B-747, eighteen B-727 aircraft and one spare B-727 engine as at December 31, 1978, after deducting progress payments, amounted to approximately \$286,600,000. Delivery of the B-747 and ten of the B-727 aircraft is scheduled for 1979, while the remaining eight B-727 aircraft are to be delivered in 1980.

AIR CANADA—Concluded**NOTES TO FINANCIAL STATEMENTS—Concluded**

In January 1979, arrangements were made to lease rather than purchase the one B-747 for which the remaining commitment was approximately \$35,000,000.

Commitments for ground facilities and equipment amounted to \$9,800,000 as at December 31, 1978. Rental payments due in 1979 under term leases in effect for facilities at December 31, 1978, amounted to \$11,332,000 (excluding aircraft leases which are included in long-term liabilities).

10. Pension Plans

The Corporation maintains pension plans for virtually all of its employees. The total charge against operations for these plans for the year was \$66,300,000 (1977—\$29,200,000).

As at December 31, 1978, the unfunded liability of the Corporation's pension plans amounted to \$195,190,000 (1977—\$132,316,000). The increase during the year resulted from modifications in benefits of \$37,840,000 and an experience deficiency of \$41,700,000, less related payments. The experience deficiency is being funded over three years ending 1980, while the remainder of the unfunded liability is being retired by annual payments over various periods ending 2003. The Corporation funds its plans in accordance with the recommendations of the Corporation's actuary and in compliance with requirements of the Pension Benefits Standards Act.

Included in the current year's charge against operations are amounts of \$9,681,000, representing the first of three equal annual payments to cover the cost of a write-down in the actuarial asset valuation of the pension fund and \$15,284,000 in amortization of the experience deficiency.

11. Dividend

On January 30, 1979, the Board of Directors declared a dividend of \$13,200,000 payable to the Government of Canada on March 30, 1979.

12. Comparative Figures

Certain of the 1977 comparative figures have been reclassified to conform to the presentation adopted in 1978.

ATLANTIC PILOTAGE AUTHORITY
(Established by the Pilotage Act)

AUDITOR GENERAL OF CANADA

THE HONOURABLE OTTO E. LANG, P.C., M.P.,
MINISTER OF TRANSPORT
OTTAWA, ONTARIO.

I have examined the balance sheet of Atlantic Pilotage Authority as at December 31, 1978 and the statements of operations, deficit, contributed capital and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Authority as at December 31, 1978 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Authority, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1978

1. Nature of activities

The Atlantic Pilotage Authority was established on February 1, 1972 pursuant to the Pilotage Act. The objects of the Authority are to establish, operate, maintain and administer a safe and efficient pilotage service within designated Canadian waters. The Act further provides that the tariffs of pilotage charges shall be fair and reasonable and consistent with providing a revenue, together with any revenue from other sources, sufficient to permit the Authority to operate on a self-sustaining financial basis.

2. Significant accounting policies

(a) Parliamentary appropriations

Until the revenue from pilotage charges is sufficient to permit the Authority to operate on a self-sustaining financial basis, it is the practice to recover any deficit incurred from parliamentary appropriations provided for that purpose. Such appropriations would include amounts paid under capital lease agreements. Amounts received in excess of the deficit are shown under current liabilities.

As long as the Authority continues to operate at a deficit, current year capital requirements, excluding amounts paid under capital lease agreements, will be recovered from parliamentary appropriations.

(b) Depreciation

Depreciation of fixed assets is calculated on a straight-line basis and are based on the estimated useful life of the assets as follows:

Buildings	20 years
Pilot boats	10-25 years
Pilot boats under capital lease	25 years
Furniture and equipment	10 years

Although charged in the statement of operations, depreciation is not recovered from parliamentary appropriations.

ATLANTIC PILOTAGE AUTHORITY—*Concluded*NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1978—*Concluded*

(c) Contributed capital

Amounts representing the values assigned to assets transferred to the Authority from Canada in 1972, working capital vested pursuant to Section 44 of the Act, the cost of capital assets financed since 1972 and the principal portion of payments made under capital lease agreements are shown as contributed capital.

(d) Capitalized leases

The Authority charters three boats from Canada under long-term financing leases. Under the terms of the lease agreements, the Authority assumes the rights and obligations of ownership. As a result, the leases are treated as purchases and the principal portion of lease payments is capitalized and depreciated over the estimated useful lives of the boats. The corresponding liability is reduced by the principal portion of lease payments and the interest portion is expensed in the year to which it relates.

(e) Pension plan

All employees of the Authority are covered by the Public Service Superannuation Plan administered by the Government of Canada. Contributions to the Plan are required from both the employee and the Authority. Contributions with respect to current service are expensed in the current period. Contributions with respect to past service benefits are expensed when paid generally over the remaining service lives of the pilots.

(f) Employee termination benefits

Employees of the Authority are entitled to specified benefits on termination as provided for under labour contracts and conditions of employment. This liability is recorded in the accounts as the benefits accrue to the employees.

(g) Income tax

Under the provisions of the Income Tax Act, the Authority is not subject to federal income tax.

3. Capital lease agreements

The Authority leases three pilot boats under long-term financing leases. The payments required under the leases are as follows:

	1978	1977
9½% lease agreement, due April 1991, payable in blended annual payments of \$54,785	\$ 712,211	\$ 766,996
8% lease agreement, due October 1989, payable in blended annual payments of \$31,077	372,920	372,920
8% lease agreement, due November 1989, payable in blended annual payments of \$31,077	372,920	372,920
Total lease payments	1,458,051	1,512,836
Less: amount representing interest	587,569	626,730
Principal amount of capital lease	870,482	886,106
Less: current portion	68,428	40,306
	<u>\$ 802,054</u>	<u>\$ 845,800</u>

The aggregate payments required in each of the next five years is \$116,939 per annum on these leases. The lease payments due October 1978 and November 1978, were not paid until January 1979.

Upon maturity of the leases, the Authority has the option to purchase each of the boats for \$1.

4. Pension plan

Under provisions of the Pilotage Act, pilots may choose to become employees of the Authority and become entitled to count service prior to becoming an employee as pensionable under the Public Service Superannuation Act. For pilots who have elected to purchase pension benefits with respect of past service, the Authority is required to match the employee contribution. The estimated unfunded past service pension contribution with respect to these employees was approximately \$289,000 as of December 31, 1978 and will be funded over the remaining service lives of the pilots, or the terms of purchase whichever is the lesser.

5. Anti-Inflation Act

The Authority was subject to the provisions of the Anti-Inflation Act and Regulations relating to the restraint of prices, profits, compensation and dividends. The Authority is satisfied that it has no unrecorded or contingent liability under this legislation. As of December 31, 1978 the legislation had expired with respect to prices, profits and dividends.

6. Remuneration of officers and members

Expenses include remuneration of officers as officers, \$131,103 (1977—\$122,973), and remuneration of members as members \$13,472 (1977—\$9,336). The Authority has seven members and four officers. One officer is also a member.

7. Comparative figures

Certain figures for 1977, presented for comparative purposes, have been restated to conform to the 1978 presentation.

ATOMIC ENERGY OF CANADA LIMITED

AUDITOR GENERAL OF CANADA

THE HONOURABLE A. W. GILLESPIE, P.C., M.P.,
MINISTER OF ENERGY, MINES AND RESOURCES,
OTTAWA, ONTARIO.

I have examined the balance sheet of Atomic Energy of Canada Limited as at March 31, 1979 and the statements of income, deficit and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

As disclosed in Note 6 to the financial statements, the Company has suspended construction of and is proceeding to mothball the La Prade heavy water plant. Pending a final decision by the Government of Canada on this facility, the Company is carrying the cost of the plant and the related indebtedness to Canada on the balance sheet.

As disclosed in Note 8(a) to the financial statements, the adequacy of the provision for loss on the Argentine contract is dependent on the Company successfully asserting its claim for protection against the unpredictable effects of Argentine monetary conditions.

In my opinion, subject to the effect of adjustments, if any, as would be required upon resolution of the matters described in the preceding two paragraphs, these financial statements give a true and fair view of the financial position of the Company as at March 31, 1979, and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Company, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

NOTES TO THE FINANCIAL STATEMENTS MARCH 31, 1979

1. Significant accounting policies

- (a) Reporting of operations—The activities of the Company are reported in the Statement of Income under two major headings—the Research and Utilization Program and Commercial Operations.
- (i) The Research and Utilization Program comprises:
- (a) Research, Development and Demonstration operations conducted principally at the Chalk River and Whiteshell laboratories as well as the Gentilly-1 prototype nuclear station and Corporate Office.
- (b) Engineering, Testing and Marketing services of the Engineering Division but excluding the construction of nuclear power stations sold abroad. The services are generally rendered on a cost plus or fee basis principally to provincial power utilities and to the Company's Commercial Operations. Interdivisional revenue, principally for services rendered to the Commercial Generating Stations Division, is recorded on the basis of services rendered at rates designed to recover direct personnel costs and other direct costs as well as an allowance for overhead expenses. The net cost of the Research and Utilization Program is generally funded by appropriation from Parliament by way of capital and operating votes which are deducted from the program costs in the Statement of Income.
- (ii) The Commercial Operations comprise:
- (a) Radiochemical Division which manufactures and markets medical and industrial radiation equipment and radio-isotopes;
- (b) Chemical Division which produces and sells heavy water used in nuclear reactors;
- (c) Commercial Generating Stations Division which includes the construction of nuclear power plants sold abroad and the Company's share of operations of the Pickering and Douglas Point power reactors operated by Ontario Hydro.
- (b) Long-term contracts—A significant portion of the Company's activities involves long-term contracts which are accounted for as follows:
- (i) Construction of nuclear power plants—Revenues and costs on contracts to construct nuclear power stations are recorded on the completed contract method. Under this method, sales and cost of sales are recognized on substantial completion of the work. However, when project estimates indicate a probable ultimate loss, full provision is recorded against current operations. Construction contracts in progress are reported on the balance sheet at accumulated costs to date (including interdivisional charges from the Research and Utilization Program) less billings to customers. In accordance with industry practice, such amounts have been included in current assets or liabilities although a portion thereof may not be realized or paid within one year.
- (ii) Nuclear engineering services—Contracts with provincial utilities for consulting engineering services and contracts to supply engineering services for the design or construction of nuclear power systems or components are reported under Engineering, Testing and Marketing, part of the Company's Research and Utilization Program. Revenues from such contracts are determined using the percentage of completion method. When estimates indicate a probable ultimate loss on a contract the full amount thereof is recorded as a provision against current operations.

ATOMIC ENERGY OF CANADA LIMITED—Continued

NOTES TO FINANCIAL STATEMENTS MARCH 31, 1979—Continued

- (iii) Heavy water—Revenue from the sale of heavy water is recorded at time of delivery. Provision for estimated losses on fulfilling sales commitments is recorded against current operations when estimated production costs, which do not include interest charges, exceed respective sales prices.
- (c) Foreign currencies—Monetary assets and liabilities in foreign currencies are recorded in Canadian dollars at current exchange rates. Accumulated costs and billings related to long-term contracts in foreign currencies are recorded at historical month-end rates. Gains and losses resulting from foreign currency transactions and balances, which relate to long-term contracts are included in contract costs. Other foreign exchange gains and losses are recorded in operations as incurred.
- (d) Inventory valuation—Heavy water and radiation equipment and materials are carried in the inventory at the lower of cost and estimated realizable value. Heavy water inventory costs do not include interest charges relating to heavy water plants; these are recorded as period costs in the Statement of Income. Maintenance and general supplies are carried at cost.
- (e) Plant and property
- Expenditures for research facilities are recorded as program costs in the year of acquisition.
 - Other assets are recorded at cost and are depreciated on a straight-line basis over the estimated useful lives of the assets as follows:

Houses	—50 years
Buildings	—20 to 40 years
Machinery and equipment	—5 to 20 years
Heavy water plants	—25 years
Nuclear generating station	—30 years

 Interest during construction is capitalized.
- (f) Comparative figures—Presentation of the 1978 figures has been amended to conform to the 1979 format.

2. Parliamentary appropriations

- (a) During the year, Parliament approved the following appropriations:

	(\$000's)	
	1979	1978
Nuclear Research and Utilization Program		
Net operating expenditures	\$ 111,388	\$ 96,069

4. Long-term notes and other receivables

	('\$000's)	
	1979	1978
(a) Notes receivable from Ontario Hydro for the sale of the Bruce heavy water plant. Interest at 7.795% is included in the monthly payments of \$2,102,987 to December 28, 1992.	\$214,007	\$222,469
(b) Notes receivable, bearing interest rates of 7 15/16% to 10%, from Hydro Quebec for advances made by the Company to assist in financing the construction of Gentilly-2 nuclear generating station. Interest is received semi-annually and repayments of principal will commence after the plant in-service date and will be based on an amortization period of 25 years at a weighted average interest rate. Maximum loan authorization is approved at \$151.0 million.	151,000	151,000
(c) Notes receivable, bearing interest rates of 9 1/4% to 10 1/8%, from the New Brunswick Electric Power Commission for advances made by the Company to assist in financing construction of the Lepreau nuclear generating station. Repayment of advances plus accrued interest will commence after the plant in-service date or April 1983 whichever is first and will be based on an amortization period of 25 years at a weighted average interest rate. Maximum loan authorization (including accrued interest) is approved at \$350.0 million.	270,347	151,094
(d) Mortgages receivable on houses sold, at interest rates ranging from 5% to 10% per annum and amortized over periods of up to 30 years.	5,948	6,516
(e) Lease/sale options due from foreign governments and companies. Interest rates range from 6% to 10 1/2% with terms of up to 12 years.	41,745	37,996
	<u>683,047</u>	<u>569,075</u>

Total long-term notes and other receivables	<u>\$661,326</u>	<u>\$558,836</u>

5. Investment

Pickering nuclear generating station—

Ontario Hydro, the Province of Ontario and the Company are parties to a joint undertaking for the construction and operation of Units 1 and 2 of the Pickering 'A' nuclear generating station, with ownership of these units being vested in Ontario Hydro. Ontario Hydro is committed to make payments over a period terminating in 2001 to each of the parties in proportion to their capital contributions. These payments, termed "payback", represent in a broad sense the net operational advantage of having the power generated by Pickering Units 1 and 2 as compared with Lambton Units 1 and 2 coal-fired units and amounted to \$23.3 million for the year. The cost of the investment is amortized on a straight-line basis and amounted to \$4.8 million for the year as a charge to operations.

6. La Prade heavy water plant

In 1974, the Company commenced construction of a 725 metric-ton-per-year heavy water plant near Gentilly, Quebec. Capital expenditures to March 31, 1979 are \$378.7 million (including \$57.6 million of interest on loans); financing was provided by advances from the Government of Canada of \$353.6 million bearing interest at a weighted average rate of 9.44% and repayments commencing September 1, 1984 or the first anniversary of the in-service date, whichever comes first. Payments are based on production and payable in 25 annual instalments, to be fully paid by September 1, 2009.

Pursuant to a broad ranging expenditure restraint program and reflecting the reduction in the medium-term demand for heavy water, the Government of Canada announced in August 1978 that it planned to suspend construction of the La Prade heavy water plant. Accordingly the Company suspended construction and is proceeding to mothball the plant in an orderly manner consistent with retention of the asset base. Outstanding commitments and costs to mothball the plant are estimated at \$94 million. The Company has received, subject to certain conditions being met, approval in principle from the Government of Canada for recovery of mothballing costs and suspension of interest on advances during the mothball period. The Company has discussed the final disposition of the asset and related advance with the Government of Canada, and pending a final decision by the Government, the Company has retained the asset and the advance at their book values.

7. Payment in escrow

In 1971, the Company supplied heavy water to a foreign government under a lease agreement granting an option to purchase. The agreement required compliance with specified conditions set by the Government of Canada as well as those stipulated in a multi-national agreement. Although the foreign government has purported to have exercised the option to purchase by forwarding payment in 1978, the Company, after consultation with Canadian government authorities, has refused to recognize the exercise of the option because the foreign government has not complied with all of the specified conditions.

8. Uncompleted contracts

(a) Construction of nuclear power plants—

- (i) The Company, together with its partner, Italmipianti—Societa Italiana Impianti, Italy, has contracted to deliver in 1981 a 600 megawatt (electric) nuclear generating station to Comision Nacional de Energia Atomica, Argentina. In general, the contract stipulates a firm price subject to adjustment for escalation up to certain ceilings.

In its 1977 accounts the Company provided for an estimated loss of \$130 million on this project. In view of an extended work schedule under conditions of rapid inflation in Argentina combined with the foreign exchange rate policy of that country, determination at this time of potential losses on the Argentine portion of the contract cannot be made with certainty. The Company has initiated discussions with the customer primarily with a view to providing protection against such losses. Management believes that these discussions will be successful and, based on this and current forecasts, is of the opinion that the provision for loss on this project recorded in 1977 remains appropriate at March 31, 1979.

- (ii) The Company has also contracted to deliver in 1981 a 600 megawatt (electric) nuclear power plant to the Korea Electric Company. This contract stipulates firm prices for the Canadian content of the nuclear steam supply system with provision for adjustment for escalation; the balance of the project, relating to the non-nuclear portions of the station, is on a cost-reimbursable basis. Current projections indicate an excess of revenue over contract costs.

ATOMIC ENERGY OF CANADA LIMITED—Continued

NOTES TO FINANCIAL STATEMENTS MARCH 31, 1979—Concluded

- (iii) The status of accumulated costs and billings of these uncompleted long-term contracts to March 31 is summarized as follows:

	(000's)	
	1979	1978
Billings in accordance with contract terms	\$438,236	\$290,197
Deduct: Construction costs incurred ..	400,181	258,460
Billings in excess of costs	<u>\$ 38,055</u>	<u>\$ 31,737</u>

- (b) Nuclear engineering services—

At March 31, 1979 the estimated cost to complete outstanding contractual commitments on two major domestic contracts exceeded recoverable amounts by \$6.8 million, for which a provision has been made in prior years. Losses realized during the current year amounted to \$3.5 million which had been fully provided for in prior years.

- (c) Heavy water—

The Company has determined that the balance of the 1977 provision for losses on fulfilling contractual sales commitments for heavy water in the amount of \$2.5 million is adequate in respect of sales commitments outstanding at March 31, 1979. Heavy water production in the next year is committed at firm prices that are not expected to recover interest charges.

9. Major commitments

- (a) In July 1969, the Company entered into a contract with Ontario Hydro whereby the Company is committed to purchase all of the Cobalt-60 produced at the Pickering generating station for a period of 30 years from the in-service date (1971) of the installation. The contract is independent of market demand and may be terminated by agreement between the parties.
- (b) In December 1978 the Company entered into an agreement with Foreign Trade Company Romenergo, for the licensing of Candu reactors in Romania and the provision of engineering and procurement services for the construction of a 600 megawatt nuclear reactor. These contracts became effective May 11, 1979.
- (c) The Company has a contract with Hydro Quebec to supply 1,440 megagrams of heavy water by 1990 at a price that is intended to recover all relevant costs. The Company is required to repurchase up to 960 megagrams of the heavy water in 1995 if declared surplus by Hydro Quebec. This contract is currently under review in connection with the mothballing of the La Prade heavy water plant.

10. Supplementary information

- (a) During the year, the Company's Board of 13 directors received aggregate remuneration as directors of \$24,200 (1978—\$22,400). The Company has 10 officers, two of whom are also directors. The aggregate remuneration received by these officers and by past officers amounted to \$504,600 (1978—\$496,500).
- (b) During the year remuneration and expenses paid to the following 36 sales agents and representatives, primarily with respect to the operations of the Radiochemical Division, aggregated \$1,547,688 (1978—\$2,236,291): Gammaster, The Netherlands; Kostas Karayannis, Greece; C.G.R. BANK OF CANADA

AUDITORS' REPORT

We have examined the statement of assets and liabilities of the Bank of Canada as at December 31, 1978 and the statement of income and expense for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these financial statements present fairly the financial position of the Bank as at December 31, 1978 and the results of its operations for the year then ended in accordance with the attached summary of significant accounting policies, applied on a basis consistent with that of the preceding year.

CANADA DEPOSIT INSURANCE CORPORATION

(Established by the Canada Deposit Insurance Corporation Act)

AUDITOR GENERAL OF CANADA

THE HONOURABLE JEAN CHRÉTIEU, P.C., M.P.,
MINISTER OF FINANCE,
OTTAWA, ONTARIO.

I have examined the balance sheet of the Canada Deposit Insurance Corporation as at December 31, 1978 and the statements of income and accumulated net earnings and financial activities for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Corporation as at December 31, 1978 and the results of its operations and financial activities for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Corporation, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1978

1. Objective of the Corporation

The Canada Deposit Insurance Corporation was incorporated as a Crown corporation on April 17, 1967 under the provisions of the Canada Deposit Insurance Corporation Act.

The Corporation's principal objective is to provide insurance of deposits with federal institutions (banks and trust and loan companies) and with approved provincial institutions (trust and loan companies) up to a stated amount per depositor per institution. Premiums are assessed against member institutions based on insurable deposits held by those institutions on April 30 of each year.

2. Significant accounting policies

Premiums

Premiums are credited directly to the Deposit Insurance Fund in accordance with section 18 of the Canada Deposit Insurance Corporation Act.

Revenue

Return on investments is reported inclusive of gains and losses on sales of investments and of the annual amortization of premiums and discounts on fixed term securities.

Recognition of losses

Provision for losses arising from actions taken to secure the subrogation of depositors' rights and interests is established in the year these actions are taken or as soon as possible thereafter when the eventual losses can be reasonably estimated.

Income taxes

The Corporation accounts for income taxes using the deferral method of tax allocation which recognizes timing differences in reporting items for income tax and financial statement purposes. The significant timing differences result from claiming a reserve on its investments as provided for by the Income Tax Act and from including in reported income accrued interest not taxable until received.

3. Investments

4. Assets acquired from member institutions

Assets acquired from member institutions comprise Canada bonds and other bonds and debentures recorded at amortized cost, and mortgages recorded at cost.

	1978	1977
Canada bonds	\$ 158,710	\$ 158,596

	<u>\$2,445,893</u>	<u>\$2,867,370</u>

Market value of Canada bonds and other bonds and debentures at December 31, 1978 was \$938,307 (1977—\$995,683).

5. Premiums and premium rebates

As provided in section 19(8) of the Act and as approved by the Board of Directors on February 2, 1972, member institutions were assessed reduced premiums during the year and in every year since 1972. Under an amendment to the Act dated June 29, 1977, the Corporation may pay a premium rebate to member institutions subject to stated limitations where, in the opinion of the Corporation, the Deposit Insurance Fund at the end of a financial year is adequate, having regard to all the circumstances. In 1978 the Corporation paid individual premium rebates totalling \$3 million; no premium rebates were paid in 1977.

6. Insured deposits

Deposits insured by the Corporation, based on returns received from member institutions, totalled \$71,706 as of April 30, 1978, comprising deposits of \$64,011 million in federal institutions and \$7,695 million in provincial institutions. Of the deposits insured in provincial institutions, \$823 million was covered by a temporary agreement with one province to indemnify the Corporation against losses on those deposits.

CANADIAN ARSENALS LIMITED
(Incorporated under the Canada Corporations Act)

AUDITOR GENERAL OF CANADA

THE HONOURABLE ROCH LA SALLE, P.C., M.P.
MINISTER OF SUPPLY AND SERVICES
OTTAWA, ONTARIO.

I have examined the balance sheet of Canadian Arsenals Limited as at March 31, 1979 and the statements of income, deficit and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

As described in Notes 4 and 8 to the financial statements, the fixed assets used by the Company, including those purchased with funds provided from its annual parliamentary appropriation, are considered to be owned by Canada and therefore are not recorded as assets in the Company's accounts. The Company does not pay for the use of such assets and has not determined a fair value for their use. In my opinion, fixed assets purchased with funds provided by appropriations should be included as assets on the Balance Sheet and a corresponding amount should be included in parliamentary appropriation in the Statement of Deficit. The resulting depreciation charges and any related interest charges would have the effect of decreasing the net income for the year. In addition, certain of the fixed assets, mainly land and buildings, were paid for by Canada, prior to the establishment of the Company and are still owned by Canada. The continued

failure to include a charge in the Income Statement for the use of such assets, further overstates the net income for the year and understates the deficit.

In my opinion, except for the matters referred to in the preceding paragraph, the financial statements give a true and fair view of the financial position of the Company as at March 31, 1979 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Company, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1979

1. Incorporation and operation

The Company was incorporated on September 20, 1945 under the Companies Act of 1934 on the recommendation of the Minister of Reconstruction pursuant to authority granted by Order in Council P.C. 5929 of September 14, 1945.

Since 1978, the Company has extended its operations to the manufacture of products related to ammunition. It had previously been limited to the assembly of ammunition components.

2. Significant accounting policies

(a) Inventory valuation

Inventories of finished goods and work-in-process are valued at the lower of cost and net realizable value. Inventories of manufacturing supplies are valued at the lower of cost and replacement cost.

(b) Sales

Sales are recorded on the basis of deliveries. The Company is committed to its customers for the performance of its suppliers and thus may absorb losses on default of the suppliers. Such losses are recorded as they occur or are known.

(c) Progress billings to customers and from suppliers

Progress billings to customers are recorded on the basis of milestones provided in the contracts. The title for the goods is not transferred by the Company at the time of the progress billing which is nevertheless recognized by the Company as a liability.

Progress billings from suppliers result from the Company signing purchase contracts with the suppliers in order to meet requirements of the contracts entered into with its customers. Progress billings become due for payment on the basis of milestones provided in the contracts.

(d) Employee termination benefits

Employees are entitled to specified benefits on termination as provided for under labour contracts and conditions of employment. The liability for these benefits is recorded in the account as the benefits accrue to the employees. No pension liabilities are reflected in the statement as the employees contribute to the pension plan of the Government of Canada.

3. Inventories

4. Fixed assets

The fixed assets are owned by the Crown, are administered by the Company and are not reflected in the financial statements. The cost at March 31 were as follows:

	1979	1978
Land and improvements	\$ 2,289,099	\$ 2,286,854
Buildings	11,245,806	11,420,054

	<u>\$22,748,230</u>	<u>\$22,839,595</u>

5. Loans due to Canada

These loans which provide working capital to the Company bear no interest and have no fixed repayment dates.

6. Write-off of prior year provision

Due to an agreement reached during the year, the Company was released of the obligation to complete the work on a contract interrupted in 1974. Accordingly, the provision for loss recorded during the previous year has been written-off in the current year.

CANADIAN BROADCASTING CORPORATION—Continued

NOTES TO FINANCIAL STATEMENTS

MARCH 31, 1979

1. Significant accounting policies

(a) Engineering and production supplies

The inventory of engineering and production supplies is stated at the lower of cost and net realizable value. Cost is determined by the average cost method.

(b) Programs completed and in process of production

The inventory of programs produced, and in process is stated at cost. Cost includes goods and services, direct labour and the share of overhead expenses applicable to each program. The total program cost is charged to operations upon broadcast or when programs are determined unusable.

(c) Prepaid film rights

The Corporation enters into contracts for film broadcasting rights. As payments are made under the terms of each contract they are reflected in the accounts as prepaid film rights. The prepaid film rights are then charged to operations as the films are broadcast or determined unusable.

(d) Investments

Investments are stated at cost. Revenue arising from the investments is recognized as income when received.

(e) Fixed assets

Fixed assets are stated at cost. Cost includes material, engineering services, direct labour and related overhead. These costs are depreciated on the straight-line method using the following rates based on the estimated useful lives of assets:

Buildings	33 years
Technical equipment:	
Transmitters and towers	20 years
Other	10 years
Furnishings and equipment	10 years
Automotive	5 years

(f) Employee termination benefits

The employee termination benefits are provided in the accounts as benefits accrue to employees under the respective terms of employment.

Télévision St. François Inc.	350	350
Master FM Limited	2	2
	<u>352</u>	<u>352</u>

3. Change in application of depreciation

During the year, the Corporation changed its depreciation method on capital acquisitions and disposals. In future, depreciation will not be applied to assets in the year of acquisition but will commence in the following year. In addition, full depreciation will now be applied in the year of disposal. The effect of this change on the current year's depreciation is a reduction of \$4,568,000.

The Corporation also changed the estimated useful life of Studio Electrical Equipment from 20 years to 10 years. This change was applied to current year only and resulted in an increase of \$578,000 in depreciation.

4. Subsidiaries

The subsidiary companies CJBR Radio Limitée and CJBR-TV Limitée ceased operations as of April 1, 1978 and the assets were transferred to the Corporation. As a result, consolidated financial statements have not been prepared this year.

5. Proceeds from parliamentary appropriations

	(in thousands of dollars)		
	Operating	Capital	Total
(a) Payment to the Corporation in providing a broadcasting service	476,900	79,500	556,400
Refundable to Canada		467	467

Proceeds retained—March 31/79	4,771	239	5,010
—March 31/78	<u>2,480</u>	<u>220</u>	<u>2,700</u>

As at March 31, 1979, the unexpended balance of operating appropriations in providing a broadcasting service amounting to \$6.6 million (\$4.1 million in 1978), has been retained by the Corporation and included in the Proprietor's Equity Account.

6. Advances from Canada

Advances are made for working capital purposes and are free of interest. These advances become repayable to the Receiver General of Canada when amounts on hand (cash and marketable securities) are in excess of the Corporation's needs for working capital. Proprietors' equity account has been restated to exclude \$9.0 million of such advances included in the opening balance.

7. Loans from Canada

The loans from Canada are to finance the acquisition of fixed assets and bear interest at rates approved from time to time by the Minister of Finance as required under the terms of the loans. The interest rates vary from 5¼% to 8½% per annum. Payment of principal and interest on loans from Canada due after March 31, 1974 has been deferred until such time as the Government of Canada seeks Parliamentary Authority to delete the assets which have been identified in the 1978 Public Accounts to be written off or to March 31, 1981, whichever is the earlier, in accordance with Order in Council P.C. 1979-1105.

8. Pension plan

The latest three year actuarial evaluation as at December 31, 1977 estimated the unfunded liability under the Corporation's pension plan to be \$116.7 million, compared to \$47.7 million at December 31, 1974. Changes in the regulations of the Pension

CANADIAN BROADCASTING CORPORATION—Concluded**NOTES TO FINANCIAL STATEMENTS MARCH 31, 1979—Concluded**

Benefits Standards Act, allowed the Corporation to liquidate the estimated unfunded liability outstanding at December 31, 1976 over 30 years and subsequent increases over periods not exceeding 15 years. During the year, the Corporation paid \$22.8 million into the plan which includes \$19.8 million required by the actuarial evaluation for the calendar years 1977, 1978 and 1979; and an additional \$3.0 million. The payment has been charged to appropriate expense categories on the statement of income and expense. Future years' contributions to liquidate the remainder of the unfunded liability will be made in accordance with the amortization schedule included in the actuarial evaluation.

9. Contractual obligations

The Corporation has entered into commitments for future film rights amounting to approximately \$21.5 million.

The Corporation is also committed in the course of normal business under unexpired lease contracts to future expenditures of approximately \$59.6 million of which \$39.0 million will become payable over the next three fiscal years with the balance becoming payable over the subsequent fourteen years.

10. Contingent liabilities

In the ordinary course of the business of the Corporation, there are matters in suit and in dispute and contingencies outstanding against it. In the opinion of management, the losses, if any, which may result from the settlement of these matters will not be material.

11. Prior years' adjustments

The prior years' adjustments resulted from changes in the Corporation's accounting policies for interest on loans (\$42,159,000), employee termination benefits (\$37,055,000) and employee vacation pay (\$16,924,000).

12. Comparative figures

Certain of the 1978 comparative figures have been reclassified to conform to the presentation of 1979.

CANADIAN COMMERCIAL CORPORATION

Incorporated under the Canadian Commercial Corporation Act)

AUDITOR GENERAL OF CANADA

THE HONOURABLE ROBERT R. DE COTRET, P.C.,
MINISTER OF INDUSTRY, TRADE AND COMMERCE AND
MINISTER OF STATE FOR ECONOMIC DEVELOPMENT,
OTTAWA, ONTARIO.

I have examined the balance sheet of the Canadian Commercial Corporation as at March 31, 1979, and the statements of operations, retained earnings and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

As described in Note 10 to the financial statements, a legal suit for approximately \$6.8 million plus accrued interest and costs has been filed against the Corporation, claiming damages arising from the termination of a portion of a contract. The Corporation is contesting this suit; however, the ultimate outcome is uncertain at this time.

In my opinion, subject to the outcome of the litigation, as described in the preceding paragraph these financial statements give a true and fair view of the financial position of the Corporation as at March 31, 1979 and the results of its operations and the changes in its financial

position for the year then ended in accordance with generally accepted accounting principles applied, after giving retroactive effect to the change in the method of accounting for progress billings referred to in Note 3 to the financial statements, on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Corporation, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

NOTES TO FINANCIAL STATEMENTS MARCH 31, 1979

1. Operations

The Corporation acts primarily as the contracting agency when other countries and international agencies wish to purchase supplies and services from Canada on a government-to-government basis.

Since April 1978, the Corporation is no longer contracting on behalf of the Canadian International Development Agency (C.I.D.A.) for the Grant Aid Program. Contract billings on behalf of C.I.D.A. approximated \$128 million in 1977/78 and were \$17 million in 1978/79 on contracts negotiated prior to April 1978.

Contracts are made with the purchaser (the Corporation's customer) and equivalent contracts are entered into with suppliers by the contracting arm of the Department of Supply and Services of the Government of Canada.

The Corporation is charged for contracting services rendered by the Department of Supply and Services according to Treasury Board approved, pre-determined rates, applied to the amounts of contracts procured.

Surpluses considered to be in excess of requirements, shall, if the Minister so directs, be transferred to the Receiver General for Canada. Reimbursement of realized deficits is contingent upon Parliamentary appropriations.

The Corporation is not liable for the payment of income taxes.

The Corporation has no capital stock. Paid in capital of \$10,000,000 comprises amounts received from Canada under subsection 8(1) of the Canadian Commercial Corporation Act.

2. Significant accounting policies

(a) Contract billings

Contracts are entered into with suppliers by the Corporation to fulfill the requirements of sales contracts which were entered into with its customers. While the provisions of both contracts are reciprocal, the Corporation is committed to its customers for the performance of its suppliers and thus may absorb losses upon default of the suppliers.

Sales are recorded at the time of delivery except in the case of contracts involving progress payments, where sales are recorded at the time progress payments become due. Since title to goods has not passed from the suppliers on these progress billings, the Corporation continues to recognize the liability until time of delivery.

(b) Fixed assets

Fixed assets are charged to expense in the year of acquisition. As at March 31, 1979 the aggregate original cost of furniture and office fixtures on hand amounted to \$67,000 (1978-NIL).

(c) Foreign currency

The greater part of the Corporation's business is conducted in U.S. dollars which have been translated to Canadian dollars. All assets, liabilities, income and costs have been translated at the exchange rate on March 31, 1979. Gains and losses resulting from foreign currency transactions, including translations, are included in the Statement of Operations.

3. Changes in accounting policies

Progress billings from suppliers and progress billings to customers.

During the year, the Corporation adopted the policy to reduce its commitments to customers upon each delivery rather than upon full completion of contracts.

CANADIAN COMMERCIAL CORPORATION—*Concluded*NOTES TO FINANCIAL STATEMENTS MARCH 31, 1979—*Concluded*

The change had the effect in 1978-79 of decreasing progress billings from suppliers and progress billings to customers by approximately \$84 million. The previous year's financial statements have been restated to reflect this change and the progress billings from suppliers and progress billings to customers have been decreased by approximately \$82 million.

4. Accounts receivable from foreign governments

The Corporation's sales are on a government-to-government basis and the settlement of some accounts is protracted. Provision for losses is based on a review of all outstanding accounts with foreign governments. In respect of this review, the Corporation recognizes that the future economic and political conditions in some of the debtor countries are subject to forces which are unpredictable. Accordingly, delays in payment may occur from time to time which are not necessarily indicative of a need to make provision for future losses.

As of March 31, 1979 approximately \$2.7 million (\$2.3 million in 1978) of receivables had been outstanding in excess of one year. The Corporation has established a provision of \$1.3 million through a charge to operations, against the possibility of non-collection of certain of these accounts.

5. Contractual commitments

As of March 31, 1979 the Corporation was committed to fulfill contracts with customers amounting to \$293 million.

As noted under "Significant accounting policies", the Corporation is committed to its customers for the performance of its suppliers and thus may absorb losses upon default of the supplier. A provision of \$4.1 million has been recorded for potential contract losses which it is estimated may be realized if certain suppliers are unable to meet contractual obligations. This amount has been netted against contract profits on the Statement of Operations.

6. Advances received from customers

Certain advances received from customers amounting to \$2,117,751 (\$1,959,099 in 1978) bear interest at prevailing short-term bank deposit rates.

7. Loan to supplier

During 1971 the Corporation entered into a loan agreement with a supplier. The original agreement has been subsequently amended to provide that the Corporation controls the supplier's ability to obtain financing and to change ownership. The loan is non interest-bearing, unsecured and repayable in annual installments of increasing amounts terminating in 1990.

8. Investment in supplier

During 1976 the Corporation renegotiated certain supplier contracts and acquired 527,855 common shares and one special preference share of a supplier for a nominal value of \$1.00. This was done to fulfill contractual obligations to a major customer and to reduce a possible loss of \$5.8 million to approximately \$3.0 million.

The Corporation has a minority interest through its holding of common shares. These shares are subject to a voting trust which grants the controlling shareholder the voting rights of these shares until 1987. The Corporation holds the only issued preference share which grants certain powers over the supplier's ability to: borrow, mortgage property, dispose of all or part of its undertaking, pay dividends, enter into contracts and pay management fees.

The Corporation intends to dispose of this investment in 1979.

9. Loans payable to Canada

Subsection 8(2) of the Canadian Commercial Corporation Act states that the Corporation may borrow up to \$10,000,000 from the Consolidated Revenue Fund on such terms and conditions as determined by the Governor in Council. As at March 31, 1979, \$3,300,000 was outstanding as follows:

<u>Amount</u>	<u>Due date</u>	<u>Interest rate</u>
\$1,800,000	—	6.3%
\$1,500,000	—	6.3%

10. Contingent liability

The Corporation is named as defendant in a legal action instituted in 1975 claiming damages for alleged losses resulting from the termination of a portion of a contract. Total damages claimed are \$6.8 million plus accrued interest and costs. The action is being contested and the ultimate outcome is uncertain. Management is of the opinion that no provision for settlement is required.

11. Representative agreement

The Corporation has entered into a representative agreement with Dismatica Industrial C.A. of Venezuela to whom aggregate fees of \$12,583 were paid during the year (\$25,000 in 1978).

Representative agreements have also been entered into with Sunda Karya Corporation Indonesia P.T. and Jasa Murni Sdn. Bhd. of Malaysia, but no payments under these agreements have been made or are due.

12. Restatement of comparative figures

Contract billings and cost of contract billings for the year ended March 31, 1978 have been restated to exclude progress billings on fixed price contracts included in error at the time of final billing of the contracts.

Comparative figures for progress billings from suppliers and progress billings to customers have been reclassified to conform to the current year's presentation.

CANADIAN DAIRY COMMISSION

(Established by the Canadian Dairy Commission Act)

AUDITOR GENERAL OF CANADA

THE HONOURABLE JOHN WISE, P.C., M.P.,
MINISTER OF AGRICULTURE,
OTTAWA, ONTARIO.

I have examined the balance sheet of the Canadian Dairy Commission as at March 31, 1979 and the statements of retained earnings, operations expense, marketing operations and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

As a result of the changes referred to in Notes 3 and 4 to the financial statements the Commission is unable to determine if over-quota and contingency levies to March 31, 1979, should be recorded as revenue in the twelve months ended March 31, 1979. Consequently, these amounts have been recorded as liabilities on the balance sheet until the end of the dairy year, July 31, 1979.

In my opinion, subject to the effects of such adjustments, if any, as may be required on final determination of the matters referred to in the preceding paragraph, these financial statements give a true and fair view of the financial position of the Commission as at March 31, 1979 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Commission, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1979

1. Objectives

The objectives of the Canadian Dairy Commission as established by the Canadian Dairy Commission Act 1966-67 are "to provide efficient producers of milk and cream with the opportunity of obtaining a fair return for their labour and investment and to provide consumers of dairy products with a continuous and adequate supply of dairy products of high quality".

2. Significant accounting policies

Accounting basis

(a) Statement of Operations Expense

This statement reflects the expenses of the Commission which are recoverable from funds provided through parliamentary appropriations. Such expenses include subsidies to producers on milk and cream used for industrial purposes, any loss on marketing operations, expenses related to marketing operations, administration expense, expenditures for produce, market research, product promotion and advertising programs. Any net income on Marketing Operations is held by the Commission to offset future costs of marketing operations.

(b) Statement of Marketing Operations

The statement of Marketing Operations reflects the results of the operation of the Commission in the export of surplus dairy products. It also includes assistance payments made directly to exporters to permit them to compete on world markets as part of the Commission's export program.

CANADIAN DAIRY COMMISSION—Continued

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1979—Concluded

3. Change in dairy year

During 1978-79 the quota period on which subsidies are based was changed. The quota period is now to begin August 1 and end on July 31, and the national quota of industrial milk and cream has been increased to cover the sixteen month period, April 1, 1978 to July 31, 1979. To facilitate this change, the dairy year for 1978-79 has also been extended from twelve to sixteen months. The 1978-79 quota period and dairy year will end on July 31, 1979.

At March 31, 1979 over-quota levies of \$10,107,428 had been collected from the provinces. While the provinces calculate over-quota levies on a monthly basis the Commission determines over-quota levy revenue on a national basis for the dairy year in total. Production considered by the provinces to be over-quota at March 31, may not be over-quota on July 31, 1979. Therefore, the over-quota levies of \$10,107,428 have not been included as revenue in the calculation of the income from marketing operations, but instead have been shown on the balance sheet as a liability.

4. Contingency levies

Producers are charged a contingency levy of 20¢ per hundred-weight to offset the cost of disposal of surplus product on production within the allotted market share quota, but beyond Canadian requirements. Contingency levies of \$13,886,511 received to March 31, 1979 are being held in trust pending the determination at the end of the extended dairy year of the amounts refundable to producers. Total accrued contingency levies to March 31, 1979 amount to \$18,964,977.

5. Funding of dairy support operations

	1979	1978
Funds received from Agricultural Stabilization Board through Agriculture Vote 20	\$245,275,867	\$258,098,039
Account receivable from Agricultural Stabilization Board, representing funds receivable for the dairy support operations (subject to funds being appropriated by Parliament)	41,834,521	29,265,493
	<u>\$287,110,388</u>	<u>\$287,363,532</u>

6. Inventories

The inventories are valued at the lower of cost and net realizable value and consist of:

	1979	1978
Skim milk powder	\$ 1,449,879	\$11,782,488
Butter	36,890,133	23,281,652
Other related dairy products	5,241,391	3,016,262
	<u>\$43,581,403</u>	<u>\$38,080,402</u>

These inventories have been adjusted as follows:

Skim milk powder

Prices on the world market are depressed, resulting in the estimated net realizable value of the inventory as at March 31, 1979, being \$2,600,000 (\$31,000,000 in 1978) less than the Canadian support price.

Butter

The inventory of 35.2 million pounds of butter at March 31, 1979 is 10.1 million pounds in excess of Canadian requirements. The excess will be exported at world prices and has been valued at \$7,800,000 (\$16,000,000 in 1978) less than the Canadian support price.

Other related dairy products

The inventory includes evaporated milk and whole milk powder and the estimated net realizable value of the inventory as at March 31, 1979 is \$690,000 (\$2,000,000 in 1978) less than acquisition cost.

7. Outstanding commitments

As at March 31, 1979, the Commission is committed to purchase skim milk powder and other related products produced prior to March 31, 1979 at the 1978 Canadian support prices in an amount of approximately \$3,200,000. The loss which may result from these purchases at higher than export prices has been estimated to be approximately \$2,000,000. The amount of this estimated loss has been charged to the marketing operations.

8. Loans from Canada

Loans from Canada obtained to finance the purchase of dairy products bear interest rates varying from 7.375% to 10.125% per annum. Repayment terms are not specified in loan agreements. Interest, calculated on a simple basis, is paid at the time of any principal repayment. The amount of accrued interest at March 31, 1979 is \$2,200,000.

9. Contingent liability

At March 31, 1979 the Commission was a defendant in a lawsuit amounting to \$1,800,000. The lawsuit resulted from a dispute over the sale of butteroil.

10. Agents' commissions

The Commission has appointed three sales agents in connection with marketing surplus dairy products.

Commissions paid or payable are as follows:

Date of Appointment	Name of Agent	Market Area	1979	1978
November 1976	Coop Fédérée de Québec	Algeria	\$ 777,064	\$ 476,732
April 1977	Ault Foods Ltd.	Mexico	594,374	650,555
August 1977	Lucalex Inter.	Malta		39,682
			<u>\$ 1,371,438</u>	<u>\$ 1,166,969</u>

11. Financing

Agriculture Vote 50 which is appropriated to pay program expenditures for the Commission will lapse \$156,000 in 1979 (\$896,000 in 1978).

NOTES TO FINANCIAL STATEMENTS MARCH 31, 1979

1. Objective and activities

The Corporation was established in 1967 under the Canadian Film Development Corporation Act with the objective of fostering and promoting the development of a feature film industry in Canada. To achieve its objective, the Corporation advises and assists the Canadian producers, invests in Canadian feature film productions in return for a share in the proceeds from such productions and make loans to producers and charge interest thereon.

2. Significant accounting policies

(a) Investments in feature films

The Corporation's investments in feature films are carried at the lower of cost and net realizable value. Net realizable value represents estimated future revenues attributable to the Corporation's investment in feature films during the current and preceding years.

(b) Fixed assets

Fixed assets are carried at cost and depreciation is provided at 20% per annum under the diminishing balance method for furniture and equipment and under the straight-line method for leasehold improvements.

(c) Equity of Canada

Parliamentary appropriations are credited to the Statement of Equity of Canada and the net cost of operations is charged thereto.

(d) Employee termination benefits

Employees are entitled to specified benefits on termination as provided for under conditions of employment. The liability for these benefits is recorded in the account as benefits accrue to the employees. No pension liabilities are reflected in the statement as the employees contribute to the pension plan of the Government of Canada.

3. Statutory appropriations

By the provisions of the Canadian Film Development Corporation Act \$10,000,000 was appropriated from the Consolidated Revenue Fund to be withdrawn by the Corporation from time to time for the furtherance of its objective. This sum was increased to \$20,000,000 in 1971-72 and to \$25,000,000 in 1975-76. The status of the appropriation at March 31 is as follows:

	1979	1978
Amount appropriated	\$ 25,000,000	\$ 25,000,000
Amount withdrawn in prior years	<u>23,995,550</u>	<u>23,995,550</u>
Balance of appropriation at beginning of the year	1,004,450	1,004,450
Amount withdrawn during the year	<u>1,004,450</u>	<u></u>
Balance of statutory appropriation at end of the year	\$ <u></u>	\$ 1,004,450

4. Commitments

The Corporation is committed under contractual agreements to invest an amount of \$731,237 (1978—\$266,576) in Canadian feature film productions. The Corporation has also agreed in principle to invest an additional amount of \$541,125 (1978—\$998,500) in other Canadian feature film productions subject to certain conditions being met by the applicants.

CANADIAN FILM DEVELOPMENT CORPORATION—Concluded**NOTES TO FINANCIAL STATEMENT MARCH 31, 1979—Concluded****5. Remuneration of Directors and Officers**

Expenses include remuneration of Directors as Directors \$3,750 (1978—\$8,000) and remuneration of Officers as Officers \$63,328 (1978—\$72,269). The Corporation has five Directors and two Officers; one Officer is also a Director.

6. Anti-Inflation Legislation

The Corporation is subject to, and has complied with, controls on compensation under the Anti-Inflation Program of the Government of Canada.

CANADIAN LIVESTOCK FEED BOARD
(Established under the Livestock Feed Assistance Act)

AUDITOR GENERAL OF CANADA

THE HONOURABLE JOHN WISE, P.C., M.P.
MINISTER OF AGRICULTURE
OTTAWA, ONTARIO.

I have examined the balance sheet of Canadian Livestock Feed Board as at March 31, 1979 and the statements of operations and deficit for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Board as at March 31, 1979 and the results of its operations for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Board, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

NOTES TO THE FINANCIAL STATEMENTS
MARCH 31, 1979

1. Nature of activities

The objectives of the Board are to ensure the availability of feed grain to meet the need of livestock feeders, the availability of adequate storage space in Eastern Canada for feed grain, and the maintenance of reasonable stability in, and fair equalization of, feed grain prices in Eastern Canada and British Columbia.

2. Significant accounting policies

a) Basis of presentation

The claims for freight assistance are recorded as expenses in the period in which the shipments take place.

Payments made in April relating to the previous year are recorded as due from Canada in respect of parliamentary appropriations to the extent of available funds.

b) Equipment and office furniture

Purchases of furniture and equipment are recorded as administrative expenses in the year of acquisition.

c) Services provided without charge

An estimate of accounting and cheque issue services provided without charge by a government department is included as an expense and credited to Deficit.

d) Employee termination benefits

Employees are entitled to specified benefits on termination as provided for under the collective agreements and condition of employment. The liability for these benefits is recorded in the accounts as the benefits accrue to the employees. No pension liabilities are reflected in the statement as employees contribute to the pension plan of the Government of Canada.

3. Financing

Funds have been provided to the Board from parliamentary appropriations as follows:

	1979	1978
Agriculture		
Vote 55—Operating expenditures	\$ 908,000	\$ 885,000
Vote 60—Contributions	11,400,000	10,000,000
Vote 60B—Contributions		1,000,000
Treasury Board		
Vote 5—Contingencies	1,920,000	
	<u>14,228,000</u>	<u>11,885,000</u>
Less:		
Parliamentary appropriations lapsed	72,691	111,718
Recoveries of prior years' contributions received during the year and paid to Canada	17,703	91,103
	<u>\$14,137,606</u>	<u>\$11,682,179</u>

4. Commitments

In respect of the Local Feed Grain Security Program the Board estimates that over the next five years amounts up to a maximum of \$1,570,000 could be paid relating to storage assistance for claims already accepted.

5. Inland Elevator Programs

Since April 1, 1979 the Board administers the Inland Elevator Programs, previously a responsibility of the department of Agriculture. Under these programs the Board will contribute to the costs of expanding existing inland elevators and to the construction of new inland elevators.

6. Executive remuneration

Included in expenses for 1979 is the remuneration of three directors, as directors, \$22,888 (1978—\$20,638) and six officers, as officers \$182,354 (1978—\$173,712). One officer is also a director.

7. Comparative figures

Some of the 1978 comparative figures have been restated to conform with the financial statement presentation adopted for 1979.

CANADIAN NATIONAL RAILWAY SYSTEM

AUDITORS' REPORT

TO THE HONOURABLE THE MINISTER OF TRANSPORT,
OTTAWA, CANADA.

We have examined the consolidated balance sheet of the Canadian National Railway System as at December 31, 1978 and the consolidated statements of income, retained earnings and changes in financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion these consolidated financial statements are properly drawn up so as to give a true and fair view of the state of affairs of the System as at December 31, 1978 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Also, in our opinion, proper books of account have been kept and the transactions that have come to our notice have been within the powers of the System.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 1: Summary of Significant Accounting Policies

Introduction

All references in these Notes to the “Company” include the Canadian National Railway Company and its consolidated subsidiaries, and all references to the “System” mean Canadian National Railway Company and its consolidated subsidiaries together with the lines of railway and marine, telecommunications and other property entrusted by the Government of Canada to the Company for management and operation.

(a) Principles of Consolidation

The consolidated financial statements include the accounts of all subsidiaries and, consistent with the legislation governing the System, the accounts of the Canadian Government Railways entrusted to the Company by the Government of Canada. Investments in jointly-operated companies in which the Company has less than a majority interest are accounted for by the equity method where appropriate.

(b) Material and Supplies

The inventory has been priced at laid down cost based on weighted average cost for ties and rails, latest invoice price for fuel and new materials in stores, and at estimated utility or sales value for usable second hand, obsolete and scrap materials.

(c) Insurance Fund

The System is self-insured for various risks, maintaining a separately invested fund. The provision for insurance represents the estimated amount of self-insured losses to be adjusted.

(d) Property

Property is carried at cost, which, in the case of properties brought into the System at January 1, 1923, is the aggregate of the values then appearing in the books of the railways now comprised in the System, less a write-down of \$262.8 million at the time of capital revision in 1937. Accounting for railway and telecommunications property is carried out in accordance with rules issued by the Canadian Transport Commission and the Canadian Radio-television and Telecommunications Commission respectively (Canadian property), and the Interstate Commerce Commission (United States property), except, in the case of United States property, for the application of depreciation accounting to ties, rails, other track material and ballast as referred to below under Depreciation. Major additions and replacements generally are capitalized with the exception of labour costs relating to track material replacement which are charged to expense. The cost of depreciable assets retired or disposed of, less salvage, is charged to accumulated depreciation, in accordance with the group plan of depreciation.

(e) Depreciation

Depreciation is calculated at rates sufficient to write off properties over their estimated useful lives, generally on a straight-line basis in accordance with the group method. For railway and telecommunications properties, certain rates are authorized by the Canadian Transport Commission, the Canadian Radio-television and Telecommunications Commission and the Interstate Commerce Commission. The rates for significant classes of assets are as follows:

	Annual Rate
Ties	3.25%
Rails	1.15%
Other track material	1.90%
Ballast	4.00%
Road locomotives	4.60%
Freight cars	2.97%
Commercial communication systems	4.27%

(f) Pensions

Current service costs are charged to operations, and funded, as they accrue. Prior service costs are charged to operations over varying periods to 2027, as set out in Note 8, and are being funded by annual payments covering principal and interest over varying periods to 2006 (2014 in the case of U.S. Plans) as permitted by regulatory authorities.

(g) Foreign Exchange

Assets and liabilities in foreign currencies have been translated into Canadian dollars at current rates except for investments, property investment and long-term debt for which historical rates have been used. Income is charged or credited with all exchange differences. Income and expenses of foreign subsidiaries have been translated at average rates during the year except for depreciation provisions which are on the same basis as the related property investment.

CANADIAN NATIONAL RAILWAY SYSTEM—Continued

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—Continued

(a) Guaranteed by the Government of Canada.

(b) It is a condition of the 5¼% bonds due in 1985 and the 5% bonds due in 1987, that the Company will use its best efforts to purchase during each quarter of each calendar year to maturity when available in the open market at prices not greater than their respective original issue prices, at least ½ of 1% of the principal amount of the issue.

It is a condition of the 8% bonds due in 1987 that the Company will use its best efforts to purchase bonds during each of the following years and in the aggregate principal amounts set forth below, in each case at a price not exceeding the offering price (99¼%):

During each year commencing March 1	Principal Amount
1979	\$1,800,000
1980-1986	1,200,000

For the 9¼% sinking fund debentures due in 1998, there is a mandatory sinking fund provision under which the Company will pay, before March 15, 1984, and each year thereafter to and including March 15, 1997, a sum in cash sufficient to retire on each such March 15 U.S. \$8,000,000 principal amount of debentures at 100% of their principal amount.

For the 8¾% debentures due in 2002, there is a mandatory sinking fund provision under which the Company will pay before July 1, in each of the years 1983 to 2001 inclusive, an amount sufficient to redeem U.S. \$5,000,000 principal amount of debentures at 100% of their principal amount or deliver to the sinking fund debentures otherwise acquired of equivalent principal amount.

(c) Weighted average interest rate on Government of Canada loans and advances outstanding at December 31, 1978, was approximately 8.2% per annum (1977—7.7%).

(d) Under Orders-in-Council Nos. P.C. 1978-3051 and P.C. 1978-3052 dated October 4, 1978, pursuant to legislation referred to in Note 5 (a), the Company received authority to convert to equity, effective December 31, 1977, particular debts to the Government amounting to \$808 million and to consolidate into one debt, effective June 30, 1978, all the remaining debt of the Company to the Government, except the Canadian Government Railways advances for working capital. The debt so consolidated bears interest at 8.75% per annum calculated from July 1, 1978, and is payable over twenty years to June 30, 1998, in equal semi-annual payments of \$13.63 million covering principal and interest. (See Note 2 regarding cancellation of \$349,477 million of debt to the Government, equivalent to the Company's former investment in Air Canada and Note 5 (a) regarding restatement of certain comparative figures as at December 31, 1977).

Note 5: Shareholder's Equity

(a) Capital Stock

On June 30, 1978, "an Act to amend the Canadian National Railways Capital Revision Act and the Railway Act and to amend and repeal certain other statutes in consequence thereof" came into force. This Act has, as of December 31, 1977, had the effect of converting into no par value common shares of the capital stock of the Company \$808 million of debt owed to the

Government of Canada and consolidating all the elements of Shareholder's Equity other than retained earnings into such common shares. Concurrent with adoption of this legislation, the arrangement whereby the Government of Canada had made annual purchases of the Company's 4% preferred stock to provide for capital expenditure has been discontinued. The acquisition of 4% preferred stock by the Minister of Finance for 1977 was also restricted to an amount of \$51,448,697, effectively reducing the amount of preferred stock as at December 31, 1977, by \$22,542,145 to \$1,555,926,732. Since the Act requires that the accounts of the System be amended as of December 31, 1977, to reflect the foregoing adjustments and the consolidation of the elements of Shareholder's Equity, the related comparative figures as at that date have been restated within the accompanying financial statements as set out below.

(b) Retained Earnings

The legislation referred to in (a) above has also:

—provided for the retention by the Company of the net income for 1977 of \$28,018 million;

—repealed the requirement that all earnings be paid to the Government unless the Government directed that all or part of such earnings be applied in discharge of specified Company obligations;

—required payment to the Receiver General for Canada of a dividend equal to 20% of net income for 1978 and subsequent years, or such greater percentage as the Governor in Council may direct; and

—repealed the statutory prohibition against funding any income deficit.

Consistent with the new legislation, a dividend in the amount of \$27.2 million, representing 20% of the net income for the year 1978, has been accrued and is included in Other current liabilities.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—Continued

(b) Other

The Company has entered into a commitment with a major Canadian steel producer to purchase over a six-year period starting August 1, 1978, \$226 million worth of new rail.

Note 7: Subsidies

Revenues include the following subsidies:

	Year ended December 31	
	1978	1977
	(in thousands)	
Government of Canada		
(a) payments under the Railway Act paid under authority of that Act and the related Appropriation Act in respect of certain uneconomic operations, services and prescribed rates which railways are required by the Railway Act to maintain	\$238,045	\$240,621

Province of Quebec		
Montreal suburban commuter service subsidy	2,400	
	<u>\$352,684</u>	<u>\$350,097</u>

Note 8: Pensions

The Company has retirement benefit plans covering substantially all its employees under which they are entitled to benefits at retirement age, based on compensation and length of service. Pension costs are as follows:

	Year ended December 31	
	1978	1977
	(in thousands)	
	<u>\$175,960</u>	<u>\$148,304</u>

Effective January 1, 1978, the amount of past service costs remaining to be charged to operations was increased by \$171.8 million as a result of an actuarial valuation as at December 31, 1977. This increase is being charged to operations over periods up to fifteen years from January 1, 1978, in annual amounts determined as a fixed proportion of related payroll costs including principal and interest. The average annual amount to be charged to operations is \$22.4 million in the first five years and \$16.1 million in the next ten years.

The total amount of past service costs remaining to be charged to operations at December 31, 1978, based on the latest actuarial valuation as at December 31, 1977, (December 31, 1975 for the 1977 figures) adjusted for subsequent changes, amounted to:

	At December 31

Canadian plans	\$1,198,979	\$1,048,841
U.S. plans	14,134	14,241
	<u>\$1,213,113</u>	<u>\$1,063,082</u>

This amount is being charged to operations in annual amounts, including principal and interest, as follows:

	Annual Cost (in thousands)
1979—1982	\$128,810*
1983—1992	122,510*
1993—1996	27,046
1997—2014	22,936
2015—2027	22,040

*includes average annual amounts where payments are based on a proportion of payroll costs.

The charge to operations in 1978 exceeded the funding requirement by \$18.8 million. The cumulative excess of charges to operations over funding requirements, amounting to \$42.0 million, is included in Other Liabilities and Deferred Credits. The actuarially-computed value of vested benefits at December 31, 1977, the date of the latest actuarial valuation, exceeded the total of the pension funds at that date by \$613.3 million.

Note 9: Income Taxes

Undepreciated capital cost for income tax purposes exceeds the net book value of depreciable assets by about \$1.2 billion which is available to reduce taxable income of future years. During the year assessments were received from Revenue Canada increasing income for tax purposes in respect of the years 1969 to 1976. Notices of objection have been filed objecting to the inclusion in income of \$172 million and, in the opinion of Counsel, are likely to be successful. Accordingly, this amount has not been deducted from the aforementioned undepreciated capital cost.

The Company's effective tax rate in 1978 was 7.7% lower than the normal 48% due principally to inclusion in income of gains on sale of property of which only a portion is taxable.

Note 10: Anti-Inflation Act

The Anti-Inflation Act provided for the restraint of profit margins, prices, dividends and compensation during the period ended December 31, 1978. The System was subject to this legislation and has complied with it.

Note 11: Restatement of Comparative Figures

During 1978, changes were made to improve the classification of certain items and for comparative purposes the related figures for 1977 have been restated.

Note 12: Other Matters

- (a) On March 31, 1978, a conditional sales agreement was signed with VIA Rail Canada Inc. whereby the Company sold at book value to VIA Rail Canada Inc. passenger-related equipment for \$52,022,642. This amount is payable in 72 consecutive equal monthly payments of \$722,537, terminating on April 1, 1984.
 - (b) During the year the Company sold land at market value to the Canadian Broadcasting Corporation for \$19.5 million, which amount was applied in reduction of debt to the Government of Canada.
 - (c) Negotiations are continuing with the Government of Canada for the transfer from the Government to the Company of the vessels and facilities used in Atlantic Provinces ferry and coastal services which are at present operated by the Company together with certain funds for related capital expenditure purposes. It is expected that the Company will convey these properties and funds to CN Marine Inc. (previously known as CN Marine Corporation) which will thereafter provide the vessel services under compensatory contract arrangements with the Government. The value of assets transferred from Government ownership will be recorded as an increase in the Company's Shareholder's Equity.

AUDITOR GENERAL OF CANADA

THE HONOURABLE OTTO LANG, P.C., M.P.,
MINISTER OF TRANSPORT,
OTTAWA, ONTARIO.

I have examined the balance sheet of Canadian National (West Indies) Steamships Ltd. as at December 31, 1978. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

As more fully explained in Note 2 to the financial statement, the Company has been unable to collect the final instalment of \$470,400 on an agreement of sale. The collection of this balance is dependent upon a repeal of the United States Cuban Assets Control Regulations and, therefore, the ultimate collectibility of this amount is uncertain at this time.

In my opinion, subject to the collectibility of the final instalment of the agreement of sale referred to in the preceding paragraph, this financial statement gives a true and fair view of the financial position of the Company as at December 31, 1978 in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Company, the financial statement is in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

NOTES TO FINANCIAL STATEMENT DECEMBER 31, 1978

1. Nature of activities

The active operations of the Company ceased during 1957 on the sale of its fleet of eight vessels to Cuban interests.

During 1978, the Company applied for continuance under the Canada Business Corporations Act. Under the articles of continuance, the Company is authorized to issue a maximum of 10 Class A shares. Prior to continuance, the authorized capital was 10 shares of a par value of \$100 each.

2. Agreement of sale

The final instalment on the sale of the eight vessels to Cuban interests was due to be paid August 19, 1963 by an irrevocable letter of credit issued through the Bank of America. However on July 3, 1963, the United States Cuban Assets Control Regulations became effective which prohibited the Bank of America from honouring payment of the draft. Since that time, legal negotiations to obtain a preferred status, in order to collect the receivable, have not been successful and current legal opinion is that the monies will be collected when the regulations are repealed.

A waiver of the application of the statute of limitations has been obtained until January 1, 1984, and further extensions will be obtained as required.

3. Matured bonds—unclaimed

The matured bonds have been outstanding since March 1, 1955 and as a result there is no legal obligation to redeem them. Notwithstanding this, the Company intends to honour any of the outstanding bonds should they be presented.

CANADIAN PATENTS AND DEVELOPMENT LIMITED
(Incorporated under the Canada Business Corporations Act)

AUDITOR GENERAL OF CANADA

THE HONOURABLE ROBERT R. DE COTRET, P.C.,
 MINISTER OF INDUSTRY, TRADE AND COMMERCE
 OTTAWA, ONTARIO.

I have examined the balance sheet of Canadian Patents and Development Limited as at March 31, 1979 and the statements of surplus, income and expense and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances, except as noted below.

I was unable to satisfy myself concerning the amount of royalty income set forth in the statement of income and expense because of the inadequacies of the system to verify royalties earned and reported.

In my opinion, except for the effect of any adjustments which might have been required had I been able to satisfy myself with respect to the amount of royalty income, these financial statements give a true and fair view of the financial position of the Company as at March 31, 1979 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, except for the failure to apply adequate procedures to check the accuracy of royalties earned as reported by licensees, in my opinion, proper books of account have been kept by the Company, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1979

1. Objectives and operations of the Company

Canadian Patents and Development Limited was established to make available to the public through licensing arrangements with industry, the industrial and intellectual property which results from publicly-funded research and development.

The Company receives and processes industrial and intellectual property under arrangements with Federal Government Departments, Crown Corporations and Agencies, universities, and other publicly financed institutions. Suitable protection is sought in Canada and other countries for such property in instances where there is a promise of commercial use. In respect of money received from the exploitation of such property, the Company pays awards to public servants under the Public Servants Inventions Act and makes payments to other originators of such property in accordance with the agreements entered into with them.

2. Significant accounting policies

Industrial and intellectual property rights

Expenditures relating to the acquisition, protection, licensing and maintenance of industrial and intellectual property rights are charged to expense as incurred.

Development expenditures

Expenditures for development assistance and equipment under development contracts are charged to expense as incurred and any recoveries are recorded as income in the year received.

Royalties

The Company estimates the amount of royalties receivable as at the year-end, based on the operations of their licensees to that date. The portion of the royalties that is applicable to third parties is credited to them in accordance with the agreement under which the rights were acquired.

Service charges on overdue accounts

The Company effects a service charge of 1% per month on the overdue portion of accounts receivable.

CANADIAN PATENTS AND DEVELOPMENT LIMITED—*Concluded*

NOTES TO FINANCIAL STATEMENTS

MARCH 31, 1979—*Concluded*

Investment in bonds

The Company carries investments in bonds at cost since it is management's intention to hold the bonds to their dates of maturity. Differences between cost and par value are not amortized over the life of the bonds.

3. Investment in bonds

Details relating to the investments in bonds are as follows:

Issuer	Interest Rate	Maturity Date	Cost	Market Value
Government of Canada	5½%	August 1, 1980	\$103,750	\$ 94,450
Canadian National Railway	4%	February 1, 1981	44,000	45,750
Government of Canada	6¼%	February 15, 1989	247,500	202,500
			<u>\$395,250</u>	<u>\$342,700</u>

4. Patent rights

From 1948, to date, approximately \$1,619,398 (1978—\$1,582,645) has been expended on the current inventory of unexpired patent rights for inventions.

5. Equipment purchased under development contracts

The cost of equipment purchased under active development contracts and held by a licensee amounts to \$123,500 (1978—\$123,500).

6. Employee benefits not charged to the Company

The National Research Council performs certain personnel functions for the Company including the payment of salaries. The Company reimburses the Council for the amount of gross salaries paid on its behalf but not with respect to the employer's share of the cost of certain of the related employee benefits. The cost of the latter is estimated to be equivalent to 13% of gross salaries.

The arrangement with the Council terminates June 24, 1979 and the Company will then assume the full cost of employee benefits.

7. Patent agents' fees and other patenting expenses

The Company incurs expense in obtaining and maintaining patents on inventions. Some of this expense is recoverable. A summary for the year is as follows:

	1979	1978
Gross expense	\$273,830	\$291,117
Recovery	136,829	151,116
Net expense	<u>\$137,001</u>	<u>\$140,001</u>

8. Unrecorded royalties receivable

Due to uncertainties of collection, these financial statements do not reflect the unpaid portion of royalties amounting to U.S. \$166,150 with respect to the prior years operations of a foreign licensee which had been in dispute because of differences between that licensee and others using the invention. In 1973 a five year agreement was entered into with a new foreign licensee who agreed to pay the outstanding amount on the basis of future sales with the unpaid balance as at March 31, 1978 to be remitted thirty days after that date. Since the new licensee did not make any payments up to March 31, 1978 the full amount became due and remains unpaid at March 31, 1979.

Service charges of U.S. \$21,500 have accrued on the unpaid royalties. Subsequent to the year end the Company submitted a settlement agreement to the licensee based on the licensee's proposal to relinquish the license from the Company and pay one half of the outstanding amount due. At the time of preparing the 1979 financial statements, the settlement agreement has not been accepted by the licensee or approved by the Company's Board of Directors. Any amounts received by the Company from the licensee may result in a payment to the inventor of up to 15% of such amounts received in accordance with the Public Servants Inventions Act.

9. Supplementary Information

On July 20, 1978, the Company was granted Articles of Continuance under the Canada Business Corporations Act.

CANADIAN SALTFISH CORPORATION—Continued

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1979

1. Objectives and operations of the Corporation

The Canadian Saltfish Corporation was established by the Saltfish Act in March 1970, to improve the earnings of the primary producer of cured saltfish. The Corporation is an agency Crown Corporation of Canada and is required to conduct its operations on a self-sustaining basis. Total loans outstanding from Canada and from banks may not exceed \$15 million.

The Corporation has the exclusive right to trade in and market cured fish and its by-products in the Province of Newfoundland and the North Shore of Quebec and is required to buy all cured fish of an acceptable standard of quality offered for sale therein. Fish is purchased from fishermen, processed through agents of the Corporation and is subsequently marketed by the Corporation.

2. Significant accounting policies

Depreciation and amortization

Depreciation is provided in the accounts on the straight-line method using rates of 5%, 10%, 20% and 30% for building, equipment, furniture and fixtures, and vehicles, respectively. Leasehold improvements are amortized over the remaining term of the lease.

Foreign currency translation

Accounts receivable and payable in foreign currency are translated to Canadian dollars at the year-end exchange rate. Transactions in foreign currency during the year are translated at the rate in effect at the time of the transaction.

Agreements with fish processors

The Corporation operates under a common processing agreement with its agents.

In the case of the Corporation's own plant, there is a management agreement with the agent which is supplemental to the common contract. This agreement provides for the Corporation to share in the agent's operating profit, and in the event of a loss, the agent receives a guaranteed fixed fee and the loss is absorbed by the Corporation.

The year-end of the management agreement was changed during the year from May 31 to March 31 to coincide with the Corporation's year end. Previously, the profits or losses for the operation for the year ending each May were recorded in the Corporation's fiscal year for the following March 31.

As a result of this change in fiscal year end, the Corporation has recorded in its accounts for the year ended March 31, 1979, an operating loss under the management agreement in the amount of \$81,198 for the year ended May 31, 1978 and an operating profit of \$21,936 for the 10 months ended March 31, 1979.

For the year ended March 31, 1978, the Corporation's accounts include operating losses under the management agreement for the year ended May 31, 1977 in the amount of \$148,880.

Provision for additional contributions to fishermen and producers

The Corporation purchases saltfish at initial prices established by the Board of Directors and obtains processing services at negotiated rates. Additional contributions, if any, to fishermen and producers are determined by the Board based on the results of operations. These contributions are made in respect of products purchased and processed during the year and therefore are

charged to the operations of the year in which they are approved for distribution.

For the year ended March 31, 1979, the Board approved a distribution to fishermen and producers of \$850,000. As an indication of the Board's intention to make such a distribution during the current year, an amount of \$350,000 had been appropriated from retained earnings during the 1977-78 year. Of this \$850,000, distribution of \$600,000 is subject to certain conditions being met by the recipients. Failure to meet such conditions could result in a reduction of the total amount of distributions as well as recovery of distributions already made. At March 31, 1979, \$708,149 of the provision for additional contributions to fishermen and producers had not been distributed and, accordingly, are shown on the Balance Sheet as a current liability.

3. Accounts receivable

Accounts receivable are made up of the following categories:

	1979	1978
Trade	\$ 2,611,104	\$ 1,872,363
Provincial governments		205,585
Federal government (Note 4)	214,819	24,667
Other	276,497	231,633
	<u>\$ 3,102,420</u>	<u>\$ 2,334,248</u>

4. Administration of Federal Government program

During the year, the Corporation agreed to accept certain administrative responsibilities of the Inshore Fish Rehabilitation Program on behalf of the Department of Fisheries and Oceans. The Corporation received an administrative fee of \$60,000 which has been recorded on the Statement of Operations as a reduction of administrative expenses.

Transactions in the Corporation's records relating to this program are as follows:

Amounts receivable from the Department of Fisheries and Oceans	\$ 2,960,000	
Less: Amounts received during the year	2,670,000	
		\$290,000
Invoices received for payment	\$ 2,880,000	
Less: Invoices paid during the year	2,670,000	210,000
Net amount receivable at the end of the year		<u>\$ 80,000</u>

The net amount receivable at the end of the year is included in the Balance Sheet as an account receivable from the Federal Government (Note 3).

5. Inventories

Inventories are made up of the following categories:

	1979	1978
Fish, at lower of cost and net realizable value	\$ 4,816,527	\$ 2,605,183
Packages and supplies, at cost	195,065	202,937

7. Lease agreement for land

The land on which the building is located is leased from the National Harbours Board. This lease agreement, which terminates on July 31, 1984 and contains a provision for two further ten-year periods, requires annual lease payments by the Corporation of \$2,747.

8. Major commitments

The Corporation has begun proceedings to acquire various fixed assets, the total commitment of which is \$1,375,000.

This amount has been authorized on June 22, 1979, by Governor in Council approval of the Corporation's capital budget for the year ending March 31, 1980. It is expected that approximately \$800,000 of this amount will be expended during the 1979-80 fiscal year.

9. Loans from Canada

Loans from Canada, used to finance current assets, are interest bearing and repayable within one year. Loans obtained to finance

capital expenditures also bear interest and are subject to repayment in ten equal installments. Outstanding long-term loans are as follows:

Due date	Interest rate	Net balance March 31, 1979	Annual principal payments
March 25, 1984	7½%	\$ 216,000	\$ 54,000

12. Comparative figures for 1977/78

Certain figures for 1978, presented for comparative purposes, have been restated to conform to the 1979 presentation.

THE CANADIAN WHEAT BOARD

TO THE CANADIAN WHEAT BOARD:

We have examined the financial statements and explanatory comments thereon of The Canadian Wheat Board, which comprise Part VI of The Annual Report of The Board for the crop year ended July 31, 1978. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these financial statements together with the explanatory comments thereon present fairly the financial position of The Board as at July 31, 1978 and the results of its operations for the periods shown, in accordance with generally accepted accounting principles consistently applied.

CAPE BRETON DEVELOPMENT CORPORATION

(Established by the Cape Breton Development Corporation Act)

AUDITORS' REPORT

TO THE HONOURABLE
THE MINISTER OF
REGIONAL ECONOMIC EXPANSION
OTTAWA, ONTARIO

We have examined the balance sheet and statement of equity of the Coal Division and of the Industrial Development Division of the Cape Breton Development Corporation as at March 31, 1979, and the related income statements and the statements of changes in financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

The financial statements of the Industrial Development Division and of its subsidiaries have been presented on a consolidated basis. With respect to those subsidiaries of which we are not auditors, we have carried out such inquiries and examinations as we considered necessary in order to accept for purposes of consolidation the reports of other auditors. As required by the provisions of the Cape Breton Development Corporation Act, the financial statements of the Coal Division and the Industrial Development Division are being presented separately.

In our opinion, these financial statements present fairly the financial position of the Coal Division and of the Industrial Development Division of the Cape Breton Development Corporation as at March 31, 1979, and the results of their operations and the changes in their financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Also, in our opinion, proper books of account have been kept and the transactions that have come to our notice have been within the powers of the Corporation.

CAPE BRETON DEVELOPMENT CORPORATION—Continued

COAL DIVISION—Continued

NOTES TO THE FINANCIAL STATEMENTS
MARCH 31, 1979

1. Significant Accounting Policies

(A) Financing

During the year the Coal Division was financed by way of votes of the Parliament of Canada. Vote 25 is for operating purposes and Vote 30 for capital expenditures. Payments received in respect of these votes are treated as additions to equity.

(B) Depreciation

The Corporation has provided depreciation on its fixed assets based on their estimated useful lives. The Treasury Board of Canada has indicated that depreciation should not be provided in determining mining losses for Parliamentary appropriation. Accordingly, the depreciation provision has been eliminated in arriving at this amount.

2. Statement of Income

The Corporation had adopted a new form of income statements which replaces the following statements used in former years.

Statement of Income
Statement of Income—Collieries
Statement of Income—Devco Railway

It is the opinion of management that this revised format presents the operating information in a more concise and useful manner. The figures for the year ended March 31, 1978 have been restated in comparable form.

3. Accounts Receivable

	1979	1978
Trade	\$10,249,941	\$10,987,083
Employees	53,188	76,304
	<u>10,303,129</u>	<u>11,063,387</u>
Less: Allowance for doubtful accounts	50,000	50,000
	<u>\$10,253,129</u>	<u>\$11,013,387</u>

4. Export Sales

Late in the year an export sale of coal was made in the amount of \$6,350,000. At March 31, 1979, delivery had not been made. The conditions of sale allow for cancellation if coal delivered does not meet certain specifications. Management does not anticipate any problems in meeting these specifications.

The financial statements at March 31, 1979 reflect the sale and consequent reduction in inventory.

5. Repayable Advances from Canada

	1979	1978
Current		
Working capital advance	\$ 13,000,000	\$ 10,000,000
Long-term		Restated
Note payable (including accrued interest)	\$ 11,714,139	\$ 15,859,799
Less: Current portion		
—Principal—Capitalized interest	1,464,267	2,928,535
—1978 operating interest	1,217,125	1,217,125
	<u>\$ 10,249,872</u>	<u>\$ 11,714,139</u>

In 1975 the Corporation negotiated a term loan of \$13,600,000 from the Government of Canada to finance the development of the Prince Mine. This loan bears interest at the Government of Canada lending rate to Crown Corporations and others established quarterly by the Department of Finance and for the period involved the rate varied between 8% and 9 3/4%. The loan, plus interest accrued at March 31, 1977 is repayable in ten equal annual installments which commenced March 31, 1978. Interest accruing after March 31, 1977 is payable annually.

At March 31, 1978, the Corporation understood that repayments were to be deferred to March 31, 1981 and in its financial statements as of that date showed the total of the debt as a long-term liability. The terms of repayment were not changed. The Corporation in the current year made the payments required and the March 31, 1978 figures have been restated to show the appropriate current portion of debt as of that date.

As there were no funds available in the capital budget for this repayment, the Corporation utilized working capital resources for this purpose.

6. Commitments

Commitments on capital projects as at March 31, 1979 amount to approximately \$8,000,000.

7. Contingent Liabilities and Claims

There are pending against the Corporation a number of possible claims, including the following:

- A claim of approximately \$2,700,000 (including estimated court costs) jointly against the Corporation and two other parties for damages and other costs related to an explosion aboard a vessel carrying a shipment of coal supplied by the Corporation. As at March 31, 1979, the action was still before the courts and no decision is expected until October of 1979. The Corporation admits no liability in respect to this claim.
- Officials of the Nova Scotia Hospital Tax Commission have advised representatives of the Corporation that the Commission has under consideration the taxation of certain items used by the Corporation in its mining operations, and previously considered to be exempt from tax. If tax is imposed on all items under consideration the resulting liability covering a period of four years to March 31, 1979 is estimated to amount to approximately \$2,000,000. The Corporation considers these items to be exempt from hospital tax and if an assessment is made the Corporation will appeal it.
- A customer of the Corporation has withheld payments in the amount of approximately \$850,000 on sales invoiced to it. This customer is claiming that these amounts represent damages incurred as a result of excessive moisture in coal purchased from the Corporation. The Corporation does not admit the claim.

The total of provisions as at March 31, 1979 for all outstanding claims and potential claims amounts to \$1,775,000 which management estimates to be fully adequate.

8. Pensions

An actuarial valuation of the Cape Breton Development Corporation Non-Contributory Pension Plan as at December 31, 1978 indicated an unfunded actuarial liability of \$44,317,728 and in addition an experience deficiency of \$19,269,092. No provision for these liabilities has been included in the accounts as of March 31, 1979. The former amount is required to be liquidated by 1993 and the latter amount by 1981.

CAPE BRETON DEVELOPMENT CORPORATION—Continued

COAL DIVISION—Concluded

NOTES TO THE FINANCIAL STATEMENTS

MARCH 31, 1979—Concluded

The minimum annual amount required, including pension payments, will be as follows:

1979-1981	\$11,317,145
1982	\$ 7,840,331
1983	\$ 6,251,063
1984-1992	\$ 5,089,743
1993	\$ 649,954

Current pension payments approximate \$5,380,000 and the balance will be funded by the Corporation prior to December 31 in each year.

9. Workmen's Compensation

The Corporation has been advised by the Injury Compensation Division of the Canada Department of Labour that the capitalized value of existing pensions awarded exceeds the Corporations credits with the Department by approximately \$20,000,000. A portion of the annual assessment for Workmen's Compensation is being applied by the Department of Labour to increase the Corporation's credit. Other than the portion so applied the Corporation is making no provision for this unfunded liability.

10. Remuneration of Directors and Senior Officers

The Corporation had seven directors, whose aggregate remuneration for the year was \$17,050 (1978—\$17,166). The Corporation had eight officers whose aggregate remuneration for the year as officers was \$413,994 (1978, 7 officers—\$318,467). The temporary increase in the number of officers from 7 to 8 was the result of the illness and death of the former president. The president is the only officer who is also a director.

CAPE BRETON DEVELOPMENT CORPORATION—*Concluded*INDUSTRIAL DEVELOPMENT DIVISION—*Concluded*NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
MARCH 31, 1979

1. General Policy

The objects of the Industrial Development Division are to promote and assist the financing and development of industry to provide employment on the Island of Cape Breton. In accomplishing these aims the Corporation makes loans and investments, the amounts of which are often in excess which would be available through normal commercial sources. The Corporation also makes grants to assist enterprises which are considered likely to make a substantial improvement to the development of Cape Breton Island.

The Industrial Development Division is financed by way of Vote of the Parliament of Canada. Parliament voted \$7,312,000 for this purpose during the fiscal year ended March 31, 1979.

2. Significant Accounting Policies

(A) Basis of Consolidation

The financial statements of the Industrial Development Division include the results of the Division and all its subsidiaries except Cape Breton Welsh Black Limited as explained below. The subsidiaries consolidated are as follows:

	Corporation Interest	Company Year End
Darr (Cape Breton) Limited (Real Estate)	100%	December 31
Cape Breton Marine Farming Limited (Fish and Oyster Farming)	100%	March 31
Cape Breton Lamb Limited (Live- stock Breeding)	95.4%	March 31
Whale Cove Summer Village Limited (Tourist Accommoda- tions)	62.5%	March 31
Dundee Estates Limited (Tourist Accommodations)	100%	March 31
Cape Breton Woolen Mills Lim- ited (Formerly Mountainview Milling Limited) (Carding and Spinning)	53.3%	March 31

In addition to its ownership of 62.5% of the common shares of Whale Cove Summer Village Limited, the Corporation owns all of the 2,400 non-voting redeemable preference shares (\$100 par each).

As the financial statements of Whale Cove Summer Village Limited, Cape Breton Woolen Mills Limited and Cape Breton Lamb Limited showed deficit equity positions as at March 31, 1979 and the minority interests in losses to date have been absorbed against the total of the minority invested capital, the losses of these companies for the respective years are included in the consolidated net loss. As a consequence, no minority interest is shown in the balance sheet for these subsidiaries.

During the year, the Corporation acquired the shares of Dundee Estates Limited, previously held by others (51%). As Dundee Estates Limited is now a wholly owned subsidiary, its statements have been included in the consolidation. The shares purchased during the year were acquired at \$94,156 less than their book value and on consolidation this discount has been applied to reduce the book value of fixed assets.

During the year, Cabotcraft Industries Limited ceased activities. The Corporation's loss on this investment, not previously absorbed, has been charged to Industrial Operations and Assistance in the year.

The financial results of Cape Breton Welsh Black Limited in which the Corporation has a 50% interest have not been consolidated as the operations are in the development stage and the amounts involved are not material to the consolidated results of the Corporation.

(B) Fixed Assets

Fixed assets are recorded at cost. The cost and related depreciation of items retired or disposed of are removed from the books and any gains or losses are included in the consolidated operating statement. Depreciation is provided on the straight-line method using rates based on the estimated useful lives of the assets generally as follows:

Buildings	Up to 20 years
Equipment	4 to 10 years
Vehicles	3 to 4 years

The four categories of fixed assets shown on the Balance Sheet each include land, buildings and equipment.

(C) Accounting Policy—Certain Subsidiaries

In their report on the financial statements of Cape Breton Lamb Limited, the auditors included a qualification stating that the financial statements were prepared on the assumption that the Company can continue to operate as a going concern, which assumption depends on the continued financial support of Cape Breton Development Corporation.

The statements of Dundee Estates Limited and of Cape Breton Marine Farming Limited both include notes indicating that their statements also have been prepared on the assumption that the companies can continue to operate as going concerns, which assumption depends on the continued financial support of Cape Breton Development Corporation.

3. Commitments

As at March 31, 1979, the Industrial Development Division of the Corporation was committed to expenditures and loans totalling approximately \$1,700,000 over and above the amounts included in the financial statements at that date.

4. Guarantees

(A) During the 1976 fiscal year the Corporation guaranteed the repayment by Sydney Steel Corporation of that company's \$70,000,000—1¼% Series D Debentures and the repayment of interest thereon. These funds were borrowed by Sydney Steel Corporation for the purpose of financing its plant rehabilitation program. The balance of the outstanding debentures has since been reduced to \$66,430,000. The Corporation made the guarantee for and on behalf of Her Majesty the Queen in right of Canada and has obtained opinions from its solicitors and from the solicitors for the lenders that any amounts required to be paid by terms of the Guarantees are payable pursuant to Appropriation Act. No. 4, 1974 and Section 22 of the Financial Administration Act which provides that such amounts required to be paid shall be paid out of the Consolidated Revenue Fund of Canada and not out of the funds of Cape Breton Development Corporation.

(B) The Corporation in 1971 guaranteed the repayment of bank advances to Stora Kopparbergs Bergslags Aktiebolag. This guarantee originally amounted to \$30,000,000. The balance of advances has since been reduced to \$19,500,000 of which \$9,500,000 is in U.S. dollars.

5. Remuneration of Directors and Senior Officers

The Corporation had seven directors, whose aggregate remuneration for the year was \$17,050 (1978—\$17,166). The Corporation had eight officers whose aggregate remuneration for the year as officers was \$413,994 (1978, 7 officers—\$318,467). The temporary increase in the number of officers from 7 to 8 was the result of the illness and death of the former president. The president is the only officer who is also a director.

CENTRAL MORTGAGE AND HOUSING CORPORATION

AUDITORS' REPORT

TO THE HONOURABLE THE MINISTER
OF STATE FOR URBAN AFFAIRS

We have examined the balance sheet of Central Mortgage and Housing Corporation as at December 31, 1978 and the statements of reserve fund, operations, financial activities and insurance, guarantee and contribution funds for the year then ended. Our examination was made in accordance with generally accepted auditing standards and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, the accompanying statements are in agreement with the books of account of the Corporation and present a true and fair view of the state of affairs of the Corporation as at December 31, 1978 and the results of its operations for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

In our opinion, proper books of account have been kept and the transactions of the Corporation that have come under our notice have been within the powers of the Corporation.

NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 1978

1. Significant Accounting Policies

Central Mortgage and Housing Corporation was constituted as a Crown Corporation by an Act of Parliament on January 1, 1946. Its activities are regulated by the National Housing Act, and the Central Mortgage and Housing Corporation Act.

The principal accounting policies followed are:

(a) Revenue Recognition

Interest income is accounted for on the accrual basis. Recoveries from the Minister are recorded when expenditures are made on his behalf.

(b) Loans

Loans are capitalized as the cash is advanced. Costs incurred in connection with making loans are included in administrative expenses. No provisions are made for possible losses on loans since losses on insured loans are recoverable from the Mortgage Insurance Fund, while property acquired upon default on uninsured loans is transferred to Real Estate for subsequent disposal.

(c) Real Estate

Real Estate is recorded at cost. Property acquired upon default of loans is recorded at the unpaid loan balance plus interest accrued to the date of default, together with any acquisition expenditures incurred and modernization and improvement costs. Both the net operating costs prior to disposal and net losses resulting from the disposal of properties acquired upon default of loans are recoverable from the Minister.

Profits on the sale of Corporation funded real estate or real estate acquired without cost, to the extent that financing is provided for the transaction, are deferred and income recognized as repayments are received.

(d) Depreciation

Depreciation on Real Estate is recorded on a straight line basis. Rates are set in terms of the loan repayment originally negotiated, usually 40 or 50 years.

Depreciation on business premises, office furniture and equipment, is recorded on a diminishing balance basis at the following fixed annual rates:

Masonry buildings	5%
Frame buildings	10%
Furniture, fixtures and equipment	20%
Automotive equipment	30%

(e) Federal-Provincial Agreements

The investments recorded under Federal-Provincial Agreements include only costs to the Corporation and do not

reflect amounts contributed by other parties. The Corporation's share of losses under these agreements is charged to the Minister.

(f) Income Taxes and Reserve Balance

The Corporation is required to pay taxes on its income. These taxes are recorded on a taxes payable basis which is not significantly different from the tax allocation basis. Income or loss after taxes is transferred to the Reserve Fund which is limited by statute to \$5,000,000. Any excess over this amount is transferred to the credit of the Receiver General.

(g) Insurance and Guarantee Funds

Real Estate acquired on claims against the Mortgage Insurance Fund is carried in the accounts at the amount of the claim or the estimated realized value whichever is lower. Real Estate acquired by the Rental Guarantee Fund is carried at cost. No depreciation is recorded on real estate owned by these funds.

2. Real Estate

The estimated amount of possible losses from the future disposal of real estate acquired as a result of default on loans is \$20 million. This amount represents the difference between the book value of all properties held and their market value at December 31, 1978 as estimated by the Corporation.

3. Borrowings from the Government of Canada

The Corporation borrows from the Government of Canada to finance investments in loans, Federal-Provincial Agreements, real estate and agreements for sale and mortgages arising from sale of real estate. These loans bear interest of varying rates and are repayable over periods not in excess of 50 years.

4. Anti-Inflation Legislation

The Corporation was subject to and complied with the provisions of the Anti-Inflation Act as it applied to the restraint on compensation.

CROWN ASSETS DISPOSAL CORPORATION

(Established by the Surplus Crown Assets Act)

AUDITOR GENERAL OF CANADA

THE HONOURABLE ROCH LA SALLE, P.C., M.P.,
MINISTER OF SUPPLY AND SERVICES,
OTTAWA, ONTARIO.

I have examined the balance sheet of Crown Assets Disposal Corporation as at March 31, 1979 and the statements of operations, retained earnings and changes in financial position for the General Account and the balance sheet and the statement of operations for the Agency Account for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Corporation as at March 31, 1979 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Corporation, the financial statements are in agreement therewith and, except for the failure to remit funds to Canada within the time periods prescribed by the Surplus Crown Assets Act as referred to in Note 3 to the financial statements, the transactions that have come under my notice have been within its statutory powers.

CROWN ASSETS DISPOSAL CORPORATION—*Concluded*

NOTES TO THE FINANCIAL STATEMENTS MARCH 31, 1979

1. Objectives and operations of the Corporation

The Surplus Crown Assets Act, administered by the Minister of Supply and Services, established the Crown Assets Disposal Corporation to act as an agent of the Crown in the sale of surplus assets. The Act requires that each department, and other bodies, report to the Minister any property in its custody or under its control or administration that is determined as surplus to its requirements. The Corporation has the authority to sell or otherwise deal with such surplus property and to transfer net proceeds received from sales to the Consolidated Revenue Fund. Lands and buildings and certain commodities are exempted from sale by the Corporation, and certain agencies are excluded from the provisions of the Act.

The Agency Account represents amounts on hand and/or uncollected on sales of surplus assets which have not yet been remitted to Canada.

The primary objective of the Corporation is to obtain on behalf of the Crown the highest return from the sale of surplus assets.

2. Significant accounting policies

Depreciation

Depreciation is recorded on the straight line method over five years which is the estimated useful life of the assets.

Amortization

Amortization of leasehold improvements is recorded on the straight line method over five years which is the term of leases.

3. Statutory financial limitations

The Surplus Crown Assets Act, section 11(2) requires that: All moneys deposited in the Corporation's bank account except

- (a) moneys paid or advanced to the Corporation by Her Majesty on account of working capital, and
- (b) such percentage of the net proceeds of sales and of all other moneys received by the Corporation during any period as the Governor in Council may from time to time fix to be retained to meet administrative costs or other expenses of the Corporation,

shall be transferred or deposited to the credit of the Receiver General on requisition by the Minister of Finance but, if no such requisition is made, on a day not later than the 15th day of the month following receipt thereof by the Corporation.

The moneys relating to the Agency Account have not always been remitted on time due partly to the time required to prepare the statement of operations for the Agency Account from which the moneys to be remitted are calculated.

The Corporation has initiated an amendment to its Act to increase the time limit for remittances of moneys to the Receiver General by 15 days. This amendment has received approval for inclusion in the next "Miscellaneous Statute Law Amendment Act."

The transfer of moneys to be deposited to the credit of the Receiver General is calculated from the statement of operations for the Agency account.

Order in Council 1970-534, 24 March, 1970 requires that all of the Corporation's surplus in excess of \$300,000 be paid to Canada at intervals of not longer than six months.

4. Due to Canada and others—Agency Account

This amount does not become payable until moneys are received from customers.

5. Income tax

The Corporation is not subject to the provisions of any income tax act.

6. Commission to agent

During the year, approximately \$27,000 was retained from proceeds remitted to the Corporation by Vebeg, an agency of the Government of the Federal Republic of Germany.

7. Lease commitments

The Corporation is committed to pay \$236,413 per annum for rental of premises under various leases expiring by 1984.

DEFENCE CONSTRUCTION (1951) LIMITED*(Continued under the Canada Business Corporations Act)***AUDITOR GENERAL OF CANADA**

THE HONOURABLE ALLAN MCKINNON, P.C., M.P.,
 MINISTER OF NATIONAL DEFENCE,
 OTTAWA, ONTARIO.

I have examined the balance sheet of Defence Construction (1951) Limited as at March 31, 1979 and the statements of administration expense, deficit and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Company as at March 31, 1979 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied, after giving retroactive effect to the change in accounting for fixed assets as described in Note 3 to the financial statements, on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Company, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1979

1. Objectives and operations of the Company

Defence Construction (1951) Limited was incorporated in 1951 under the Canada Corporations Act, pursuant to the authority of the Defence Production Act, to contract for major military construction and maintenance projects required by the Department of National Defence. In November 1978 the Company was granted Articles of Continuance under the Canada Business Corporations Act.

The Company's principal functions in the field of construction management are to obtain tenders, make recommendations regarding proposed awards and to award and administer contracts. As an integral part of its responsibility for contract administration, the Company inspects the work to ensure completion in accordance with the contract and certifies contractors' progress claims for payment from funds of the Department of National Defence. It also engages architectural and engineering firms to prepare plans and specifications in accordance with the requirements of the Department of National Defence and may provide technical and administrative assistance on construction matters to other government departments when requested.

The deficit is funded from the Department of National Defence appropriations to the extent of net annual cash requirements.

2. Significant accounting policies

Net expense

The accounts of the Company reflect only the administration expenditure incurred in procuring the construction and maintenance of defence projects on behalf of the Department of National Defence and in procuring the construction of such other projects as are approved by Treasury Board.

Depreciation

Depreciation is recorded on the straight-line method over five years.

Employee benefits

Employee benefits are expensed when earned by employees.

Retirement benefits

Retirement benefits are provided to employees through the Public Service Superannuation Plan who assumes the unfunded liability.

3. Change in accounting policy

During the year, the Company adopted the policy of recording expenditures of a capital nature as fixed assets and depreciating them over their estimated useful life. Previously the costs of fixed asset additions were charged to expense in the period of acquisition. The accounting policy was adopted retroactively and a retroactive adjustment has been made to the deficit at April 1, 1977 of \$34,951. Had this policy change not been made, the net expense for the year would have been \$10,458 more. The 1978 accounts have been restated reducing the net expense for the year by \$8,148.

4. Provision for employee benefits

	1979	1978
Termination benefits	\$ 1,474,392	\$ 1,306,559
Life insurance for retired employees	388,379	349,421
Furlough benefits	57,319	63,500
	\$ 1,920,090	\$ 1,719,480

5. Contractors' security deposits

Contractors' security deposits represents bid deposits—\$243,792 (1978)—\$326,596 and deposits on plans and specifications—\$49,980 (1978)—\$66,625).

DEFENCE CONSTRUCTION (1951) LIMITED—Concluded**NOTES TO FINANCIAL STATEMENTS****MARCH 31, 1979—Concluded****6. Recovery of expense**

The Company provides to government departments and agencies certain technical and administrative assistance regarding construction matters on a cost-recovery basis.

7. Comparative figures

The comparative figures have been restated to conform to the current year's presentation.

8. Remuneration of officers

The Company has six directors and five officers, one of whom is also a director. The aggregate remuneration paid to officers during the year was \$190,346 (1978—\$180,984). No directors' fees were paid.

9. Income tax

The Company is not liable for the payment of income taxes.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 1978****1. Eldorado Nuclear Limited**

Eldorado Nuclear Limited is incorporated under the Canada Corporations Act and is subject to the Financial Administration Act and the Government Companies Operation Act. The outstanding shares were acquired by the federal government in 1944 to secure a source of uranium in Canada.

The Company, wholly owned by Her Majesty in right of Canada, is involved in various aspects of the nuclear fuel cycle, primarily the exploration, mining and refining of uranium concentrates.

Eldorado's Beaverlodge mine in northwestern Saskatchewan produces uranium mine concentrates for markets in Canada and throughout the world. Most sales are made under long-term, annual delivery contracts, and title transfer is generally made at the Company's refinery prior to further processing. All export contracts must first be approved by federal regulatory agencies.

The refinery at Port Hope processes uranium concentrates to produce uranium dioxide powder and uranium hexafluoride as steps in the nuclear fuel cycle. Utility customers from many nations send material to Port Hope for such processing, and Eldorado delivers the converted product to fabricators in Canada or to enrichment plants in the United States, Europe and the U.S.S.R. At year-end 1978, the refinery held 24 million pounds of customer-owned uranium at various stages of processing. All exports of material on behalf of customers require a licence from federal regulatory agencies.

The Port Hope operation also includes storage facilities for the federal government's uranium stockpile, as well as metallurgical facilities to produce depleted uranium, experimental fuels, and various other related products.

Each year, after the normal preparation, review and approval of budgets by the Board of Directors of Eldorado for the next calendar year, the Company submits the capital budget for approval by the Governor-in-Council upon recommendation of the Minister of Energy, Mines and Resources, the Minister of Finance, and the President of the Treasury Board. This budget is subsequently tabled in Parliament.

ELDORADO NUCLEAR LIMITED—Continued

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 1978—Continued

4. Income taxes and mineral royalties

The provisions for income taxes and mineral royalties were as follows:

	1978	1977
	(thousands of dollars)	
Income taxes —current	\$ 488	\$ 1,015
—deferred	7,349	
	7,837	1,015
Mineral royalties	3,218	3,779
	<u>\$11,055</u>	<u>\$ 4,794</u>

The reconciliation between the federal statutory income tax rate and the Company's effective rate of income tax and mineral royalties is as follows:

	Percentage of Pre-tax Earnings
Federal statutory income tax rate	46.0
Resource and depletion allowances	(19.3)
Adjusted income tax rate	26.7
Inventory allowance	(1.4)
Research allowance	(0.4)
Non-deductibility of income debenture interest	3.4
Other	(0.5)
Effective income tax rate	27.8
Mineral royalties	11.4
Net effective rate	<u>39.2</u>

As the result of an audit of taxation years prior to 1977, the Company has received reassessment notices increasing income for tax purposes by approximately \$4.0 million. The Company had sufficient tax loss carry forwards to absorb this increase. The Company has filed a Notice of Objection with respect to these reassessments; however, to date no formal decision has been reached.

5. Mine concentrates on loan

Mine concentrates on loan are recorded at current inventory cost, which is lower than net realizable value. These costs are classified as either current or non-current assets, according to scheduled or estimated repayments.

Income from the mine concentrates on loan is included in revenues in the amount of \$7.8 million (1977 - \$4.4 million).

6. Key Lake joint venture

On November 21, 1978, the Company, through its wholly-owned subsidiary Eldor Resources Limited (Eldor), purchased an undivided one-sixth equity interest in the joint venture that discovered and intends to develop the uranium orebodies near Key Lake, Saskatchewan. The transaction was done on an equal basis with Saskatchewan Mining Development Corporation (SMDC) to acquire the interest of Inexco Mining Company (Canada) Limited in the joint venture.

The cost to Eldor was \$95.1 million, including \$2.2 million in exploration and development expenses incurred prior to the acquisition date. Of this amount, \$38.7 million was paid on November 21, 1978. The balance is payable in June of 1979.

Eldor assumed all the rights and obligations of a joint venture partner as of November 21, 1978, including its requirement to contribute its proportionate share of all expenses incurred. All such costs are being capitalized pending commercial production. No detailed plans have been finalized as yet to determine the production rate or related cost of exploitation of the uranium reserves available.

ELDORADO NUCLEAR LIMITED—Continued**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 197—Concluded**

The income debentures bear interest at approximately one-half of the banks' prime lending rate.

The long-term debt payments due in each of the next five years are as follows: 1979—\$11,262,000; 1980—\$12,153,000; 1981—\$7,762,000; 1982—\$10,062,000; 1983—\$45,082,000.

(i) Due by Eldor Resources Limited	\$37,422	\$
(ii) Due by Eldorado Nuclear Limited	7,792	
	<u>\$45,214</u>	<u>\$</u>

(i) Due by Eldor Resources Limited

In conjunction with the purchase of its interest in the Key Lake joint venture (Note 6), Eldor Resources Limited arranged with Uranium Canada, Limited (UCAN) for a loan of two million pounds of uranium mine concentrates (U308) from the Government of Canada stockpile. This material, of which 730,600 pounds had been drawn at year-end, is being sold at world market prices to fund the acquisition.

Under the terms of the agreement, Eldor must pay interest on the loan value of borrowed concentrates (the loan value being the price at which it sells the concentrates to its customers) at a rate equal to that charged by the federal government on five-year loans to Crown corporations as of the initial loan date (initially 9%). This rate is then negotiable every 5 years thereafter. In addition, Eldor is required to pay a standby fee at an annual rate of ½ of 1% on the value of unloaned concentrates.

The interest payable to UCAN under the loan agreement is recorded as an increase to the investment in the joint venture and payment is deferred until commencement of commercial production. This deferred interest is then payable out of the operation's cash flow.

The proceeds from the sale of borrowed concentrates are included in the statement of consolidated financial position at December 31, 1978. As Eldor repays the borrowed concentrates, any difference between the average unit loan value and unit U308 inventory costs will be included in the statement of consolidated earnings and retained earnings in that year.

After commencement of operations, the loan will be repaid in annual instalments, subject to minimum quantity restrictions, with full repayment required by 2010. As collateral for the loan, Eldor has given UCAN a debenture of \$200 million which is secured by a fixed and floating charge on all of its assets and undertakings, both present and future. If Eldor is unable to meet its obligations to return borrowed concentrates on schedule, UCAN has access to Eldor's undivided one-sixth equity interest in the joint venture. The Key Lake discovery alone, which forms part of the joint venture's assets, is estimated to contain 100 million pounds of uranium mine concentrates (U308) in the two defined orebodies.

(ii) Due by Eldorado Nuclear Limited

At year-end 1978, the Company borrowed uranium mine concentrates from the Government of Canada

stockpile through Uranium Canada, Limited to cover a production shortfall from the Beaverlodge mine. This loan is repayable in kind by December 31, 1980 and bears interest at the one-year Crown corporation borrowing rates in effect from time to time.

11. Sales contracts

At December 31, 1978, the Company had commitments for the delivery of 11,460,000 pounds of uranium mine concentrates. At year-end, provision was made for anticipated losses on low priced U308 deliveries in 1979 and 1980 in the amount of \$7,640,000. One-half of this amount is shown in current liabilities.

13. Commitments and contingencies

(a) The last actuarial valuation of the Eldorado Pension Plan (1959), as of December 31, 1976, revealed a deficiency of \$5,034,740 for the Eldorado companies. The total unfunded liability is being amortized and funded over 15 years as provided in Eldorado's accounting policies and the Pension Benefits Standards Act.

(b) The Company has entered into long-term leases on certain properties up to 1985 with annual rental payments averaging \$310,000.

(c) In connection with its operations, the Company is the defendant in certain pending or threatened litigation. It is the opinion of management, based on legal counsel, that these actions will not result in any material liabilities to the Company.

14. Supplementary information

(a) The Company's by-laws provide for nine Directors. At December 31, 1978 the Company had nine Directors and eleven Officers. Two of the Directors were also Officers.

Remuneration of Officers as Officers in 1978 totalled \$442,203 and remuneration of Directors as Directors in 1978 totalled \$32,750.

(b) During 1978, sales commissions totalling \$511,847 were paid to Marubeni Corporation, who have been retained as sales agents since 1960. In addition, \$500,000 was paid to Wambesco International b.v., a former sales agent, as part of a settlement reached in 1977.

(c) The Company was subject during 1978 to restraint of profit margins, prices, dividends and employee compensation under the federal Anti-Inflation Act and Regulations.

(d) Certain 1977 accounts have been reclassified for comparison purposes.

ELDORADO NUCLEAR LIMITED—Concluded**STATEMENT OF ACCOUNTING POLICIES**

The accompanying consolidated financial statements were prepared by management in conformance with generally accepted accounting principles considered to be appropriate in the circumstances, and have been applied on a basis consistent with that of the preceding year. A summary of significant accounting policies of the Company is presented to assist the reader in interpreting the statements contained herein.

Consolidation

The consolidated financial statements include the accounts of Eldorado Nuclear Limited and its wholly-owned subsidiaries, Eldorado Aviation Limited and Eldor Resources Limited.

Inventories

Inventories of mine concentrates and refined products are valued at the lower of weighted average cost or net realizable value. Cost for customer-owned refined products is the cost of the refining process only.

Inventories of mine concentrates are initially measured and accounted for in the financial statements when the material is sealed in containers upon completion of the milling process.

Supplies

Operating and general supplies are carried at cost.

Property and equipment

Assets are carried at cost. Costs of additions, betterments, and renewals are capitalized. When assets are retired or sold, the resulting gains or losses are reflected in current earnings.

Maintenance and repair expenditures are charged to cost of production.

Depreciation

The principal depreciation method used is the straight-line method based on an average 10 years estimated life.

Mine development and preproduction costs

Certain mine development and refinery costs associated with capacity additions are deferred until commencement of production. These

costs are then amortized based on production over not more than 10 years. Other costs are charged to production as incurred.

Research and development and exploration costs

Expenditures for applied research and development relative to the products and processes of the Company and expenditures for geological exploration programs are charged against earnings as incurred.

Pension plan

The Company has a contributory, defined benefit, trustee pension plan covering all of its regular full-time employees. Assets in the pension fund are valued by a three year moving average market value method, while liabilities are costed by the projected benefits entry age normal method.

Pension costs are amortized and funded at rates confirmed by the consulting actuary pursuant to periodic actuarial revaluations. All actuarially-determined deficiencies are amortized and funded over periods that adequately reflect their specific nature, up to a maximum of 15 years.

Sales of products and services

In accordance with normal industry practices, the Company contracts for future delivery of mine concentrates and refinery conversion services. Sales revenue is recorded in the fiscal year that title passes or, with customer-owned material, when delivery is effected.

Foreign exchange

Current assets and liabilities are translated into Canadian dollars at rates of exchange in effect at year-end; income and expenses at rates in effect during the year. Gains or losses resulting from such translation practices are reflected in the statement of consolidated earnings and retained earnings.

Income tax

The Company follows the tax allocation method of providing for income taxes. Taxable income may be different from reported earnings before taxes because certain items of income and expense are recorded in time periods different for tax purposes from those for accounting purposes. The difference between the taxes calculated as payable each year and those charged against earnings on the tax allocation method is accumulated and carried forward in the statement of consolidated financial position under the caption deferred taxes.

EXPORT DEVELOPMENT CORPORATION

AUDITOR GENERAL OF CANADA

THE HONOURABLE JACK H. HORNER, P.C., M.P.,
MINISTER OF INDUSTRY, TRADE AND COMMERCE,
OTTAWA, ONTARIO.

I have examined the balance sheet of Export Development Corporation as at December 31, 1978 and the statements of income and retained earnings and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Corporation as at December 31, 1978 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Corporation, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1978

1. Export Development Corporation

Export Development Corporation is a Crown corporation which was established on October 1, 1969 by the Export Development Act, a statute of the Parliament of Canada, as the successor to the Export Credits Insurance Corporation which commenced operations in 1944.

The Corporation has broad powers including the power to borrow, to lend and to guarantee loans, to enter into export insurance contracts and to issue guarantees in respect of export transactions and foreign investments. The Corporation is not subject to the requirements of the Income Tax Act with respect to its earnings.

Contracts are entered into either under the authority of the Board of Directors ("Corporate Account") or under the authority of the Governor in Council ("Canada Account") and are so reflected in separate financial statements. The Act sets out separate loan and liability limits for Corporate Account and Canada Account, and for all purposes the Corporation treats Corporate Account and Canada Account separately. Canada Account transactions are administered by the Corporation for the Government of Canada. Funds required for such transactions are paid to the Corporation by the Government of Canada and the Corporation does not have any liability for transactions administered for Canada Account. All contracts of foreign investment insurance are issued for Canada Account.

2. Statutory Limits

On June 30, 1978 the Export Development Act was amended, raising the statutory limits under which the Corporation operates. The authorized capital was increased from \$400,000,000 to \$1,000,000,000 divided into 10,000,000 shares with a par value of \$100 each. The maximum amount of loans which may be disbursed and committed was raised from \$4,250,000,000 to \$10,000,000,000 and the maximum contingent liability outstanding, at any time, for contracts of export insurance and related guarantees was raised from \$2,500,000,000 to \$10,000,000,000. Guarantees issued under the export loans program, which were previously applied against the loans limit of \$4,250,000,000 referred to above, are now applied against the new limit of contingent liabilities.

3. Summary of Significant Accounting Policies

These financial statements were approved by the management of the Corporation on March 15, 1979, and were prepared by management in accordance with accounting principles generally accepted in Canada. A summary of significant accounting policies follows:

Translation of Foreign Currency

Assets and liabilities are translated into Canadian dollars at exchange rates prevailing at year end. Income and expenses are translated at average monthly exchange rates in effect during the year. Resulting gains and losses are included in investment interest earned.

Provision for Losses on Loans Receivable

Provisions for losses are based on a review of collectibility of all outstanding loans to sovereign and commercial borrowers. In respect of this review, the Corporation recognizes that the future economic and political conditions in some of the countries where the Corporation has made loans are subject to varying degrees of pressures, some of which are unpredictable. Accordingly, delays in the repayment of principal and interest may well occur from time to time.

EXPORT DEVELOPMENT CORPORATION—Continued

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1978—Continued

In the case of loans made to sovereign borrowers, that is the governments of countries or their agencies, payment delays are not necessarily indicative of a future loss requiring a provision. Sovereign entities and their international financial obligations do not have commercial mortality, and the international system does not allow the unilateral denial of a sovereign obligation. Furthermore, the international system provides several mechanisms and institutions through which countries facing repayment difficulties can effect remedial measures in agreement with their creditors. Therefore, except in the rare instance of outright repudiation or a write-off of asset value agreed to by creditors, in the opinion of management the ultimate collectibility of a sovereign obligation, and thus its asset value, is not subject to question although delays may have to be accepted.

Finally, if the review of the outstanding loans does not specifically indicate future loss, it is the policy of the Corporation nonetheless to set aside each year some provision in consideration of the total loan portfolio.

Provisions for Claims on Insurance and Guarantees in Force

This provision is adjusted by a charge to income based on past claims experience, augmented if the review of contingent liability indicates probable claims will exceed this provision. Claims payments are charged and recoveries credited to this provision.

Export Loan Fees Earned

Export loan fees are taken into income as earned: administration fees are generally earned within ninety days of a loan agreement being signed; standby fees are earned over the loan disbursement period.

Interest Expense

Interest expense is prorated between export loans and investments on the basis of average funds employed.

Insurance Premiums

For whole-turnover export insurance policies, premiums are taken into income at the commencement of coverage. Premiums on other export insurance policies are taken into income on a reducing balance method, generally reflecting the diminishing exposure over the terms of the policies.

4. Loans Receivable

Loans receivable at December 31 mature as follows:

	1978	1977
Overdue	\$ 8,304,000	\$ 6,157,000
1978		145,666,000
1979	200,742,000	207,831,000

Overdue interest	\$ 6,140,000	\$ 2,368,000

During 1978, the Corporation rescheduled principal and interest payments of \$58,773,000 (1977—\$3,942,000) which included \$13,560,000 interest. These reschedulings are intended to aid collectibility and servicing of the debt. Since inception of the

export loans program in 1961 the Corporation has rescheduled \$124,409,000. As of December 31, 1978, \$34,808,000 (1977—\$27,298,000) of the rescheduled amounts have been repaid while \$112,000 (1977—\$591,000) is overdue.

Participation by other lenders includes \$105,033,000 (1977—\$81,144,000) with recourse to the Corporation should the borrower default and \$89,877,000 (1977—\$40,052,000) without recourse to the Corporation.

The review of export loans receivable at December 31, 1978 indicates no circumstance where a loss is likely in respect of a commercial borrower; nor, in respect of a sovereign borrower, any circumstance where there is likely to be either a repudiation or a write-off of asset value agreed to by creditors. In accordance with its policy as disclosed in Note 3, the Corporation has provided \$6,000,000 in 1978 (1977—\$2,000,000) for possible losses.

5. Loans Payable

Loans payable to Government of Canada and other lenders bear interest at rates from 5.31% to 9.50% annually, with an average cost to maturity of 8.17% at December 31, 1978 (1977—7.93%) and mature as follows:

	1978	1977
1978	\$	\$ 144,507,000
1979	153,681,000	152,877,000
1980	150,866,000	150,055,000
1981	259,396,000	231,783,000
1982	305,044,000	292,962,000
1983	353,957,000	173,204,000
1984 and later	475,768,000	375,000,000
Total	\$ 1,698,712,000	\$ 1,520,388,000
Canadian \$ Equivalent of U.S. \$ Loans Included Above	\$ 499,291,000	\$ 306,709,000

6. Capital Stock

Authorized capital stock consists of 10,000,000 shares of a par value of \$100 each, of which 2,000,000 shares are issued and fully paid, (1977—1,000,000 shares). Payments to date include an additional \$25,000,000 of contributed capital, the maximum amount provided in the Export Development Act.

7. Contingent Liability

Under the Export Development Act the contingent liability of the Corporation under contracts of insurance, related guarantees and guarantees pertaining to the lending program of the Corporation is limited to a maximum of \$10,000,000,000 at any time. As at December 31, 1978 the Corporation is contingently liable for \$1,427,857,000 (1977—\$665,405,000) under such agreements.

8. Insurance and Guarantee Claims

In 1978 claim payments to Canadian exporters and financial institutions were \$6,490,000 (1977—\$3,047,000), and \$5,839,000 (1977—\$1,193,000) was recovered against outstanding claims. At December 31, 1978 the Corporation is undertaking recovery action on \$5,931,000 (1977—\$5,161,000) of claims paid, a significant portion of which is expected to be recovered.

9. Export Loans

Under the Export Development Act the Corporation may have outstanding loans to foreign borrowers, both disbursed and undisbursed, up to a maximum of \$10,000,000,000 at any time. As at December 31 the position of the Corporation is as follows:

	1978	1977
Loans receivable	\$ 2,262,397,000	\$ 1,833,447,000
Undisbursed funds on signed loans agreements	4,159,105,000	1,768,572,000
	<u>6,421,502,000</u>	<u>3,602,019,000</u>
Less: Disbursed and undisbursed participation by other lenders without recourse to the Corporation	228,141,000	160,715,000
	<u>\$ 6,193,361,000</u>	<u>\$ 3,441,304,000</u>

It is anticipated that these undisbursed funds will be disbursed in subsequent years as delivery of goods and services or progress on projects is achieved. The Corporation expects to fund these loans near the time of disbursement by issuing debt instruments and capital stock. The cost of funding is uncertain and cannot be assured to be below the yield on the undisbursed loans.

10. Translation of United States Currency

Gains and losses resulting from the translation of United States balances and transactions are reported with investment interest earned. For the year ended December 31, 1978 a foreign exchange loss of \$3,873,000 (1977—\$437,000 gain) was incurred.

AUDITOR GENERAL OF CANADA

THE HONOURABLE JACK H. HORNER, P.C., M.P.,
MINISTER OF INDUSTRY, TRADE AND COMMERCE,
OTTAWA, ONTARIO.

I have examined the balance sheet of Accounts Administered for the Government of Canada by Export Development Corporation as at December 31, 1978 and statement of changes in Accounts Administered for the Government of Canada for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Accounts Administered for the Government of Canada as at December 31, 1978 and the changes therein for the year then ended in accordance with the accounting policies set out in Note 1 to the financial statements, applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept for the Accounts Administered for the Government of Canada by Export Development Corporation, the financial statements are in agreement therewith and the transactions that have come under my notice have been within the statutory powers set out in the Export Development Act.

**NOTES TO THE ACCOUNTS ADMINISTERED FOR THE
GOVERNMENT OF CANADA DECEMBER 31, 1978****1. General**

The Corporation administers certain loan and insurance programs for the Government of Canada and the funds required for these operations are provided by the Government of Canada and the Corporation has no direct financial interest in these programs. As cash is received by the Corporation it is remitted to the Government of Canada, net of amounts withheld to cover administrative expenses which are charged on a cost recovery basis.

The significant accounting policies applied to these accounts differ from those of the Corporation in that no provision is made for insurance claims or loan losses.

Foreign investment insurance premiums are taken into income evenly over the terms of coverage, excepting that the first year's premium is taken into income in its entirety when received.

These financial statements were approved by the management of the Corporation on March 15, 1979.

2. Statutory Limits

On June 30, 1978 the Export Development Act was amended, raising the statutory limits under which accounts are administered for the Government of Canada. The maximum amount of loans which may be disbursed and committed on behalf of the Government of Canada was raised from \$850,000,000 to \$2,500,000,000. The total amount of contingent liabilities related to export insurance and related guarantees, and foreign investment insurance was previously limited to \$1,000,000,000 and \$250,000,000 respectively at any time. The amendments to the Export Development Act amalgamate the limits of these two programs with guarantees issued under the export loans program. Guarantees under the export loans program were previously applied against the \$850,000,000 limit referred to above. The revised contingent liability limit is \$3,500,000,000.

3. Loans Receivable Funded by the Government of Canada

Loans receivable at December 31 mature as follows:

	1978	1977
1978	\$	\$ 8,259,000
1979	8,877,000	8,841,000
1980	13,411,000	11,410,000
1981	21,357,000	17,318,000
1982	27,499,000	23,326,000
1983	35,832,000	29,090,000
1984 and later	181,273,000	81,690,000
Total	\$ 288,249,000	\$ 179,934,000
Canadian \$ Equivalent of US \$ Loans		
Included Above	<u>\$ 13,849,000</u>	<u>\$ 8,685,000</u>

In 1978 no payments were rescheduled. Since inception of the export loans program, \$1,998,000 has been rescheduled, none of which is due at December 31, 1978.

Under the Export Development Act the interest of the Government of Canada in loans receivable may be sold to third parties. As at December 31, 1978, \$20,868,000 (1977—\$22,003,000) of notes sold in this manner, with recourse, remains outstanding.

4. Contingent Liability

Under the Export Development Act, the contingent liability under contracts of insurance, related guarantees, guarantees pertaining to the Corporation's lending program and contracts of foreign investment insurance is limited to a maximum of \$3,500,000,000 at any time. As at December 31, 1978 this contingent liability totals \$556,605,000 (1977—\$525,397,000).

5. Export Loans

Under the Export Development Act the Canada Account may have outstanding loans to foreign borrowers, both disbursed and undisbursed, up to a maximum of \$2,500,000,000 at any time. As at December 31 the position is as follows:

	1978	1977
Loans Receivable	\$ 309,117,000	\$ 201,937,000
Undisbursed funds on signed loan agree- ments	266,635,000	315,745,000

FARM CREDIT CORPORATION
(Established by the Farm Credit Act)

AUDITOR GENERAL OF CANADA

THE HONOURABLE JOHN WISE, P.C., M.P.,
MINISTER OF AGRICULTURE,
OTTAWA, ONTARIO.

I have examined the balance sheet of Farm Credit Corporation as at March 31, 1979 and the statements of retained earnings, operations, and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Corporation as at March 31, 1979 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Corporation, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

FARM CREDIT CORPORATION—Continued

NOTES TO THE FINANCIAL STATEMENTS
MARCH 31, 1979

1. Corporate objective

The Farm Credit Corporation was established on October 5, 1959, by the Farm Credit Act as the successor to the Canadian Farm Loan Board. The Corporation's prime objective is to assist Canadian farmers to establish and develop viable farm enterprises through the use of long-term credit as provided for by the Farm Credit Act.

The Corporation also administers the lending program authorized under the Farm Syndicates Credit Act which was originally introduced as the Farm Machinery Syndicates Credit Act on December 11, 1964. It provides for loans to groups or syndicates of farmers organized to share in the purchase and use of farm machinery, buildings and installed equipment.

Pursuant to the Farm Credit Act and an agreement with the Department of Agriculture, the Corporation provides services pertaining to the purchase and sale of farm land in administering the Land Transfer Plan, a component of the Department's Small Farm Development Program. The Corporation's operating costs are reimbursed by the Department and the excess of income over expense is paid to Canada. This program terminated on March 31, 1979. Pursuant to an agreement with the Department, the Corporation's continuing administrative costs incurred after that date, which relate to the Land Transfer Program, will be reimbursed by the Department and any excess of income over expense will be paid to Canada.

2. Significant accounting policies

Allowance for doubtful accounts

The allowance for doubtful accounts relates to loans to farmers, loans to farm syndicates and agreements for sale. This allowance represents the Corporation's estimate of future probable losses on the accounts outstanding at March 31, 1979, and includes a component which, on the basis of historical loss experience, covers future losses not yet identified and also a component to provide for specifically identified probable losses.

Actual losses on loans, recoveries on loans and the changes in the allowance are recorded in the statement of operations as a provision for doubtful accounts.

Capital losses resulting from real property transactions under the Small Farm Development Program may be recovered through a separate parliamentary appropriation. No requirement for the application of this provision has yet occurred.

Revenue recognition

Interest on loans to farmers, loans to farm syndicates and agreements for sale is recorded as income on an accrual basis.

Appraisal fees received with applications are recorded as income when received. Appraisal fees retained from loan funds are recorded as income at the time the loans are disbursed.

Partial discharge fees are recorded as income when the discharge takes place.

Service charges earned on loans to farm syndicates are recorded as income when loans are disbursed.

Fixed assets and depreciation

Fixed assets are recorded at cost. Leasehold improvements are amortized using the straight-line method over the term of the lease and one renewal period. Other fixed assets are depreciated using the diminishing balance method at rates of 20% for furniture and equipment and 30% for automobiles.

Income taxes

The Corporation follows the tax allocation method of accounting for income taxes. Deferred income taxes result from timing differences between depreciation and provision for doubtful accounts charged to operations and the amounts claimed for tax purposes.

3. Long-term receivables

Outstanding amounts are receivable over periods of up to thirty years at interest rates in effect at the time of approval.

	Period not exceeding	Annual interest rate %	Outstanding amount (in thousands)	
			1979	1978
Loans to farmers	30 years	5-10	\$ 2,844,409	\$ 2,571,367

FARM CREDIT CORPORATION—Continued

NOTES TO FINANCIAL STATEMENTS

MARCH 31, 1979—Continued

At March 31, 1979, accrued interest of \$117,700 thousand (\$102,240 thousand—1978) and arrears of \$22,641 thousand (\$21,105 thousand—1978) are included and are shown as maturing in the year ending March 31, 1980.

Prepayments of principal from borrowers of \$60,274 thousand (\$45,700 thousand—1978) were received during the year and applied as a reduction of principal.

4. Real estate

This represents farm property held by the Corporation for resale and is carried at the lower of cost and net realizable value. It consists of property acquired in the process of administering the outstanding loans to farmers and to farm syndicates and must be disposed of by the Corporation within five years of acquisition or such further period as the Governor in Council may prescribe.

7. Canada loans

The Corporation has borrowed funds, secured by note, from the Minister of Finance for the purpose of making farm loans, pursuant to section 13 of the Farm Credit Act and section 8 of the Farm Syndicates Credit Act. The Corporation also borrows funds pursuant to the Farm Credit Act, as authorized by Order in Council P.C. 1972-1490, dated June 29, 1972, for the purposes of the Small Farm Development Program. These borrowings are repayable in accordance with the terms and interest rates prescribed at the time of borrowing.

The amounts outstanding as at March 31, 1979, include accrued interest totalling \$62,603 thousand (\$55,628 thousand—1978) and are shown as maturing in the year ending March 31, 1980.

8. Income taxes

During the current year, taxable income was reduced by \$1,901,985 representing all of prior years' tax losses available to the Corporation. The tax savings in the amount of \$874,913 is shown as an extraordinary item in the statement of operations.

9. Contributed capital

The contributed capital of the Corporation represents the amount received from Canada under Section 12 of the Farm Credit Act. The present statutory limit on this amount is \$150 million (\$100 million—1978).

10. Segmented Information

Operations and retained earnings (deficit) under the Farm Credit Act and the Farm Syndicates Credit Act are broken down as follows:

11. Interest rates

Loans to farmer bear an interest rate from the date of approval equal to the base rate defined in section 3(2) of the Farm Credit Act Interest Rates Regulations plus one per cent. The base rate is determined using the average yield on Government of Canada bonds payable in Canadian currency and due to mature in five to ten years. The lending rate is established for six month periods commencing April 1st and October 1st each year and applies to all loans approved in the related six-month period.

However, if a new loan under the Farm Credit Act is made, a portion of which is to be used to repay an existing Farm Credit Act loan, the current lending rate and the rate on the existing loan are blended and a composite rate charged. Except for the provision for blended rates, rates on loans to farm syndicates are determined in the same manner using the yield on Government of Canada bonds maturing in one to five years plus one per cent.

Interest rates on borrowings from Canada by the Corporation under section 13 of the Farm Credit Act are established for

six-month periods commencing April 1st and October 1st each year in accordance with the terms and conditions approved by the Governor in Council. Similarly, rates on borrowings under section 8 of the Farm Syndicates Credit Act are set on these dates for the same six-month periods.

12. Commitments to borrowers

Loans to borrowers approved but not disbursed as at March 31, 1979, amounted to \$75.3 million (\$62.6 million—1978) most of which were approved at 10% (9¼%—1978). It is expected that the majority of these loans will be disbursed within the six-month period ending September 30, 1979, from funds to be borrowed by the Corporation from Canada at 9¼% (8½%—1978).

13. Comparative figures

Certain figures for the previous year have been reclassified to conform to the current year's presentation.

FEDERAL BUSINESS DEVELOPMENT BANK

AUDITOR'S REPORT

THE HONOURABLE MINISTER OF INDUSTRY,
TRADE AND COMMERCE,
OTTAWA, ONTARIO.

Sir:

I have examined the statement of assets and liabilities of the Federal Business Development Bank as at March 31, 1979 and the statements of operations, retained earnings, changes in cash position and accumulated provision for possible future losses on loans and investments for the year then ended. My examination was made in accordance with generally accepted auditing standards and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present a true and fair view of the financial position of the Bank as at March 31, 1979 and the results of its operations, the changes in its cash position and the changes in the accumulated provision for possible future losses on loans and investments for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Bank, the financial statements are in agreement therewith and the transactions that have come under my notice have been within the statutory powers of the Bank.

Yours very truly,

RAYMOND J. MORCEL, C.A.
of Price Waterhouse & Co.
Montreal, Quebec

FEDERAL BUSINESS DEVELOPMENT BANK—Continued

NOTES TO FINANCIAL STATEMENTS
AS AT MARCH 31, 1979

1. Significant accounting policies:

Loans and investments

Loans and investments are recorded as assets when disbursed. Each loan remains as an asset until it is repaid or until realization of its security. Each investment remains as an asset until it is sold or written off. Unrealized gains on investments are not recognized in the accounts. Losses on loans and investments are provided for as described in the following paragraph.

Provision for losses on loans and for write-downs of investments

A charge against income is made to adjust the accumulated provision for possible future losses to the level which provides for specifically identified probable losses on loans, as well as for contingent future losses and to reflect write-downs of investments. The contingent portion of the accumulated provision is based on historical experience and is intended to cover future losses on loans and investments which have not yet been specifically identified. Write-downs of investments are recorded whenever a significant negative change occurs, or appears likely to occur in the investee's business development plan.

Revenue recognition

Interest on loans is recorded as income on an accrual basis except that interest is not accrued on loans where management believes that the interest will not be recovered. Dividends and capital gains on investments are recorded as income when received.

Fixed assets and depreciation

Fixed assets are recorded at historical cost. Leasehold improvements are depreciated under the straight-line method over the term of each individual lease. Other fixed assets are depreciated using the diminishing balance method at rates based on the estimated useful lives of such assets.

2. Loan and investment commitments:

The amounts not disbursed at March 31, 1979 on loans and investments authorized aggregated approximately \$223,000,000 (1978—\$138,000,000).

3. Investments, at cost less write-downs, as at March 31, were as follows:

	1979	1978
Shares	\$ 5,356,835	\$ 4,711,609
Shareholder Advances	9,517,319	3,852,014

6. Contingent liabilities:

The Bank is contingently liable as guarantor of loans aggregating \$12,087,000.

7. Pension Fund:

The Bank has a pension plan for its employees which is contributory and trustee. Related costs, net of employees' contributions, are charged to earnings as paid. The plan at present is fully funded.

8. Statutory limitations on operations:

In accordance with its act of incorporation, the capital (including retained earnings) of the Bank may not exceed a total of two hundred million dollars and the aggregate of the direct and contingent liabilities shall not, at any time, exceed ten times the amount of such capital of the Bank.

9. Comparative financial data:

Certain amounts pertaining to the fiscal year ended March 31, 1978 have been reclassified to comply with the presentation adopted for the fiscal year ended March 31, 1979.

NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED APRIL 30, 1978

1. Objectives and operations of the Corporation

The Freshwater Fish Marketing Corporation was established by the Freshwater Fish Marketing Act in February 1969 for the purpose of marketing and trading in fish, fish products and fish by-products in and out of Canada. The Corporation is an agency Crown Corporation of Canada and is required to conduct its operations on a self-sustaining basis. Total loans outstanding from Canada and from banks may not exceed \$17.5 million.

The Corporation has the exclusive right to market the products of the commercial fishery of provinces participating in the program in inter-provincial and export trade. Participation of the provinces of Manitoba, Saskatchewan, Alberta, the Northwest Territories and Ontario was established by agreement with the Government of Canada.

2. Significant accounting policies

Inventories have been valued on the following basis:

Finished fish products—at lower of cost and net realizable value. Packaging material and parts—at the lower of cost and replacement cost.

Depreciation and amortization

The cost of fixed assets is written off by depreciation charges over the estimated useful lives of the fixed assets on the following basis:

Buildings	—Lake stations	10%	Declining balance
	—Plant	40 year	Straight line
Equipment	—Plant	20%	Declining balance
	—Mobile	30%	Declining balance
Packer vessel		15 year	Straight line

Leasehold improvements are amortized on a straight line basis over the term of the lease.

Payments to Fishermen

The Corporation purchases fish at initial prices established by the Board of Directors. Final payments, if any, to fishermen are determined by the Board after the end of the year, based on the results of operations for the year. The final payments are made in respect of products purchased during the year and therefore are charged to expense in the current year's Statement of Operations.

Foreign currency translation

Accounts receivable and payable in foreign currency are translated to Canadian dollars at the year-end exchange rate. Transactions in foreign currency during the year are translated at the rate in effect at the time of the transaction.

Deficiency payments

Deficiency payments from the Fisheries Prices Support Board of the Government of Canada are made to support the price paid by the Corporation for mullet and whitefish. Such payments are considered as recoveries of amounts paid to fishermen and are deducted from the cost of sales in the Statement of Operations.

3. Mortgage loan receivable

Accounts receivable—other—includes \$111,000 (\$106,000—1977) which is a loan secured by a chattel mortgage. The loan, which was to be repaid by May 1, 1984 in monthly instalments, is in default, and the Corporation is proceeding with litigation.

4. Government assistance for fish packing and processing stations

The Department of Indian Affairs and Northern Development has reimbursed the Corporation in the amount of \$93,000 to offset certain costs incurred by the Corporation in operating a fish packing and processing plant at Island Lake, Manitoba.

FRESHWATER FISH MARKETING CORPORATION—*Concluded*NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED APRIL 30, 1978—*Concluded*

The Department of Indian Affairs and Northern Development has agreed, subject to Government appropriation, to reimburse the Corporation in the amount of \$24,000 to offset certain costs incurred by the Corporation in operating a fish packing plant at God's Lake, Manitoba.

The Department of Indian Affairs and Northern Development and the Department of Northern Saskatchewan have agreed, subject to Government appropriation, to reimburse the Corporation in the amount of \$59,000 and \$69,000 respectively to offset certain costs incurred by the Corporation in operating a fish packing and processing plant at Lake Athabasca, Saskatchewan.

The total of \$245,000 in government assistance has been offset against costs included in the Statement of Operations.

5. Fixed assets

At April 30, 1978 the fixed assets and related accumulated depreciation and amortization were as follows:

	Cost	Accumulated depreciation and amortization	Net book value
Land	\$ 259,266	\$	\$ 259,266
Buildings	4,168,198	673,423	3,494,775
Equipment	2,967,283	1,734,693	1,232,590
Packer vessel	236,040	109,514	126,526
Construction in progress	133,424		133,424
Leasehold improvements	410,449	181,788	228,661
	<u>\$ 8,174,660</u>	<u>\$ 2,699,418</u>	<u>\$ 5,475,242</u>

Leasehold improvements

Leasehold improvements are amortized on the following basis:

	Cost	Amortization period	Unamortized balance
Hay River	\$ 208,319	20 years	\$ 153,975
Edmonton	95,502	10 years	19,096
Gunnar Agency	92,108	5 years	46,319
Savage Island Agency	14,520	5 years	9,271
	<u>\$ 410,449</u>		<u>\$ 228,661</u>

The Corporation has spent \$1,208,319 on land and a processing plant constructed for the Department of Indian Affairs and Northern Development at Hay River, N.W.T. Under a twenty-year agreement dated July 1, 1972 the Department has leased this property back to the Corporation for one dollar (\$1.00) per year. The Corporation has received \$1,000,000 (\$150,000 in the current year) from the Department and the balance of \$208,319 is being amortized as a leasehold improvement over the term of the lease.

Depreciation and amortization for the year

Depreciation	\$400,831
Amortization	41,624
	<u>\$442,455</u>

6. Loans from Canada

These demand loans, secured by promissory notes, are made under Section 17 of the Act. At April 30, 1978 the outstanding loans included the following:

	Amount	Interest Rate
Working capital loans	\$ 1,300,000	8½%
	5,800,000	7½%
	2,975,000	7½%
	<u>\$10,075,000</u>	

	Amount	Interest Rate
Fixed asset loans	\$ 2,907,876	4½%
	158,000	7½%
	623,000	9½%
	801,044	8½%
	<u>4,489,920</u>	
	<u>\$14,564,920</u>	

Repayments of working capital loans are made within one year from the date the loan was granted. In general, fixed asset loans are repaid in amounts equal to the sum of the annual provision for depreciation on all fixed assets and proceeds derived from fixed asset transactions. The amount due on June 1, 1978 is approximately \$501,000.

7. Deficit

Contributions of \$3,000,000 towards the operating losses incurred by the Corporation in 1971/72 and 1972/73 have been requested from the Federal and participating Provincial and Territorial Governments. Of this amount, \$2,700,000 has been received: \$1,500,000 from Canada; \$150,000 from Alberta; \$150,000 from the Northwest Territories; \$150,000 from Ontario; and \$750,000 from Manitoba. These amounts have been credited to deficit in the year in which they were received. In May 1978 the sum of \$300,000 was received from the Province of Saskatchewan, bringing the total contributions to \$3,000,000.

8. Final payments of fishermen

In the Statement of Operations for the year ended April 30, 1977, an amount of \$2,200,000 had been deducted representing the provision for final payments to fishermen. As the actual final payments to fishermen for the 1977 year amounted to \$2,427,229, the "Final payments to fishermen" has been restated to reflect the retroactive charge of \$227,229. As a result, net income for the year-ended April 30, 1977 decreased by \$227,229 and the Deficit as at April 30, 1977 increased by a corresponding amount.

9. Remuneration to foreign agents

During the year, the Corporation paid an aggregate amount of \$241,346 to the following foreign sales agents: Juhl Brokerage Incorporated, Micosia Incorporated, and International Pacific Seafoods—United States; LeGrand, Malo et Cie—France; LeJos Oy—Finland; Malm and Stahl—Sweden.

10. Deficiency payments

Deficiency payments from the Fisheries Prices Support Board of the Federal Government, in support of the price paid by the Corporation for whitefish and mullet, have been applied to reduce the cost of sales in the amount of \$165,520. The Corporation acted as the vehicle for facilitating payment in that funds under this program were channelled to fishermen through the Corporation. This did not have any bearing on the Corporation's costs or revenues.

11. Interest expense

Interest expenses of \$908,032 have been reduced by a net gain on foreign exchange amounting to \$102,342 for the year.

12. Anti-inflation legislation

The Corporation is subject to, and has complied with, controls on compensation under the Anti-Inflation Program of the Government of Canada.

(Incorporated under the Canada Corporations Act)

AUDITOR GENERAL OF CANADA

THE HONOURABLE OTTO E. LANG, P.C., M.P.,
MINISTER OF TRANSPORT,
OTTAWA, ONTARIO.

I have examined the balance sheet of Great Lakes Pilotage Authority, Ltd. as at December 31, 1978 and the statements of operations, deficit, and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Authority as at December 31, 1978 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Authority, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1978

1. Nature of activities

The Great Lakes Pilotage Authority, Ltd. was established on February 1, 1972 pursuant to the Pilotage Act as a subsidiary of The St. Lawrence Seaway Authority. The objects of the Authority are to establish, operate, maintain and administer a safe and efficient pilotage service within designated Canadian waters. The Act further provides that the tariffs of pilotage charges shall be fair and reasonable and consistent with providing a revenue, together with any revenue from other sources, sufficient to permit the Authority to operate on a self-sustaining financial basis.

2. Significant accounting policies

(a) Parliamentary appropriations

Operating deficits as determined for the purposes of parliamentary appropriations and capital expenditures are recovered from parliamentary appropriations whenever such deficits occur. Operating deficits for purposes of parliamentary appropriations do not include depreciation or any increase in accrued employee termination benefits. Parliamentary appropriations with respect to operating deficits are reflected in the statement of deficit, while parliamentary appropriations to finance capital expenditures are shown as contributed capital. Parliamentary appropriations are recorded in the accounts as advances are received. Advances received in excess of the amounts the Authority requires are reflected as due to Canada on the balance sheet. Parliamentary appropriations of \$198,070 relate to the period January 1, to March 31, 1978. The Authority did not qualify for parliamentary appropriations during the period April 1 to December 31, 1978.

(b) Depreciation

Depreciation of fixed assets is calculated on a straight-line basis and is based on the estimated useful life of the assets as follows:

Buildings	20 years
Furniture and equipment	10 years

(c) Pension plan

All employees of the Authority are covered by the Public Service Superannuation Plan administered by the Government of Canada. Contributions to the Plan are required from both the employee and the Authority. Contributions with respect to current service are expensed in the current period. Contributions with respect to past service benefits are expensed when paid generally over the remaining service lives of the pilots.

(d) Employee termination benefits

Employees of the Authority are entitled to specified benefits on termination as provided for under labour contracts and conditions of employment. This liability is recorded in the accounts as the benefits accrue to the employees.

The significant increase in the accrued employee termination benefits reflects changes in benefits payable under certain collective agreements renegotiated in 1978.

(e) Income tax

Under the provisions of the Income Tax Act, the Authority is not subject to federal income tax.

3. Pension plan

Under provisions of the Pilotage Act, pilots may choose to become employees of the Authority and become entitled to count service prior to becoming an employee as pensionable under the

GREAT LAKES PILOTAGE AUTHORITY, LTD.—Concluded**NOTES TO FINANCIAL STATEMENTS**DECEMBER 31, 1978—*Concluded*

Public Service Superannuation Act. For pilots who have elected to purchase pension benefits with respect to past service, the Authority is required to match the employee contribution. The estimated unfunded past service pension contribution with respect to these employees was approximately \$289,000 as of December 31, 1978 and will be funded over the remaining service lives of the pilots, or the terms of purchase whichever is the lesser.

With respect to those contract pilots who may elect, in the future, to become employees of the Authority, the contingent liability with respect to past service pension contributions has not yet been determined. The actual amount of the liability will be determined when employee elections have been made.

The total pension expense was \$310,906 in 1978 and \$294,329 in 1977 including \$29,529 and \$34,701 for past service contributions, respectively.

4. Anti-Inflation Act

The Authority was subject to the provisions of the Anti-Inflation Act and Regulations relating to the restraint of prices, profits, compensation and dividends. The Authority is satisfied that it has no unrecorded or contingent liability under this legislation. As of December 31, 1978 the legislation had expired with respect to prices, profits and dividends.

During 1978, the Anti-Inflation Board issued a decision requiring that the Authority recover \$83,623 from employees with respect to wages paid in 1976 and 1977 in excess of the amounts allowed by the Anti-Inflation Board. This recovery has been reflected in pilot wages and benefits in the current year. Parliamentary appropriations with respect to these years have also been reduced by a similar amount.

5. Contingent liability

Several claims aggregating \$560,000 have been filed against the Authority with respect of damages sustained by ships while under the conduct of a pilot. In the opinion of legal counsel, there is no foundation in law to these claims in view of Section 29 of the Pilotage Act and accordingly no provision for these claims has been made in the accounts.

6. Remuneration of directors and officers

Expense includes remuneration of directors as directors, \$3,900 (1977—\$1,600) and remuneration of officers as officers, \$89,000 (1977—\$127,000). The Authority has 7 directors and 4 officers. Two officers are also directors.

7. Subsequent event

On March 10, 1979 the Authority was served with a number of writs claiming unspecified damages resulting from the alleged delay and detention of ships during 1977 in breach of the Authority's contractual and statutory duty to provide pilots. In the opinion of management, these actions are without merit and should not result in any material loss to the Authority.

THE JACQUES CARTIER AND CHAMPLAIN BRIDGES INCORPORATED

(Incorporated under the Canada Business Corporations Act)

AUDITOR GENERAL OF CANADA

THE HONOURABLE DONALD MAZANKOWSKI, P.C., M.P.
MINISTER OF TRANSPORT
OTTAWA, ONTARIO.

I have examined the balance sheet of The Jacques Cartier and Champlain Bridges Incorporated as at March 31, 1979 and the statements of operations and changes in financial position for the period March 3, 1978 (date of incorporation) to March 31, 1979. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Corporation as at March 31, 1979 and the results of its operations and the changes in its financial position for the period then ended in accordance with generally accepted accounting principles.

I further report that, in my opinion, proper books of account have been kept by the Corporation, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

As described in Note 2 to the financial statements, the assets and liabilities of the Jacques Cartier and Champlain Bridges and the Bonaventure Autoroute were transferred to the Corporation on December 1, 1978. The total liabilities, which include approximately \$38,000,000 of interest in arrears on loans, exceed the assets transferred to the Corporation by approximately \$72,500,000. At present it is doubtful that the Corporation will be able to fully discharge its obligations without future parliamentary appropriations.

NOTES TO FINANCIAL STATEMENTS MARCH 31, 1979

1. Objectives and operations

The Jacques Cartier and Champlain Bridges Incorporated was incorporated under the Canada Business Corporations Act on November 3, 1978 and is a wholly owned subsidiary of The St. Lawrence Seaway Authority. The Corporation was created to assume from National Harbours Board the responsibility for the operation and maintenance of the Jacques Cartier and Champlain Bridges and the Bonaventure Autoroute, effective December 1, 1978.

2. Transfer of the Jacques Cartier and Champlain Bridges

Pursuant to the Governor in Council approval (PC 1978-3139) dated October 12, 1978, the assets and liabilities of the Jacques Cartier and Champlain Bridges and the Bonaventure Autoroute were transferred effective December 1, 1978, from the National Harbours Board, at no consideration, to the Corporation. The amounts transferred to the Corporation are summarized below:

Current assets	\$ 6,642,627
Fixed assets, at cost	77,021,060
Less: Accumulated depreciation	(48,551,298)
Total assets	35,112,389
Current liabilities	\$ 3,088,365
Loans and advance	66,242,472
Interest in arrears on loans	37,950,673
Accrued employee termination benefits	279,250
Total liabilities	107,560,760
Excess of liabilities over assets transferred to the Corporation	\$72,448,371

The accompanying statement of operations reflects the operations of the Bridges and Bonaventure Autoroute for the period December 1, 1978 to March 31, 1979. The operating expenses for the Bonaventure Autoroute are included with the Champlain Bridge on the statement of operations.

3. Significant accounting policies

(a) Parliamentary appropriation

The operating deficit of the Jacques Cartier Bridge is subject to recovery from parliamentary appropriation and the amount so recoverable is reflected in the statement of operations as a reduction of the net loss for the period. The amounts recoverable do not include depreciation, loan interest deferred and accrued employee termination benefits. The amounts authorized but not yet received from Canada are shown as due from Canada on the balance sheet. The net loss of the Jacques Cartier Bridge for the four months ended March 31, 1979 was \$565,903 of which \$253,000 was recoverable from parliamentary appropriation. The remaining balance of the Jacques Cartier and the Champlain Bridges' deficits in the amount of \$281,382 was financed from the working capital of the Corporation.

The accompanying notes are an integral part of the financial statements.

THE JACQUES CARTIER AND CHAMPLAIN BRIDGES INCORPORATED—*Concluded*NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1979—*Concluded*

(b) Fixed assets and depreciation

Fixed assets acquired by the Corporation on December 1, 1978 are recorded at the historical cost to the original owner together with the related accumulated depreciation. Assets purchased subsequent to November 30, 1978 are recorded at cost. Depreciation has been calculated on the straight-line method, using rates based on the estimated useful lives of the assets. These rates have been applied consistently both before and after the transfer of the assets to the Corporation. The rates used are as follows:

—Champlain Bridge	2.5%
—Jacques Cartier Bridge	4.8%
—Vehicles and equipment	20.0%

Depreciation was provided on a pro rata basis during the period December 1, 1978 to March 31, 1979.

(c) Grants in lieu of taxes

Grants in lieu of taxes are based on estimated municipal assessments adjusted in accordance with the Municipal Grants Act. Grants are paid after the amounts have been audited, often several years in arrears. The amount transferred to the Corporation relates to the 1973 to 1978 taxation years. Any adjustments arising on finalization will be reflected in the accounts in the year of settlement.

(d) Employee termination benefits

Employees of the Corporation are entitled to specified benefits on termination as provided for under labour contracts and conditions of employment. The liability for these benefits is recorded in the accounts as the employees become entitled to the benefits.

(e) Deferred revenue

Deferred revenue represents unredeemed toll tokens and tickets.

(f) Pension costs

All employees of the Corporation are covered by the Public Service Superannuation Plan administered by the Government of Canada. Contributions to the Plan are required from both the employee and the Corporation. These contributions represent the total liability of the Corporation and are recognized in the accounts on a current basis.

(g) Income taxes

The Corporation is subject to the Federal Income Tax Act. Although a specific ruling has not been received, management is of the opinion that the Corporation will not be subject to the payment of Federal income tax since the Corporation is expected to remit any profit to the Consolidated Revenue Fund.

4. Loans and advance and interest in arrears on loans

Loans and advance from Canada are comprised of:

Non-interest bearing advance	\$ 6,489,605
Certificates of indebtedness, with no specific repayment dates at interest rates from 2¼% to 6¼%	59,752,867
	<u>\$66,242,472</u>

Interest has not been accrued since 1962 on a 2¼% certificate of indebtedness of \$7,576,000 issued to the Jacques Cartier Bridge. The accrual of interest was discontinued to coincide with the removal of the tolls on the bridge, since all subsequent operating deficits were subject to recovery from parliamentary appropriations.

Interest is accrued, but not paid on all other outstanding certificates of indebtedness. On those certificates for which the stated time period for the interest rate specified has expired, the Corporation continues to accrue interest at the rate specified on the certificates. The Corporation does not accrue interest on interest in arrears.

Interest in arrears aggregating \$38,888,234 as at March 31, 1979 has not been classified as a current liability since the Corporation does not anticipate the repayment of this interest during the coming fiscal year.

5. Intercompany transactions

The St. Lawrence Seaway Authority provides various engineering, management, financial and personnel administration services to the Corporation. The amount charged by the Authority for the four month period ending March 31, 1979 was \$135,000.

6. Commitments

The Corporation leases certain equipment and office space under various leases which expire in 1982. Lease expense under the leases amounted to \$64,000 for the four months ended March 31, 1979. The aggregate future rental expense required under these leases amounts to \$580,000 of which \$209,000 is applicable to the 1979/80 fiscal year.

Contractual expenditures, committed but not expended, at March 31, 1979 amounted to approximately \$3,400,000.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1978

1. Nature of activities

The Laurentian Pilotage Authority was established on February 1, 1972 pursuant to the Pilotage Act. The objects of the Authority are to establish, operate, maintain and administer an efficient pilotage service within certain designated Canadian waters in and around the Province of Quebec, on a self-sustaining financial basis.

2. Significant accounting policies

(a) Fixed assets and depreciation

Fixed assets purchased by the Authority are recorded at cost and those transferred from Canada in 1972 are recorded at the assigned value at that date. Depreciation is calculated on a straight-line basis and is based on the following estimated useful lives:

Buildings	20 years
Pilot boats	20 years
Furniture and equipment	10 years
Communications equipment	10 years
Boarding facility	20 years
Vehicles	3 years

(b) Contributed capital

Amounts representing the values assigned to assets transferred to the Authority from Canada in 1972 plus the cost of fixed assets financed from parliamentary appropriations are shown as contributed capital.

(c) Services provided without charge

An estimate of rent for office space provided without charge by government departments is included as an expense and credited to Retained Earnings.

(d) Pension plan

All employees of the Authority are covered by the Public Service Superannuation Plan administered by the Government of Canada. Contributions to the Plan are required from both the employee and the Authority. Contributions with respect to current service are expensed in the current period. Contributions with respect to past service benefits are expensed when paid generally over the remaining service lives of the employees.

LAURENTIAN PILOTAGE AUTHORITY—Concluded**NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 1978—Concluded****(e) Employee termination benefits**

Employees are entitled to specified benefits on termination as provided for under labour contracts and conditions of employment. The liability for these benefits is recorded in the accounts as the benefits are accrued to the employees.

3. Fixed assets

At December 31, fixed assets and related accumulated depreciation and net book value were as follows:

	1978		1977	
	Cost	Accumulated depreciation	Net	Net
Land	\$ 9,300	\$	\$ 9,300	\$ 9,300
Buildings	23,622	11,599	12,023	13,700
Pilot boats	117,000	91,000	26,000	39,000
Furniture and equipment	68,489	42,373	26,116	26,250
Communications equipment	118,345	44,523	73,822	408
Boarding facility	45,000	2,250	42,750	
Vehicles	24,841	7,452	17,389	
	<u>\$406,597</u>	<u>\$199,197</u>	<u>\$207,400</u>	<u>\$ 88,658</u>

4. Contingent liabilities and obligations**(a) Contingent liabilities**

Claims in the amount of \$74,000, in respect of salary, pilot's fee and damages, have been asserted against the Authority. A court judgment for the payment of \$10,000 on one of the claims was rendered against the Authority. The Authority has decided to give notice of appeal to the court decision and has reflected neither the \$10,000 liability nor any of the contingencies in the financial statements. The Authority is confident that the final outcome will not result in any material payment.

(b) Past service pension obligations

Under provisions of the Pilotage Act, contract pilots may elect to become employees of the Authority and to purchase past service pension entitlements under the Public Service Superannuation Plan.

For pilots who have elected to purchase pension benefits with respect to past service, the Authority is required to match the employee's contributions. The estimated unfunded past service pension contributions with respect to these employees was approximately \$204,000 as of December 31, 1978 and will be funded over the remaining service lives of the pilots.

With respect to those contract pilots who may elect, in the future, to become employees of the Authority, the contingent liability with respect to past service pension contributions has not been determined.

5. Subsequent event, claim receivable and contingent gain

In October 1978, the Authority's pilot boats responded to a distress call to succour a disabled ship. Following a maritime expert's report, the Authority on January 29, 1979 submitted a claim for costs incurred and possible salvage of which the amount to be recovered and contingent gain cannot be determined at this time. The accounting treatment of the future outcome of this claim and contingent gain will be considered by the Authority as an extraordinary item when realized.

6. Income tax

The Authority is not subject to the provisions of any income tax act.

7. Comparative figures

The presentation of certain of the 1977 comparative figures has been amended to conform to the 1978 format.

8. Anti-inflation legislation

The Authority is subject to the Anti-inflation Act and its regulations providing for restraint of prices, profit margins and employee compensation. The Authority is of the opinion that it has complied with provisions of this legislation and no material liability exists thereunder.

LOTO CANADA INC.*(Incorporated under the Canada Business Corporations Act)***AUDITOR GENERAL OF CANADA**

THE HONOURABLE DAVID S. H. MACDONALD, P.C., M.P.,
 SECRETARY OF STATE OF CANADA AND
 MINISTER OF COMMUNICATIONS,
 OTTAWA, ONTARIO.

I have examined the balance sheet of Loto Canada Inc. as at March 31, 1979 and the statements of operations for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Corporation as at March 31, 1979 and the results of its operations for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Corporation, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

As described in Note 3 to the financial statements, costs of \$13.8 million were incurred to terminate contractual and other commitments related to the abandonment of the Loto Select project as required by a federal-provincial agreement for sharing the national lottery market. A review of the events leading to the commitment of funds to this project and the subsequent reversal of that decision indicates that the termination costs resulted from the risk inherent in the decision to proceed with the project at a time when the federal and provincial governments had not reached any agreement with respect to lotteries and prior to any parliamentary review of the continuing role of the Corporation and the distribution of its revenues in the post 1979 period.

NOTES TO FINANCIAL STATEMENTS MARCH 31, 1979

1. Objective of the Corporation

Loto Canada Inc. was established as a Crown corporation under the provisions of Vote L27a, Appropriation Act No. 4, 1976, and was incorporated under the provisions of the Canada Business Corporations Act on June 7, 1976. The Corporation's objective is to conduct and manage a national lottery in accordance with the National Lottery Regulations. The net revenue of the Corporation is required to be paid over to the Receiver General for Canada to be credited to a National Lottery Account and the method of distribution under the provisions of the Act is as follows:

- 82.5%—to assist in the financing of the deficit of the 1976 Olympic Games and to assist in the financing of the 1978 Commonwealth Games;
- 12.5%—to the provinces, in proportion to the number of lottery tickets sold in each province;
- 5.0%—for the purpose of physical fitness, amateur sport and recreation programs.

2. Significant accounting policies

(a) Determination of net revenue

The Corporation's net revenue is determined on the basis of lottery ticket sales, prizes and expenses in respect of completed draws. Proceeds from the sale of lottery tickets, interest income thereon and direct expenses related to future draws are deferred until completion of the relevant draws.

(b) Provision for prizes—future draws

Unclaimed prizes are carried in the accounts for a twelve-month period subsequent to the relevant draw, when in accordance with the National Lottery Regulations any claim for the prizes is then void.

These voided prizes are transferred to "Provision for prizes—future draws" for distribution as additional prizes at a later date.

The amount set aside by the Corporation in the previous fiscal period was fully utilized during the current year. In addition the "Provision for prizes—future draws" included an amount of \$1,150,000 set aside by the Corporation from revenues of the tenth draw (December 1, 1978) and held in this account for distribution in the thirteenth draw (June 3, 1979). This was done in order to adhere to the Corporation's policy of a minimum prize structure.

(c) Furniture and equipment

Purchases of furniture and equipment were recorded as an administration expense in the year of acquisition.

3. Termination cost for Loto Select Game

As part of its agreed overall marketing and operating strategy, the Corporation was given approval in April, 1978 to develop a new product (identified as Loto Select) which would complement existing products and be ready for sale in early November, 1978. As a result of a federal-provincial memorandum of understanding dated October 5, 1978, the Corporation was instructed to abandon the Loto Select program which resulted in a total termination cost of \$13,782,476 which is reduced by \$5,191,350 representing the amount due from Quebec and Ontario lottery corporations as their agreed share of the total termination costs. A number of requests for payment has been made to the two lottery corporations but as at June 7, 1979 the amount of \$5,191,350 has not been received. It is the Corporation's intention to pursue collection of this amount but should the funds not be collected, full provision has already been made in the financial statements.

As at June 7, 1979 and as a result of the above termination, there is a further claim against the Corporation in the amount of \$4,292,375 against which a provision has been included in the total termination costs and which, in the opinion of legal counsel, is adequate. This claim is still under litigation, the outcome of which is uncertain.

The report of the President, tabled in the House of Commons by the Minister of State, Fitness and Amateur Sport on February 21, 1979, outlines the position of the Corporation with respect to Loto Select.

4. Due from the Receiver General for Canada

Traditionally quarterly payments are made to the Receiver General for Canada representing estimated profits for each quarter. An adjustment is made in the remittance for the following quarter. At year end the estimates resulted in an overpayment which will be adjusted for in the first quarter of the new year.

5. 1978 comparative figures

Certain comparative figures for 1978 were reclassified to conform with 1979 presentation.

AUDITOR GENERAL OF CANADA

THE HONOURABLE H. FAULKNER, P.C., M.P.

MINISTER OF INDIAN AFFAIRS AND NORTHERN DEVELOPMENT
OTTAWA, ONTARIO.

I have examined the balance sheet of the National Battlefields Commission as at March 31, 1979 and the statements of operations, equity of Canada and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

As explained in Note 2(b) to the financial statements, the Commission does not provide for depreciation on fixed assets.

In my opinion, except for the failure to provide for the depreciation on fixed assets referred to in the preceding paragraph, these financial statements give a true and fair view of the financial position of the Commission as at March 31, 1979, and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Commission, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1979

1. Commission's Activities

The Commission is constituted under an "Act respecting The National Battlefields at Quebec", for the purpose of acquiring, preserving and developing an historic battlefields park.

2. Significant accounting policies

(a) Inventory

The inventory includes supplies, spare parts and tools and is valued at the lower of average cost and replacement cost.

(b) Fixed assets

Fixed assets are financed by parliamentary appropriations and are recorded in the accounts at cost. A corresponding amount is credited to the Equity of Canada. Gains or losses on disposal of fixed assets are credited or charged directly to Equity of Canada.

In general, fixed assets of the Commission are not revenue producing and no depreciation is recorded in the accounts.

(c) Special Land Purchase Fund

Funds have been received from provincial and municipal governments and others for the exclusive purpose of acquiring certain land. These funds, together with interest revenue earned, are accounted for separately from the General Fund. Bonds held by the Special Land Purchase Fund are carried at cost as it is the Commission's intention to hold such bonds to maturity.

3. Fixed assets

Fixed assets, at cost, include:

	1979	1978
Land	\$ 724,710	\$ 724,710
Buildings	153,339	153,339
Roadways, driveways and grading	800,975	786,025

	\$ 2,389,481	\$ 2,342,595

NATIONAL CAPITAL COMMISSION

AUDITOR GENERAL OF CANADA

THE HONOURABLE ERIK H. NIELSEN, P.C., M.P.
MINISTER OF PUBLIC WORKS
OTTAWA, ONTARIO.

I have examined the balance sheet of the National Capital Commission as at March 31, 1979 and the statements of operations, proprietary interest and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

As explained in Note 2 (a) (iii) to the financial statements, the Commission does not provide for depreciation on capital assets. Such assets include all or portions of balances representing parkways, bridges and approaches, recreational facilities, property held for development, administration and service buildings, vehicles, machinery, equipment and furniture.

In my opinion, except for the effect of not recording depreciation on capital assets, referred to in the preceding paragraph, these financial statements give a true and fair view of the financial position of the Commission as at March 31, 1979, and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Commission, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 1979

1. Objectives of the Commission

The National Capital Commission was established by the National Capital Act, 1958 and is an Agency Corporation under the Financial Administration Act. The objects and purposes of the Commission are to prepare plans for and assist in the development, conservation and improvement of the National Capital Region in order that the nature and character of the seat of the Government of Canada may be in accordance with its national significance.

2. Significant Accounting Policies

(a) Capital assets

(i) Real property

Capitalization of Costs

Real property is recorded in the accounts at cost or nominal value. The nominal value represents the original cost of property acquisitions less proceeds from sale of part of the property. The cost of real property does not include interest on loans used to finance the acquisition thereof nor the grants in lieu of taxes thereon.

Proceeds from Sales

Full proceeds from sales up to March 31, 1974 were recorded as reductions to real property costs. Properties retained are now being restated at historic cost and the prior years' adjustment presented in the statement of proprietary interest.

Gains or losses on sales of property since March 31, 1974 are reflected in the Statement of General Operations and the assets are credited with the cost of the property sold.

(ii) Equipment, Furniture and Vehicles

Equipment, furniture and vehicles are recorded in the accounts at cost. The replacements are funded by parliamentary appropriations provided for operating expenditures.

Losses arising from destruction or disposal are charged to proprietary interest in the current year. This treatment is a change in accounting policy from prior years, in which losses on destruction or disposal were charged to general operations. This change, applied retroactively, reduces the net cost of operations by \$206,492 for 1979 and \$238,420 for 1978.

(iii) Depreciation

Depreciation on capital assets is not recorded in the accounts.

(b) Capital Projects

The National Capital Act defines capital projects as expenditures for the acquisition of property, for contributions, or for other works, and requires that each be specifically approved by the Governor-in-Council. Projects are financed through the National Capital Fund and through sales of property originally acquired through the National Capital Fund. In the latter case, only the cost portion of the proceeds is used to finance capital projects and reduce the amount required from the Fund. Only those projects producing Commission-held real property are capitalized; studies and contributions to the works of other authorities are not capitalized.

The Commission also makes expenditures for acquisitions of real property out of the loans from Canada referred to in Note 4. The terms of these loans require that the loans and interest thereon be repaid if the property acquired from such loans is sold, granted, conveyed or otherwise disposed of, and further that if the monies received are in excess of what is

NATIONAL CAPITAL COMMISSION—*Concluded*

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED MARCH 31, 1979—*Concluded*

required to repay the loans, the excess shall be applied against other loans made to the Commission. The excess is reflected in the Statement of General Operations but does not provide funds that can be used by the Commission for operating purposes.

(c) Inventories

Inventories of supplies and small tools are carried at most recent cost. Nursery stock is valued at replacement cost less an allowance for overhead, balling and packaging expenses.

3. Capital Assets—Real Property

The following are the major categories of real property at March 31:

	1979	1978
Greenbelt	\$ 44,618,097	\$ 43,531,624
Parkways	58,172,049	57,241,091
Parks	28,807,501	26,477,641
Bridges and approaches	21,358,359	19,424,533
Historic sites	10,530,719	9,524,915
Recreational facilities	3,488,084	3,333,022
Rental and agency properties	142,514,692	142,534,476
Unsettled expropriations, estimated	2,540,917	2,766,500
Administration and service buildings	7,050,851	6,221,666
	<u>319,081,269</u>	<u>311,055,468</u>
Less Provision for transfers at less than cost	(7,829,634)	(5,634,230)
	<u>\$311,251,635</u>	<u>\$305,421,238</u>

The provision for transfers at less than cost pertains to property to be transferred in accordance with the agreements detailed below:

- (a) agreements with the railway companies resulting from the relocation of the Ottawa area railway facilities;
- (b) agreement with the Province of Quebec for lands to be given free of charge for approaches to the Macdonald-Cartier Bridge;
- (c) agreement with the Province of Quebec for the transfer of lands for \$1 used as a right-of-way for Highway No. 550;
- (d) agreement with the Province of Ontario for the transfer of lands for \$1 used as a right-of-way for Highway 417; and
- (e) agreement with Central Mortgage and Housing Corporation for the transfer, at market value of \$1,750,000 for a demonstration residential development, of land in LeBreton Flats.

4. Loans from Canada

The Commission purchases real property out of funds advanced from the Consolidated Revenue Fund of Canada by way of loans as authorized by Parliament, upon such terms and conditions as to interest, terms of repayment and otherwise as approved by the Governor-in-Council.

Interest on loans from Canada is payable semi-annually at rates varying from 4% to 10.125% and averaging 6.4%. No dates for repayment of principal are specified except that loans and interest are required to be repaid by the full proceeds of sales. Effective April 1, 1974, payment of interest on loans borrowed for the purpose of acquiring property in the Greenbelt has been deferred until March 31, 1981. At March 31, 1979, the accrued interest payable amounted to \$10,406,040.

5. Cash on Deposit in the National Capital Fund

The National Capital Fund is a special account in the Consolidated Revenue Fund of Canada. Amounts are paid from this fund to the Commission from time to time as required to finance the cost of capital projects. Payments are made by the Minister of Finance on the recommendation of the Minister responsible for the Commission.

6. Commitments

Subject to being provided with future funds by Parliament, the Commission is committed to make contributions to other levels of government:

- (a) to the Province of Quebec one-half of the cost of a road network within the National Capital Region. The Commission's share during the period 1971-72 to 1981-82 is currently estimated at \$150 million of which \$61.0 million has been expended after provision for an estimated amount recoverable of \$2.9 million which is included in amounts recoverable from Provincial and Municipal governments;
- (b) to the Province of Quebec and the Outaouais Regional Community one-third of the cost of a regional sewage disposal system. The Commission's commitment is \$40 million of which \$12.2 million has been expended after provision for an estimated amount recoverable of \$2.8 million which is included in amounts recoverable from Provincial and Municipal governments;
- (c) to the Province of Ontario and the Regional Municipality of Ottawa-Carleton one-third of the cost of a regional sewage disposal system. The Commission's commitment is \$16.1 million of which \$15.7 million has been expended.

7. Contingent Liabilities

- (a) Legal action taken against the Commission claiming \$4.5 million for wrongful termination of certain agreements, and subsequently raised to \$15 million, has now been heard and dismissed; however, an appeal has been launched by the plaintiff.
- (b) Legal action has been taken against the Commission and others, claiming damages estimated at \$1.6 million for nuisance, during the construction of a collector sewer on Commission property.

8. Prior Years' Adjustments to Real Property

Proprietary interest balances as previously reported for both years have been restated to reflect the restatement to historic cost of properties retained after sales made prior to March 31, 1974 (Note 2(a)).

9. Comparative Figures

Certain figures for 1978 presented for comparative purposes have been restated to conform to the 1979 presentation.

NATIONAL HARBOURS BOARD—Continued

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1978

1. Significant accounting policies

(a) Financial Statements

The financial statements of the National Harbours Board include the accounts of all the ports and other facilities under its administration.

(b) Investments

Investments are shown at amortized cost, with premiums or discounts amortized over the periods to maturity. Funds are invested in Government of Canada direct and guaranteed securities pending disbursements for capital projects and other purposes.

(c) Fixed assets and depreciation

Assets are recorded at cost except for those transferred to the Board from the Crown which are recorded at appraisal estimates. Depreciation has been calculated on the straight-line method commencing with the year of acquisition, for the full year, using rates based on the estimated useful lives of the assets.

The Board's policy is to capitalize additions, purchases of assets and original dredging costs which provide long-term benefit.

Expenditures for maintenance and repairs are charged to operating expenses as incurred.

(d) Appropriations from Parliament

Amounts receivable or received by the Board from parliamentary appropriations to cover certain operating losses are reflected in the Statement of Operations as a reduction of the net loss. The recoveries of operating deficits do not include amounts for depreciation and other non-cash expenses.

(e) Pension Costs

All permanent employees of the Board are covered by the Public Service Superannuation Plan administered by the Government of Canada. Contributions to the plan are required from both the employee and the Board. These contributions represent the total liability of the Board and are recognized in the accounts on a current basis.

(f) Insurance

The Board assumes the risks against fire and general perils, as well as for workmen's compensation claims.

(g) Grants in lieu of municipal taxes

Grants in lieu of municipal taxes are currently based on estimated municipal assessments adjusted in accordance with the Municipal Grants Act. Grants are paid after the amounts have been audited by the Department of Finance, often several years in arrears. Any adjustments upon finalization are reflected in the accounts in the year of settlement.

(h) Employee benefits

The Board accrues in its accounts annually the estimated liabilities for severance pay, annual leave, sick leave and overtime compensatory leave, which are payable to its employees in subsequent years under its collective agreements, or in accordance with Board policy. The estimated amount due within one year is included in current liabilities.

(i) Reclassification of comparative figures

Comparative figures have been reclassified in the financial statements to reflect the groupings used in reporting current year's results.

2. Transfer of the Jacques Cartier and Champlain Bridges

Pursuant to Governor General in Council approval (P.C. 1978-3139) dated October 12, 1978, the Jacques Cartier and Champlain Bridges were transferred effective December 1, 1978, at no consideration, to Jacques Cartier and Champlain Bridges Incorporated, a subsidiary of the St. Lawrence Seaway Authority.

The amounts which were transferred to the new corporation are as follows:

	(\$000's)
Working capital	\$ 3,554
Fixed assets, at cost, less accumulated depreciation of \$48,551	28,470
	32,024
Less: long-term liabilities	104,472
Excess of liabilities over assets transferred	<u>\$ 72,448</u>

The excess of liabilities over assets transferred to the new corporation have been credited directly to deficit.

The results of discontinued operations for the Jacques Cartier and Champlain Bridges for the eleven months ended November 30, 1978, and year ended December 31, 1977, are summarized as follows:

	(\$000's)	
	1978	1977
	11 months	12 months
Revenue	\$ 4,632	\$ 4,872
Operating expenses	(8,326)	(8,916)
Interest income	268	209
Interest expense	(2,627)	(2,812)
Special depreciation charge		(31,184)
Parliamentary appropriation	3,673	2,903
Loss on discontinued operations	<u>\$ (2,380)</u>	<u>\$ (34,928)</u>

The bridges' operating expenses include depreciation of \$958,000 in 1978 (\$1,030,000 in 1977).

3. Long-term accounts receivable

Long-term accounts receivable become due over periods from 1 to 29 years at interest rates varying to 8%. The amount receivable within one year is included in current assets.

4. Debentures of Saint John Harbour Bridge Authority

The Saint John Harbour Bridge Authority is indebted in the amount of \$14,822,000 to the Board which in turn is indebted to the Government of Canada by the same amount, in accordance with the provisions of Vote L106b, Appropriation Act No. 7, 1967, 1967-68, c.8. The interest and repayment terms of the parliamentary advances to the Board are identical to those of the debentures of the Authority. Under the terms of the agreement between the Government of Canada and the Authority, the Government has, in effect, guaranteed the repayment of both principal and interest on the debentures. Therefore, both the debentures receivable and advances and loans payable to the Government have been offset against each other and are not reflected as a separate asset and liability on the balance sheet. Interest income and expense of \$1,016,000 have been similarly offset and do not appear in the statement of operations.

6. Government assistance

During the year the Province of Nova Scotia contributed \$6,500,000, including land valued at \$5,643,000, towards the construction of a second container terminal at the Port of Halifax. These contributions have been credited directly against the cost of related fixed assets.

7. Financing provided by province

Under an agreement dated July 13, 1972, the Province of New Brunswick advanced \$25,000,000 to partially finance the construction of Rodney Terminal, Saint John, which is owned by the Board.

An agreement effective January 1, 1976, calls for the equal sharing of net operating income from the terminal until the Province's capital investment, without interest, is repaid. During the year, the debt to the Province was reduced by \$420,000.

8. Loans and advances and interest in arrears on loans

	(000's)	
	1978	1977
Loans and advances from Canada are comprised of		
Non-interest bearing advances	\$	\$ 6,490
Certificates of indebtedness, issued prior to July 8, 1970 at interest rates varying from 2¾% to 8½% with no specific repayment dates	188,267	380,631
Certificates of indebtedness issued after July 8, 1970 at interest rates varying from 7 3/16% to 10% with repayment dates as follows:		
principal in arrears	5,994	3,393
1979-1983	21,217	20,787
1984 and after	83,846	58,875
	<u>\$299,324</u>	<u>\$470,176</u>

During the year the Government of Canada authorized the cancellation of certificates of indebtedness of \$133,411,000 and the related interest in arrears of \$118,547,000. These loans were treated as non-active loans by the Government of Canada and were charged to net debt in the Public Accounts of Canada in the years in which the funds were advanced. The total amount forgiven of \$251,958,000 has been added to contributed capital.

Interest is accrued, but not paid, on all outstanding certificates of indebtedness including certificates which have matured. On those certificates on which the terms for payment of interest have expired, the Board continues to accrue interest at the rate applicable to the particular certificate on the dates they matured. The Board does not accrue interest on interest in arrears.

Interest in arrears, principal in arrears and amounts due in 1979 aggregating \$128,289,000 have not been classified as current liabilities. The Board does not anticipate the payment of these items in 1979.

9. Capital expenditures

Capital expenditures for the completion of work under construction, and other authorized major additions to fixed assets are estimated at \$20,900,000. Of this amount, it is estimated that \$18,000,000 will be expended in the year ended December 31, 1979, and the balance in subsequent years.

10. Contingent liabilities

Claims aggregating approximately \$10,300,000 in respect of lawsuits, guarantees, employee agreements, damage allegedly suffered on the Board's property and sundry other matters in dispute have been received by the Board but are not reflected in these financial statements. In the opinion of the Board and its legal advisors, the Board's position is defensible and the final outcome of such claims should not result in any material financial liability.

11. Anti-Inflation legislation

The Board has been subject to controls on employees compensation under the terms of the federal government's anti-inflation legislation which became effective October 14, 1975. User charge increases have been controlled by Treasury Board. The National Harbours Board has been in compliance with these controls. The period under anti-inflation legislation expired at December 31, 1978.

12. Canada Ports Act

The Minister of Transport has introduced legislation known as the Canada Ports Act, which received first reading in Parliament in 1977. This Act, if and when passed, provides for the establishment of separate ports commissions to administer the principal harbours and ports in Canada including 11 of those administered by the National Harbours Board. It also provides that any harbours, works and property remaining under the jurisdiction of the Board on the day the National Harbours Board Act is repealed will be transferred to the Minister of Transport.

NORTHERN CANADA POWER COMMISSION (Established by the Northern Power Commission Act)

AUDITOR GENERAL OF CANADA

THE HONOURABLE ARTHUR JACOB EPP, P.C., M.P.,
MINISTER OF INDIAN AFFAIRS AND NORTHERN DEVELOPMENT,
OTTAWA, ONTARIO.

I have examined the balance sheet of Northern Canada Power Commission as at March 31, 1979 and the statements of operations, deficit and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Commission as at March 31, 1979 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles which, except for the change in the basis of depreciating fixed asset additions as referred to in Note 3 to the financial statements, have been applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Commission, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

NOTES TO THE FINANCIAL STATEMENTS MARCH 31, 1979

1. Authority and objective

The Northern Canada Power Commission, a Schedule C corporation, was formerly the Northwest Territories Power Commission established in 1948 and now operates under the Northern Canada Power Commission Act.

The objective of the Commission is to provide utility services on a self-sustaining basis in the Northwest Territories, the Yukon Territory and, with the approval of the Governor in Council, at certain other locations in Canada.

2. Significant accounting policies

Property and equipment

Property and equipment, with the exception of those gifted to the Commission by Canada and others which have been recorded at nominal value, are carried at cost less accumulated depreciation. Costs of additions, betterments and major renewals are capitalized. In addition to direct payments for goods and services, project costs include interest at current rates on funds used to finance construction during the construction period and a share of engineering and general administration which is directly attributable to the capital projects.

Gains or losses on disposal of property and equipment resulting from exceptional circumstances such as the disposal of assets which have not entered the production cycle, are written off against operations in the year losses are recognized. For normal retirements, the cost of assets retired less salvage proceeds is charged to accumulated depreciation with no gain or loss being reflected in operations.

Depreciation

Depreciation on property and equipment in service prior to March 31, 1977, financed by loans from Canada, excepting the Head Office building, is calculated as an amount equivalent to the principal portion of the repayment of the associated loan. The associated loans are being repaid by the annuity method over the estimated economic life of the assets. As described in Note 3, assets placed in service subsequent to March 31, 1977 are depreciated on a straight line basis. Straight line depreciation is charged over the estimated economic life of the Head Office building and on assets purchased from internally generated funds.

3. Review of basis of depreciation and estimated useful life of fixed assets

During the year the Commission revised its depreciation policy and extended the estimated useful life of certain fixed assets. The straight line method of depreciation was adopted for assets financed by loans from Canada and brought into service after March 31, 1977. This change resulted in additional depreciation charges of \$256,000 in the year.

The following are the estimated economic lives of the principal classes of assets, as revised:

Hydroelectric plants	30 - 50 years
Diesel engines and associated equipment	10 - 15 years
Fuel storage equipment	20 years
Buildings	20 - 30 years
Heating systems	20 years
Transmission and distribution systems	20 - 30 years
Office and general equipment	10 - 15 years
Motor vehicles	4 years

4. Loans from Canada

The Commission receives funds for capital expenditures by way of interest bearing loans from Canada. Interest at current rates is accrued during the course of construction of a project and added

NORTHERN CANADA POWER COMMISSION—*Concluded*NOTES TO THE FINANCIAL STATEMENTS MARCH 31, 1979—*Concluded*

to the amount borrowed. The total loan, including accrued interest is repaid on terms and conditions as approved by Governor in Council.

During the year, the Commission received a working capital loan of \$7,500,000. Terms and conditions provide for principal repayment by ten equal annual instalments of \$750,000 without interest commencing on March 31, 1990. Interest at then current rates is applicable only to any instalment that becomes due and unpaid until the date of payment.

At March 31, 1979, loans for capital expenditure carried interest rates ranging from 3.125% to 10.375% with a weighted average interest rate of 8.3%.

Loans due Canada mature as follows:

	Principal (thou- sands of dol- lars)
1980	\$ 4,541
1981	4,888
1982	4,932
1983	5,123
1984	5,505
1985 - 2010	169,381
	<u>194,370</u>
Deduct current portion	4,541
	<u>189,829</u>
Advance:	
Project investigation	50
	<u>\$ 189,879</u>

5. Engineering and general administration

Engineering and general administration is net of amounts charged to capital and recoverable projects. Allocations to capital and recoverable projects in 1979 totalled \$879,000 and in 1978 amounted to \$996,000.

6. Cancelled projects

During the year the Commission charged to current operations the residual costs of the cancelled Snare Cascades hydro project of \$663,000, and recognized losses of \$134,000 on assets not put into production.

7. Interest expense

Interest expense is net of amounts charged to capital projects and interest earned from short-term investments. Capitalized interest charges were \$444,000 in 1979 and \$1,128,000 in 1978. Interest earned on short-term investments in 1979 amounted to \$702,000 and \$420,000 in 1978.

8. Contingent liabilities

Recognition of lawsuits against the Commission at March 31, 1979 has been made in the accounts in an amount which the Commission considers adequate to provide for any settlements which may arise out of such claims.

9. Commitments

Commitments for the completion of capital projects under construction and contractual obligations for services and equipment to be delivered were approximately \$2,100,000 at March 31, 1979.

10. Insurance

The Commission purchases catastrophe insurance on specified assets as protection against major losses up to \$6,500,000. Business liability insurance coverage is maintained in an amount considered necessary to provide adequate protection to the Commission. Other coverage in effect includes fleet, aircraft, airstrip, boiler and comprehensive general liability insurance. Special coverage for major projects under construction is purchased by the Commission or by its contractors if required by the Commission.

11. Anti-Inflation Act

The Commission was designated as Level 1 supplier and was required to comply with the Anti-inflation Act and related regulations, which provided for the restraint of profit margins, dividends and employee compensation. The Commission complied with the legislation in every respect and submitted a final compliance report for the period ending December 31, 1978 to the Anti-inflation Board.

NORTHERN TRANSPORTATION COMPANY LIMITED AND SUBSIDIARY COMPANIES

(Continued under the Canada Business Corporations Act)

AUDITOR GENERAL OF CANADA

THE HONOURABLE OTTO LANG, P.C., M.P.,
MINISTER OF TRANSPORT,
OTTAWA, ONTARIO.

I have examined the consolidated statement of financial position of Northern Transportation Company Limited as at December 31, 1978 and the consolidated statements of operations and deficit, and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these consolidated financial statements give a true and fair view of the financial position of the Corporation as at December 31, 1978 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Corporation, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
AS AT DECEMBER 31, 1978

1. Corporate objective

The principal objective of the Company is to provide a general transportation service throughout Northern Canada and the Arctic, together with related intermodal services.

2. Accounting policies

The consolidated financial statements have been prepared in accordance with generally accepted accounting principles. The following policies are considered to be significant:

Basis of consolidation

The consolidated financial statements include the accounts of the Company and its subsidiaries, Grimshaw Trucking and Distributing Ltd. and Yellowknife Transportation Company Limited both of which are wholly owned.

Operating and general supplies

Inventories of operating and general supplies are valued at the lower of cost or estimated replacement cost.

Insurance investment fund—provision for insurance

The majority of the Company's property and equipment is self-insured against the risk of physical loss or damage. A fund in respect of self-insured losses is being accumulated by annual charges against income with proceeds invested in short-term bank deposits. The Company carries general and third party liability insurance coverage.

Property and equipment

Investment in property and equipment is recorded at cost. The cost of major additions and replacements are capitalized; maintenance, repairs and minor replacements are charged to operations. On retirement or disposal, the resulting gains or losses are reflected in current earnings.

Depreciation

Boats and barges are depreciated on a unit of production basis taking into account the estimated ton-mile productive capacity of each vessel over a 15 year period with a minimum charge of four per cent per annum calculated on a 25 year maximum useful life. The cost of other depreciable assets is amortized on a straight-line basis over an estimated life of 10 to 20 years for buildings, other structures and site development and 5 to 10 years for other equipment.

NORTHERN TRANSPORTATION COMPANY LIMITED AND SUBSIDIARY COMPANIES—Concluded

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

AS AT DECEMBER 31, 1978—Concluded

Pension plan

The Company maintains a contributory, defined benefit, final average earnings pension plan covering all of the regular full-time employees of Northern Transportation Company Limited. The assets of the plan are held by an independent corporate trustee. Current service costs are funded and charged to operations as they accrue. Unfunded liabilities and plan improvement costs, as determined by actuarial valuation, are funded by annual payments which are charged to operations over periods recommended by the consulting actuary and as required by the Pension Benefits Standard Act.

Income taxes

Where applicable, income taxes are provided individually for the Company and its subsidiaries following the tax allocation method. Under this method, the provision for income taxes is determined from reported earnings rather than the Companies' income for tax purposes.

3. Bank indebtedness

Accounts receivable are assigned as collateral security.

4. Property and equipment

	1978	1977
Land	\$ 1,623,914	\$ 1,641,182
Boats and barges	57,699,989	57,743,922

Accumulated depreciation	50,877,674	47,295,887
	<u>\$42,174,559</u>	<u>\$46,110,242</u>

Except for assets of a subsidiary and certain specific assets of the Company which are insured for \$23,400,000, property and equipment is self-insured as specified under accounting policies.

5. Long-term debt

Notes payable to Canada:

7. Freightage revenue

Included in freightage revenue is an amount of \$396,860 from Canada to defray certain costs of the 1978 Keewatin and Great Bear Lake resupply services. In 1977, \$252,695 was received in respect of the Keewatin resupply service.

8. Other expense (net)

	1978	1977
Expense:		
Interest on long-term debt	\$ 3,087,476	\$ 3,157,459
Income:		
Interest on short-term bank deposits	(934,858)	(833,484)
Gain on disposal of property and equipment	(201,269)	(87,291)
	<u>\$1,951,349</u>	<u>\$ 2,236,684</u>

9. Income taxes

The undepreciated capital cost of the Company's assets for income tax purposes exceeds the net book value of its depreciable assets by approximately \$15,100,000 and this excess is available to reduce taxable income of future years.

On November 16, 1978 the Minister of Finance announced the intention of the government to introduce legislation which will have the effect of removing the tax exempt status of the Company's subsidiaries under Section 149 (1)(d) of the Income Tax Act effective January 1, 1978. It has been assumed that this legislation will be enacted.

At December 31, 1978, after eliminating income taxes otherwise payable in the current year, the undepreciated capital cost of a subsidiary company's assets for income tax purposes exceeds the net book value of its depreciable assets by approximately \$972,000.

10. Lease commitments

The Company and its subsidiaries lease certain equipment, land and real estate under long-term contracts and are committed to rental payments of \$915,000 in 1979; \$889,000 in 1980; \$678,000 in 1981; \$655,000 in 1982 and \$481,000 in 1983.

11. Pension plan

At January 1, 1978 the present value of the unfunded liability of the plan determined by actuarial evaluation was \$1,201,145. This liability is being retired by annual payments of \$125,497 to 1991.

12. Federal anti-inflation legislation

The Company and its subsidiaries were subject to the Anti-Inflation Act which provided for the restraint of profit margins, prices, dividends and compensation. The last compliance period under this legislation was 1978. Management is of the opinion that the Companies have complied with the intent of the Act and Regulations and that no significant liability will arise as a result of the legislation.

PACIFIC PILOTAGE AUTHORITY (Established by the Pilotage Act)

AUDITOR GENERAL OF CANADA

THE HONOURABLE OTTO E. LANG, P.C., M.P.,
MINISTER OF TRANSPORT,
OTTAWA, ONTARIO.

I have examined the balance sheet of the Pacific Pilotage Authority as at December 31, 1978 and the statements of operations, retained earnings and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Authority as at December 31, 1978 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Authority, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1978

1. Nature of activities

The Pacific Pilotage Authority was established on February 1, 1972, pursuant to the Pilotage Act. The objects of the Authority are to establish, operate, maintain and administer in the interest of safety an efficient pilotage service within all Canadian waters in and around the Province of British Columbia. The Act further provides that the tariffs of pilotage charges shall be fair and reasonable and consistent with providing a revenue, together with any revenue from other sources, sufficient to permit the Authority to operate on a self-sustaining financial basis.

Pilotage services on the Fraser River are provided by employee pilots and in other coastal waters under a contract with a local association of licensed pilots.

2. Significant accounting policies

(a) Depreciation

Depreciation of fixed assets is calculated on a straight-line basis and is based on the estimated useful life of the asset as follows:

Buildings	20 years
Pilot boats	20 years
Pilot boat under capital lease	20 years
Equipment	10 years

(b) Contributed capital

Amounts representing the values assigned to assets transferred to the Authority from Canada in 1972 and the cost of capital assets financed from parliamentary appropriations, are shown as contributed capital.

(c) Capitalized lease

The Authority leases a boat from Canada under a long-term financing lease. Under the terms of the lease agreement, the Authority assumes the right and obligation of ownership. As a result, the lease is treated as a purchase and the principal portion of the lease payments is capitalized and depreciated over the estimated useful life of the boat. The corresponding liability is reduced by the principal portion of the lease payment and the interest portion is expensed in the year to which it relates.

(d) Pension plan

All employees of the Authority are covered by the Public Service Superannuation Plan administered by the Government of Canada. Contributions to the Plan are required from both the employee and the Authority. Contributions with respect to current service are expensed in the current period and represent the total pension liability of the Authority.

(e) Employee termination benefits

Employees of the Authority are entitled to specified benefits on termination as provided for under labour contracts and conditions of employment. This liability is recorded in the accounts as the benefits accrue to the employees.

(f) Income tax

Under the provisions of the Income Tax Act, the Authority is not subject to federal income tax.

PACIFIC PILOTAGE AUTHORITY—Concluded

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1978—Concluded

3. Capital lease agreement

The Authority leases a pilot boat under a long-term financing lease. The payments required under the lease are as follows:

	1978	1977
8% lease agreement, due April 1988 payable in blended annual payments of \$32,229.	\$ 322,291	\$ 354,521
Less: amount representing interest	106,031	124,438
Principal amount of capital lease	216,260	230,083
Less: current portion	14,928	13,823
	<u>\$201,332</u>	<u>\$216,260</u>

Upon maturity of the lease, the Authority has the option to purchase the boat for \$1.

4. Long-term commitment

The Authority has entered into an operating lease for the services of a manned pilot boat with a guaranteed annual rental of \$58,000, plus operating expenses to 1990. The Authority has the option to purchase this boat, at any time, at a price to be determined when the option is exercised.

5. Contingent liability

A legal action has been instituted against the Authority with respect to the legality of imposing certain pilotage charges paid in the amount of approximately \$82,000. In the opinion of legal counsel, this legal action should not result in any significant liability to the Authority and accordingly no provision for settlement has been reflected in the accounts.

6. Anti-Inflation Act

The Authority was subject to the provisions of the Anti-Inflation Act and Regulations relating to the restraint of prices, profits, compensation and dividends. The Authority is satisfied that it has no unrecorded or contingent liability under the legislation. As of December 31, 1978 the legislation had expired with respect to prices, profits and dividends.

PETRO-CANADA

TO THE HONORABLE ALASTAIR W. GILLESPIE, P.C., M.P.
THE MINISTER OF ENERGY, MINES AND RESOURCES
HOUSE OF COMMONS
OTTAWA, CANADA

We have examined the consolidated balance sheet of Petro-Canada as at December 31, 1978 and the consolidated statements of earnings and retained earnings and changes in financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these consolidated financial statements present fairly the financial position of the corporation as at December 31, 1978 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

We further report as required by Section 77(1) of the Financial Administration Act that, in our opinion, proper books of account have been kept by the corporation and the transactions that have come under our notice have been within the powers of the corporation.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 1978

(tabular amounts shown in thousands of dollars)

1. Summary of Significant Accounting Policies

(a) Basis of Consolidation

The consolidated financial statements include the accounts of Petro-Canada ("the Corporation") and all subsidiaries, the principal of which are Petro-Canada Exploration Inc. and Pacific Petroleum Ltd.

The excess of the consideration paid for the shares of subsidiaries over the underlying net book values at the dates of acquisition has been attributed to the related assets acquired.

(b) Inventories

Inventories are valued at the lower of cost and net realizable value.

(c) Investments

The Corporation accounts for investments in companies over which it has significant influence on the equity basis. Other long-term investments are accounted for by the cost method.

(d) Property, Plant and Equipment

The Corporation follows the full cost method of accounting for oil and gas properties whereby all costs relating to the

exploration for and development of oil and gas reserves are capitalized. Such costs include those related to lease acquisitions, geological and geophysical activities, carrying-charges of non-producing properties, drilling both productive and non-productive wells and overhead related to exploration.

Separate cost centres have been established for non-frontier Canada, each of four Canadian frontier areas, United States, North Sea and Spain. Costs incurred in non-frontier Canada and Spain are depleted separately on the unit of production method based on estimated proven oil and gas reserves. For purposes of calculating depletion, natural gas production and reserves are converted to equivalent barrels of crude oil based on the relative energy content of each commodity.

Annual costs incurred in the other cost centres are amortized on a straight line basis over the period during which exploration activity in each cost centre is expected to continue. Where exploration proves to be successful, amortization is suspended and the unamortized balance of the cost centre is depleted on the unit of production method when production commences. Where exploration proves to be unsuccessful and the cost centre is condemned or abandoned, the unamortized balance of that cost centre will be charged to earnings at that time.

Substantially all of the Corporation's exploration and production activities related to oil and gas are conducted jointly with others. Only the Corporation's proportionate interest in such activities is reflected in the financial statements.

Costs of property, plant and equipment associated with the Synkrude Project and related leases are accumulated in a separate cost centre and will be depleted on the unit of production method when production commences (Note 5). Expenditures on other bituminous sands leases are also accumulated in a separate cost centre and are amortized, depleted or otherwise charged to earnings in accordance with the policy described above for the Canadian frontier and foreign areas.

Depreciation of plant and equipment (except as noted above) is provided on either the unit of production or straight line methods as appropriate. Straight line depreciation rates range from 3% to 25%.

(e) Deferred Charges

The Corporation is deferring costs incurred on feasibility studies involving economic evaluation and preliminary engineering relating to:

- (a) Production of hydrocarbons from conventional heavy oil deposits
- (b) Polar Gas Project
- (c) Arctic Liquefied Natural Gas Project
- (d) Other—transportation and drilling related technologies.

When production or commercial activity of a particular project commences the applicable expenditures will be amortized based on the estimated useful life of the project. In the event that a decision is made not to proceed with a particular project, all associated costs will be charged to earnings at that time.

The costs of the Polar Gas Project relate to feasibility studies in connection with a gas transmission system from the Arctic Islands to Eastern Canada. Under the participation agreement, subject to the project's feasibility and approval by the necessary regulatory authorities, the participants shall be entitled to have the costs they have incurred treated as an equity investment in a company incorporated to construct and operate the transmission facilities, or be reimbursed out of any financing of such company.

Debt issue expense is being amortized on a straight line basis over the life of the debt.

(f) Research Costs

Research costs are charged against income as incurred.

(g) Income Taxes

The Corporation makes full provision for income taxes deferred as the result of claiming tax depreciation, exploration, development and other costs which exceed the related amounts charged to expense in the financial statements.

(h) Translation of Foreign Currency

Current assets, current liabilities and cash held for investment are translated at the rate of exchange in effect at the end of the year. The resulting gains and losses are included in earnings. Long term assets, liabilities and minority interest are translated at rates in effect at the dates the assets were acquired, the obligations incurred or the capital stock issued to the minority interest (Note 8). Revenue and expense items are translated at the average rates in effect during the year with the exception of depletion, depreciation and amortization which reflect rates in effect when the assets were acquired.

2. Acquisition of Subsidiary Company

Effective November 11, 1978, the Corporation, through a subsidiary, acquired 11,497,519 common shares of Pacific Petroleum Ltd. for a cash consideration of \$746,861,000 (including related expenses), representing 51.6% of the issued common shares of Pacific at December 31, 1978. The Corporation's consolidated earnings include its share of the earnings of Pacific from November 11, 1978. Details of the acquisition, which has been accounted for by the purchase method, are as follows:

3. Investments

The Corporation's investments consist of:

	1978	1977
At equity		
Westcoast Transmission Company Limited	\$116,700	\$
Panarctic Oils Ltd.	108,553	91,807
Pacific Northern Gas Ltd.	1,996	
Other, at cost	8,236	
	<u>\$235,485</u>	<u>\$ 91,807</u>

Westcoast Transmission Company Limited

At December 31, 1978, Pacific (51.6% owned by the Corporation) held 11,116,845 shares, or 32.1% of the total outstanding shares of Westcoast Transmission Company Limited. Westcoast has 5,765,128 shares reserved for issuance to holders of convertible securities and share purchase warrants. If all of the reserved shares had been issued, Pacific's interest in Westcoast would have been reduced to 27.3%. Westcoast follows the taxes payable method of accounting for income taxes in accordance with generally accepted accounting principles prescribed for certain utilities.

If the tax allocation method were followed by Westcoast, equity in earnings of investments, net earnings, and retained earnings of the Corporation would be reduced by \$863,000 in 1978.

At December 31, 1978 the quoted market value of Pacific's investment in Westcoast was \$133,303,000.

Panarctic Oils Ltd.

During 1978, the Corporation subscribed to a further financing of Panarctic Oils Ltd., increasing its investment at December 31, 1978 to \$108,553,000. This additional investment maintained the Corporation's ownership of the issued common shares of Panarctic at approximately 45%. These shares are not traded on the open market and therefore do not have a quoted market value. The activities of Panarctic Oils Ltd. are in the exploratory stage and all expenses less sundry income have been capitalized; the company is deemed not to have earned a profit or sustained a loss. The Corporation is committed to expenditures of approximately \$14,000,000 in connection with the ongoing financing of Panarctic.

5. Syncrude Project

The Corporation has a 15% participation in a project operated by Syncrude Canada Ltd. to produce synthetic crude oil from the Athabasca Oil Sands. The Corporation considers this project to be in the start-up phase as at December 31, 1978 and consequently start-up expenses, net of revenues are included in the capital cost of the project. Associated with the Syncrude Project are facilities which are not owned by the participants, consisting of a steam and electricity generating plant, a field gas supply pipeline and a pipeline to transport plant product to Edmonton. The Corporation, together with the other participants, has minimum usage commitments relating to these facilities.

PETRO-CANADA—Continued

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS DECEMBER 31, 1978—Continued

Under the terms of an option agreement, which expires September 1, 1979, Alberta Energy Company Ltd. has the right to purchase up to 20% of the project from the participants by reimbursement of an amount based on the option percentage exercised.

Bank Income Debentures

The Bank Income Debentures are held by a Canadian chartered bank and bear interest at approximately 52% of the bank's prime lending rate as announced from time to time. No deduction is allowed under the Income Tax Act for interest expense relating to the Bank Income Debentures (Note 10).

While the Bank Income Debentures are not secured by any charge against the assets of the Corporation, there are certain restrictions with respect to the disposition or encumbrance of the investment by the Corporation in Petro-Canada Exploration Inc.

Long-term debt in United States dollars

Issues denominated in United States dollars are the obligations of Pacific and have been translated into Canadian dollars at the exchange rate in effect on November 11, 1978, the effective date on which the Corporation acquired control of Pacific.

Repayment of long-term debt

Annual repayments of the 9% and 8.45% unsecured notes will commence in 1981 and 1982 respectively. All the other issues are currently subject to annual repayments.

The minimum repayment of long-term debt in each of the next five years is as follows:

1979—\$36,839,000, 1980—\$46,887,000, 1981—\$61,548,000, 1982—\$66,325,000, 1983—\$36,386,000.

8. Minority Interest in Subsidiaries

Minority interest in subsidiaries consists of:

	1978	1977
Preferred shares of Petro-Canada Exploration Inc. (\$1,250,000,000 U.S.)	\$1,464,375	\$
Common shares of Pacific Petroleum Ltd. ..	279,790	
	<u>\$1,744,165</u>	<u>\$</u>

On November 10, 1978, Petro-Canada Exploration Inc. ("PEX") issued 12,500,000 floating rate, cumulative, redeemable, non-voting, preferred shares to a group of Canadian chartered banks at \$100 U.S. per share for an aggregate consideration of \$1,250,000,000 U.S. (\$1,464,375,000 Canadian at date of issue).

The shares are redeemable, at the option of PEX, at \$100 U.S. per share, plus accrued dividends, except to the extent that shares in excess of 3,125,000 are redeemed during the three years ending November 10, 1981, such excess shares are redeemable at a premium of \$2 U.S. per share.

Cumulative dividends, payable quarterly, are based on a percentage of, at the option of PEX, either the United States Base Rates, or the London Inter-Bank Offered Rates of the banks. The current dividend rate approximates 6.7% per annum.

Under the terms of an agreement between the banks and the Corporation, in the event that PEX does not exercise its option to redeem the shares over a ten year period beginning December 31, 1983, or in the event of certain occurrences under the provisions of the agreement, the banks have the option to require the Corporation to purchase the shares at \$100 U.S. per share, plus accrued dividends.

9. Capital

Authorized:

The initial authorized capital of the Corporation was \$500 million divided into 100 common shares of the par value of \$5 million each. This was increased to 116 common shares on the acquisition of the capital stock of Panarctic Oils Ltd. previously owned by the Government of Canada.

Pursuant to the Petro-Canada Act, and subject to certain conditions and limitations as to the aggregate amount, the authorized capital of the Corporation is increased by the issue of preferred shares. Accordingly, at any time, the authorized and issued preferred shares are identical. The preferred shares have a par value of \$1 each, are redeemable at par at the option of the Corporation, carry no stated rate of dividend and are non-cumulative.

10. Income Taxes

The provision for income taxes of \$42,109,000 (1977-\$20,898,000) differs from the result which would be obtained by applying the combined Canadian Federal and Provincial income tax rate of 47% to the earnings before income taxes and minority interest of \$76,495,000 (1977—\$30,413,000). This difference results from the following items:

	1978		1977

11. Anti-Inflation Program

The Federal Anti-inflation Program was discontinued during 1978. During the period the program was in force, the Corporation was subject to and complied with the controls on profit margins and compensation to employees.

12. Comparative Figures

Certain reclassifications have been made to the 1977 comparative figures to conform with the current year's presentation.

13. Subsequent Events

(a) 5% Convertible Subordinated Debentures

On December 18, 1978 Pacific called for the redemption, effective January 17, 1979, of all of the outstanding 5% Convertible Subordinated Debentures. Subsequent to December 31, 1978 \$24,566,000 principal amount of the debentures was converted, at the rate of 26 shares per \$1,000 principal amount, into 638,716 common shares of Pacific and the balance was redeemed.

(b) Acquisition of shares of Pacific

On January 19, 1979 the Corporation, through a subsidiary, made a tender offer to purchase for cash at \$65.02 per share, any and all of the outstanding common shares of Pacific not already held by the Corporation. The offer, as extended, was open until March 12, 1979. By March 15, 1979 the Corporation had acquired approximately 11,000,000 additional shares of Pacific at a cost of \$720,000,000 bringing its total holding to 98% of the issued shares for an aggregate consideration of \$1,467,000,000.

Substantially all of the funds for the above purchases were obtained from the proceeds of the preferred shares issued by PEX (Note 8). The Corporation proposes to acquire the remaining 2.0% of the issued shares of Pacific under the provisions of Section 199 of the Canada Business Corporations Act for an estimated additional consideration of \$29,000,000.

ROYAL CANADIAN MINT
(Incorporated under the Royal Canadian Mint Act)

AUDITOR GENERAL OF CANADA

THE HONOURABLE ROCH LA SALLE, P.C., M.P.,
 MINISTER OF SUPPLY AND SERVICES,
 OTTAWA, ONTARIO.

I have examined the balance sheet of the Royal Canadian Mint as at December 31, 1978 and the statements of income and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Corporation as at December 31, 1978 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Corporation, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 1978

1. Corporate objectives

The principal objectives of the Mint are to:

- produce and arrange for the production and supply of coins of the currency of Canada;
- produce coins of the currency of countries other than Canada;
- melt, assay and refine gold, silver and other metals;
- buy and sell gold, silver and other metals;
- assay, refine, store and otherwise deal with gold, silver and other metals for the account of Her Majesty or others;
- prepare and store shipments of coin, gold, silver and other metals and to move such shipments to or from the Mint;
- make medals, plaques and other devices.

2. Statutory financial limitations

Significant financial limitations set out in the Royal Canadian Mint Act respecting loans from the Minister of Finance and the reserve for losses are as follows:

- Loans are made on such terms and conditions as are approved by the Governor in Council.
- Loans made to the Mint for fixed assets and working capital may not in the aggregate exceed \$35 million which includes a maximum of \$5.0 million for working capital.
- Additional loans made for temporary purposes may not in the aggregate exceed \$1 million and each shall be repaid within twelve months from the day on which the loan is made.
- The Mint may make a provision from income for a reserve against possible losses, but the aggregate amount in the reserve at any one time shall not exceed \$1 million. Any amounts in excess of those required to cover previous losses and the reserve shall be applied to non-tax revenues of Canada.

Income in Excess of Statutory Limitations

	1978	1977
Excess profits at beginning of the year	\$ 6,690,919	\$ 4,472,735
Net income for the year	4,571,715	3,994,072

Amount paid in the year	6,690,919	1,775,888
Balance at end of the year	\$4,571,715	\$ 6,690,919

3. Significant Accounting Policies

(a) Inventories

Inventories are valued at the lower of cost and net realizable value. Cost is determined as follows:

- metals and supplies are valued at average cost
- work in process and finished goods are valued at standard cost which approximates actual cost

(b) Fixed assets

All fixed assets are stated at cost. Depreciation is calculated on a straight-line basis at the following annual rates:

Land improvements	5%
Buildings	5%
Equipment	10%

ROYAL CANADIAN MINT—Concluded

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 1978—Concluded

(c) Prepaid expenses

Major advertising costs relating to a numismatic program have been recorded as prepaid expenses and charged against income over the duration of the program. This program will be terminated in 1979.

4. Inventories

6. Government of Canada loans

Loans from Canada bear interest at rates ranging from 7½% to 9¾% per annum and are payable in varying instalments over the next twenty years. The following payments on principal become due within the next five years:

1979	\$ 3,131,785
1980	2,131,785
1981	2,131,785
1982	2,131,785
1983	2,131,785
	<u>\$11,658,925</u>

Operating loans totaling \$4,840,000 which are included in the above have been renegotiated subsequent to year end and are payable in 1984.

7. Remuneration to agents

A total remuneration of \$368,719 was paid to Comarex A.G. as agent of the Royal Canadian Mint during 1978.

8. Safekeeping

As at December 31, 1978, the Mint held in safekeeping the following inventories which are excluded from the accounts:

On behalf of the Department of Finance:

i) Gold and silver at year end market value	\$44,963,536
ii) Coins, at face value	4,660,925
	<u>49,624,461</u>

On behalf of others:

i) Gold and silver at year end market value	\$ 9,471,876
ii) Unprocessed ore at approximate market value less cost to complete	20,405,210
	<u>29,877,086</u>
	<u>\$79,501,547</u>

9. Non-owned gold

As at December 31, 1978 the Mint had on hand 125,837 fine ounces of gold which was owned by the Department of Finance and a Canadian chartered bank. This gold was used to facilitate the production of a numismatic program. As gold is required for this program it is drawn from this supply and replaced with gold purchased on the open market.

The market value of this gold at December 31, 1978 was approximately \$33,723,000. Neither the gold nor the obligation to return it are recorded in the accounts of the Mint for financial statement purposes.

10. Mint displays

The Mint maintains displays of minted products in Ottawa and Winnipeg. These contain Canadian and foreign coins and medals of undetermined value. As these coins are not intended for resale, they are excluded from the accounts.

THE ST. LAWRENCE SEAWAY AUTHORITY

(Established by The St. Lawrence Seaway Authority Act)

OFFICE OF THE AUDITOR GENERAL

THE HONOURABLE OTTO E. LANG, P.C., M.P.
MINISTER OF TRANSPORT
OTTAWA, ONTARIO.

I have examined the balance sheet of The St. Lawrence Seaway Authority as at March 31, 1979 and the statements of operations, deficit and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Authority as at March 31, 1979 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Authority, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

THE ST. LAWRENCE SEAWAY AUTHORITY—Continued

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1979

1. Objectives and operations

The St. Lawrence Seaway Authority was established under The St. Lawrence Seaway Authority Act and is classified as a proprietary Crown Corporation under Schedule D of the Financial Administration Act. The Authority was incorporated to construct and operate a deep waterway between the Port of Montreal and Lake Erie together with such works and other property, including bridges incidental to the deep waterway, as deemed necessary by the Governor in Council. The Authority has also been entrusted with operating the Canadian lock and canal at Sault Ste. Marie hereafter referred to as the Non-Toll Canal.

The responsibility of operating and administrating the Canadian lock and canal at Sault Ste. Marie will be transferred to Parks Canada effective April 1, 1979.

2. Significant accounting policies

(a) Parliamentary appropriations

The net cost of operating and maintaining the Non-Toll Canal is subject to recovery from parliamentary appropriations. The amount so recoverable is reflected in the statement of operations as a reduction of the net loss for the period. The amounts authorized but not yet received from Canada are shown as due from Canada on the balance sheet.

Prior to April 1, 1978, the operating deficits and capital expenditures of the Welland Canal were also subject to recovery from parliamentary appropriations. The amounts recoverable were recorded at the time the deficits and capital expenditures were incurred. The recoveries for operating deficits were reflected in the statement of operations while the parliamentary appropriations to finance capital expenditures were added to contributed capital.

(b) Investments

The investment in wholly-owned subsidiaries is recorded at cost since the Authority does not exercise any control over the operations of the Great Lakes Pilotage Authority Ltd., and the Authority is not entitled to any financial gain from The Jacques Cartier and Champlain Bridges Incorporated. Accordingly, the accounts of the subsidiary companies have not been consolidated in these financial statements since such statements would serve no useful purpose. Separate financial statements for both subsidiary companies are available to the public. Summary financial information is also included in Note 4.

The investment in the joint venture, The Seaway International Bridge Corporation Ltd., is recorded at cost. All income from the operation of the bridge after payment of operating expenses is transferred to the participants each year by agreement and included in other income.

The investment in Canada bonds is recorded at cost. All gains or losses, including any premium or discount on acquisition, are recognized when the bonds are sold.

(c) Fixed assets

Fixed assets purchased or constructed by the Authority are recorded at cost. Assets transferred to the Authority are recorded at values established at the date of transfer which generally approximate the historical cost to the transferor.

It is the policy of the Authority to capitalize all expenditures for additions, replacements or major improvements which increase the capacity of the deep waterway system. Expenditures for repairs and maintenance are charged against expense as incurred. The cost of assets sold, retired or abandoned and the related accumulated depreciation are removed from the accounts on disposal. Gains or losses on disposals are included in the statement of operations.

The Authority does not hold title to the Non-Toll Canal assets and accordingly these assets are not reflected in these financial statements.

Depreciation is provided on a straight line method using rates based on the estimated useful lives of the assets. Depreciation rates for major categories of assets are as follows:

Locks, channels, canals and remedial works	1%
Buildings, bridges and tunnels	2%
Movable equipment	2-20%

No depreciation has been provided on interest in the amount of \$32,822,016 capitalized during construction of the Welland Modernization Project as it is anticipated the interest will be cancelled and reversed in the near future as part of the second phase of the refinancing of the Authority.

(d) Income taxes

The Authority, as a Schedule D Crown corporation is subject to the provisions of the Income Tax Act. The Authority has incurred substantial losses in prior years most of which can be carried forward and applied against taxable income in future years. While the exact amount of these loss carry forward benefits has not been determined, management does not anticipate that the Authority will be in a taxable position within the foreseeable future.

(e) Employee termination benefits

Employees of the Authority are entitled to specified benefits on termination as provided for under labour contracts and conditions of employment. The liability for these benefits is recorded in the accounts as the benefits accrue to employees. The significant increase in employee termination benefits in 1978/79 reflects the changes in benefits payable under certain collective agreements negotiated during the year.

(f) Pension Plan

All employees of the Authority are covered by the Public Service Superannuation Plan administered by the Government of Canada. Contributions to the Plan are required from both the employee and the Authority. These contributions represent the total liability of the Authority and are recognized in the accounts on a current basis.

(g) Grants in lieu of taxes

Grants in lieu of municipal and school taxes are recorded when paid.

3. Refinancing

On April 1, 1977, loans from Canada of \$624,950,000 were converted to equity by parliamentary appropriation. The unpaid interest on these loans is reflected on the balance sheet as deferred interest. This deferred interest, on which no further accrual of interest is required, is not classified as a current liability since it is the intention of the Authority to seek approval from Parliament to have the unpaid interest forgiven.

On March 31, 1978, the Authority also transferred \$120,986,136 of contributed capital against the deficit as part of their overall refinancing plan.

A parliamentary appropriation authorizing the conversion of the loans from Canada to equity also authorizes the Minister to fix, from time to time, the amount that shall be paid by the Authority annually out of its toll revenue as a return on capital. It is anticipated that no return on capital will be required until the new toll structure is fully implemented in 1980/81.

5. Investment in joint venture

The Seaway International Bridge Corporation, Ltd. is owned jointly by the Authority and The Saint Lawrence Development Corporation. The joint venture was incorporated to operate and manage the international toll bridge system between Cornwall, Ontario and Rooseveltown, New York. By agreement the annual income from the bridge system, after payment of operating expenses is first applied towards the amortization of the cost of the North Channel Bridge together with interest, then applied towards the amortization of the Racquette River Bridge and the balance, if any, is divided equally between both parties.

The bridge system is owned directly by the participants and does not form part of the joint venture assets.

Summary financial information of the joint venture for the year ended December 31, 1978 is as follows:

Balance Sheet	
Current assets	\$ 186,703

6. Contingent liabilities

Claims and lawsuits have been brought against the Authority and the Authority has initiated claims and lawsuits against others. These claims and lawsuits have arisen in the normal course of business and management does not anticipate that any material losses will arise upon resolution of these actions.

Contractual expenditures, committed but not expended, at March 31, 1979 amounted to \$2,092,000.

THE SEAWAY INTERNATIONAL BRIDGE CORPORATION, LTD.
(Incorporated under the Canada Corporations Act)

AUDITOR GENERAL OF CANADA

THE HONOURABLE OTTO E. LANG, P.C., M.P.,
 MINISTER OF TRANSPORT,
 OTTAWA, ONTARIO.

I have examined the balance sheet of The Seaway International Bridge Corporation, Ltd. as at December 31, 1978 and the statements of operations and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the corporation as at December 31, 1978 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied, after giving retroactive effect to the change in accounting for employee termination benefits referred to in Note 3 to the financial statements, on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Corporation, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 1978

1. Nature of activities

The Seaway International Bridge Corporation, Ltd. was incorporated for the purpose of operating and managing the international toll bridge system between Cornwall, Ont., and Roosevelt, N.Y., on behalf of the owners, The St. Lawrence Seaway Authority and the Saint Lawrence Seaway Development Corporation.

2. Significant accounting policies

(a) Depreciation

Depreciation of equipment is based on the estimated useful life of the assets calculated on a straight line method at the following rates:

Automotive	20%
Office and Shop	10%
Toll equipment	10%

(b) Employee termination benefits

Employees of the Corporation are entitled to specified benefits on termination as provided for under the conditions of employment. The liability for these benefits is recorded in the accounts as the employees become entitled to the benefits.

(c) Pension plan

All employees of the Corporation are covered by the Public Service Superannuation Plan administered by the Government of Canada. Contributions to the Plan are required from both the employee and the Corporation. These contributions represent the total pension liability of the Corporation and are recognized in the accounts on a current basis.

(d) Deferred income

Unredeemed toll tokens are recorded as deferred income.

(e) Reclassification of comparative figures

Comparative figures have been reclassified in the financial statements to reflect the groupings used in reporting current year's results.

3. Change in accounting policy

During the year the Corporation retroactively adopted the policy of accruing for employee termination benefits in the period in which the benefits accrue to the employees. Previously employee termination benefits were expensed when paid on termination.

The recognition of the employee termination benefits has also resulted in a reduction in the bridge user charge by the same amount. The net effect of these changes on the 1977 financial statements was to record accrued employee termination benefits of \$134,805 and record a recovery of previous bridge user charges paid to the St. Lawrence Seaway Authority of \$134,805. The previously reported net income and retained earnings are not affected since both adjustments offset each other.

4. Bridge User Charge

By agreement between The St. Lawrence Seaway Authority and the Saint Lawrence Seaway Development Corporation, the annual income from the bridge system after all operating expenses, is distributed as a bridge user charge, first to the Authority to offset the amortization of the cost of the North Channel Bridge together with interest, then to the Corporation to offset the amortization of the Racquette River Bridge, and the balance, if any, is then divided equally between both parties.

All bridge user charges since the commencement of operations have been paid to The St. Lawrence Seaway Authority.

5. Debentures Payable

The debentures due on December 31, 2012 are non-interest bearing and are payable to the Saint Lawrence Seaway Development Corporation.

6. Remuneration of directors and officers

The Corporation has eight directors and eight officers, five of whom are also directors. No remuneration was paid to the directors during the year. The total remuneration paid to the officers was \$25,000 (\$28,000 in 1977).

7. Anti-inflation legislation

The Corporation has no unrecorded or contingent liability under the legislation. The legislation expired on December 31, 1978.

TELEGLOBE CANADA

(Established by the Teleglobe Canada Act)

AUDITOR GENERAL OF CANADA

THE HONOURABLE JEANNE SAUVÉ, P.C., M.P.,
MINISTER OF COMMUNICATIONS,
OTTAWA, ONTARIO.

I have examined the balance sheet of Teleglobe Canada as at March 31, 1979 and the statements of income, retained earnings and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

As described in Note 5 to the financial statements, partnership accounts in respect of Commonwealth financial arrangements have been finalized only for the year ended March 31, 1974, under the current Agreement, and for the years up to and including the year ended March 31, 1971, under the preceding arrangements. For unfinalized years, the Corporation has recorded its estimates of the amounts recoverable from the partnership and has provided for the repayment of provisional settlements in excess of those amounts. However, complete information is not available as to the probable results of the final settlements for those years.

In my opinion, subject to the determination of adjustments arising from final settlements of Commonwealth financial arrangements, these financial statements give a true and fair view of the financial position of the Corporation as at March 31, 1979 and the results of its operations and changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Corporation, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 1979

1. Nature of activities

The Teleglobes Canada Act provides that the Corporation shall establish, maintain and operate in Canada and elsewhere external telecommunication services for the conduct of public communications, and coordinate Canada's external telecommunication services with those of other nations. Such services include the telephone, telex and telegraph services, the leasing of private and public use circuits, data transmission, television and radio programme transmission and participation in the provision of international communications satellite systems.

2. Summary of significant accounting policies

The accompanying financial statements have been prepared in accordance with Canadian generally accepted accounting principles. Significant accounting policies of the Corporation are as follows:

(a) Fixed assets

Fixed assets are stated at acquisition cost, which includes salaries, wages, employee benefits and certain general overheads applicable to construction activity. In addition, for major construction projects, interest charged to construction is added to the cost of the assets acquired and is included as an item of income.

The Corporation was designated by the Government of Canada to be the Canadian signatory to the International Telecommunications Satellite Organization (INTELSAT) Operating Agreement, and as a consequence includes in fixed assets its ownership in the international satellite system. Periodically, each signatory's ownership share is adjusted to conform to its percentage of total use of the system. The Corporation's ownership share as at March 31, 1979, is 2.259032% (1978—2.248921%).

TELEGLOBE CANADA—Continued

NOTES TO FINANCIAL STATEMENTS FOR THE
YEAR ENDED MARCH 31, 1979—Continued

(b) Depreciation

Assets are depreciated over their respective estimated service lives, using the straight line method. Where assets are taken out of service prior to the expiry of their estimated lives any undepreciated balances, less salvage values, are charged to depreciation in the year of retirement, except for satellite system costs when a launch failure occurs. Costs of satellite failures are depreciated over the life of that group of satellites. No depreciation is charged on major construction project assets until construction has been completed.

The estimated service lives for determining depreciation of the various classes of assets are:

	Years
Buildings & leasehold improvements	20—40
Furnishings	8—10
Cable systems	20—25
Terminal, transmission and switching equipment	10—14
International satellite system space segment	4—12
Other plant & equipment	5—25

(c) Foreign exchange

Amounts receivable or payable in foreign currencies are translated to Canadian dollars at exchange rates prevailing at year end. Income and expense items are translated at average monthly exchange rates for the month in which the transactions are reflected in the accounts.

(d) Revenue

The Corporation reports as revenue its share of income earned from all its telecommunications facilities, whether owned outright by the Corporation, owned jointly with other partners or leased from third parties.

Public Services include telephone, telegraph, telex and transit transit traffic. Public service revenues reflect the Corporation's portion of amounts billable to domestic and foreign subscribers by the Canadian carriers and foreign administrations. Estimates are included to provide for that part of such amounts for which administrations have yet to account to the Corporation.

Revenue from Other Services are mainly derived from the leasing of circuits to other administrations and private users. INTELSAT revenue comprises the Corporation's share of revenue, less its share of operating expenses excluding depreciation, derived from its ownership in the international satellite system.

(e) Income tax

The Corporation, being a Canadian Crown Corporation, is not subject to the payment of Provincial income taxes.

The deferment of income taxes results from claiming capital cost allowance for tax purposes in amounts which exceed depreciation recorded in the accounts.

(f) Commonwealth Telecommunications Organization

The Corporation is the designated Canadian participant in the Commonwealth Telecommunication Organization (CTO), the purposes of which are to promote the development and efficient operation of the Commonwealth external telecommunication system and to provide for the administration of collaborative financial arrangements. The financial agreement provides that the aggregate expense incurred by all partners, in the provision and operation of each facility within the Commonwealth system, is apportioned to partners

in proportion to the use made by the partners of that facility. Use of the system is measured in terms of the number of units of traffic carried over each facility within the system.

Settlements are initially effected between partners during each financial year on the basis of estimated traffic volumes and system costs, with final settlements only being effected after the close of each year on the basis of audited data submitted by each partner. Since the final settlements cannot be accurately predicted, the Corporation follows the practice of recording estimated recoverable costs in each financial year and of recording final adjustments in its accounts at the time that final settlements are made.

(g) Maintenance

Costs incurred in maintaining the planned life and capacity of operational facilities, and in ensuring that quality standards are met, are charged to maintenance expense net of amounts recovered from foreign administrations.

3. Fixed assets and depreciation

(a) The major categories of fixed assets as at March 31, are as follows:

	1979		1978	
	Thousands of dollars			
		Accumulated depreciation	Net	Net
	Cost			
Land	\$ 3,380	\$	\$ 3,380	\$ 1,446

	\$253,647	\$107,420	\$146,227	\$123,783

(b) Fixed assets include assets owned outright by the Corporation and assets owned jointly with other telecommunications entities as follows:

	1979	1978
	Thousands of dollars	
Owned outright	\$170,204	\$140,499
Owned jointly (Corporation's interest)	83,443	80,072
	<u>\$253,647</u>	<u>\$220,571</u>

(c) During the year the Corporation charged to fixed assets, salaries wages, employee benefits and general overheads relating to construction activity amounting to \$3,106,224 (1978—\$2,443,000).

4. Deferred charges

A benefit equivalent to 50% of accumulated unused sick leave days, calculated at the salary in effect at the time of retirement, is payable to employees upon retirement. The current cost of the benefit is expensed in the year in which it is earned by employees. Deferred charges represent the unamortized cost of this benefit for employee past service up to April 1, 1978. This provision is being amortized at \$70,500 per year over a period of 10 years.

NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 1979—Continued

5. Commonwealth financial arrangements

(a) Finalization of partnership accounts

As of March 31, 1979, 29 Commonwealth Governments are signatories to the Commonwealth Telecommunications Organisation Financial Agreement (1973). Due to the fact that some partners are delinquent in submitting audited statements of incurred expenses and traffic volumes, in accordance with the 1973 and preceding Agreements, it has only been possible to finalize partnership accounts for the year ended March 31, 1974, under the current Agreement, and for the years up to and including the year ended March 31, 1971, under the preceding arrangements.

During the year, the Corporation submitted its audited accounts for the two years ended March 31, 1976, and March 31, 1977, under the current Agreement, which commenced April 1, 1973.

As of March 31, 1979, the Corporation has received provisional settlements amounting to \$63,160,000 in total, for the seven years where partnership accounts remain unfinalized.

(b) Estimated amount due to Commonwealth Partners

The estimated amount due to Commonwealth Partners comprises:

\$900,000 with respect to the amount by which instalments received for the years yet to be finalized, and which ended prior to April 1, 1973, exceed the estimated amount recoverable recorded in the books of account, and

\$21,201,000, net of amounts receivable for 1973/74, with respect to the amount by which the instalments received for the five years ended March 31, 1979, exceed the estimated amounts recoverable for these years under the 1973 Agreement.

(c) Estimated amount recoverable from Commonwealth Partners

The estimated amount of \$12,504,000, recoverable from Commonwealth Partners reflected in the Statement of income comprises:

	1979	1978
	Thousands of dollars	
Adjustment related to financial arrangements in effect prior to 1973 Agreement	\$	\$ 2,545

	<u>\$2,386</u>	<u>\$6,944</u>	<u>\$ 6,907</u>	<u>\$2,010</u>	<u>\$18,247</u>

7. Commitments

(a) As at March 31, 1979, the estimated cost of completing construction projects amounts to approximately \$214,244,000 (1978—\$100,900,000) of which \$42,840,000 (1978—\$39,600,000) relates to the year ending March 31, 1980. Contractual commitments amounting to approximately \$15,013,000 (1978—\$24,525,000) are outstanding as at March 31, 1979.

(b) The Corporation is a party to certain non cancellable long-term leases for property and facilities used in the performance of its operations. As at March 31, 1979, the aggregate minimum annual rentals for all such leases are:

	Thousands of dollars
1979/80	\$ 4,250
1980/81	\$ 3,179
1981/82	\$ 1,809
1982/83	\$ 1,275
1983/84	\$ 1,170
1984/85	\$ 2,330

Rental expense relating to such items for the year ended March 31, 1979 is \$9,096,000 (1978—\$7,449,000).

(c) Under the terms of an agreement, which expires in 1980, between the Corporation and the Department of Transport, the Corporation charters the Cables/Ship/Icebreaker C.C.G.S. John Cabot on a cost reimbursement basis. This agreement is cancellable on 12 months' notice.

(d) The Corporation's share in Intelsat's outstanding commitments is approximately \$12,578,000 (1978—\$11,488,000) based on Intelsat's audited Financial Statements of December 31, 1978.

8. Contingent liabilities

On November 1, 1974, the Corporation established a retirement bonus scheme, in lieu of post-retirement life insurance previously provided, for all employees on staff at that date who subsequently retire while in the service of the Corporation. As at March 31, 1979, the maximum liability of the Corporation under this scheme, should all entitled employees retire while in the service of the Corporation, amount to \$2,302,000 (1978—\$2,343,000).

TELEGLOBE CANADA—Concluded**NOTES TO FINANCIAL STATEMENTS FOR THE YEAR
ENDED MARCH 31, 1979—Concluded****9. Income taxes**

Details of the Corporation's income taxes are as follows:

Income tax		
—current	\$15,043	\$12,204
—deferred	2,566	1,497
Total	<u>\$17,609</u>	<u>\$13,701</u>

10. Anti-inflation legislation

The Corporation was subject to the provisions of the Federal Anti-Inflation Act effective October 14, 1975, which provided for restraints on prices, profit margins and compensation of employees. This legislation was terminated on December 31, 1978.

Management is of the opinion that the Corporation was in compliance with the requirements of the Act.

11. Executive remuneration

Included in expense for 1979, is remuneration of 5 directors, as directors, \$2,850 (1978—\$2,250) and 14 officers, as officers, \$613,000 (1978—\$426,000 for 12 officers). One officer is also a director.

12. Comparative figures

Certain of the 1978 comparative figures have been restated to conform with the financial statement presentation adopted for 1979.

(Incorporated under the Canada Corporations Act)

OFFICE OF THE AUDITOR GENERAL

THE HONOURABLE A. W. GILLESPIE, P.C., M.P.,
MINISTER OF ENERGY, MINES AND RESOURCES,
OTTAWA, ONTARIO.

I have examined the balance sheet of Uranium Canada, Limited as at December 31, 1978 and the statement of operations of accounts administered for Canada and the statement of account due to Canada for assets administered for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Corporation as at December 31, 1978 and the results of the operations administered by the Corporation for the account of Canada and the account due to Canada for assets administered for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of accounts have been kept by the Corporation, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1978

1. Significant accounting policies

(a) Activities administered for Canada

The Corporation administers and sells, as Canada's agent, the Government of Canada general stockpile of uranium acquired by Canada since 1963. All monies and benefits generated from the sale of the stockpile accrue to Canada after allowing for selling expenses. Accordingly, such activities are reported as administered for Canada's account. Administrative services are provided to the Corporation without charge by the Department of Energy, Mines and Resources.

(b) Inventories

Inventories are carried at Canada's acquisition cost. Warehousing and other carrying charges are borne directly by Canada and are not reflected in these accounts.

(c) Interest

In addition to interest income earned as a result of the agreements described in Note 2, the Corporation under contractual agreements for the sale of uranium, allows extended payment terms to customers. Interest is charged on the sales value from the time of delivery to the time of payment when the customer elects such terms.

(d) Foreign exchange

Transactions effected in US funds have been recorded at the rates of exchange prevailing on the dates of the transactions. Asset accounts have been translated into Canadian funds at

funds at the rates prevailing at December 31. Gains or losses on foreign exchange are included in the Statement of Operations.

2. Long-term receivables

(a) Long-term loans of uranium receivable

During 1978, two agreements were entered into by Canada and the Corporation to loan uranium from the stockpile with repayment to be made in kind. The concentrates on loan have been recorded at inventory cost.

The agreement with Eldor Resources Limited, a wholly-owned subsidiary of Eldorado Nuclear Limited, provides for a loan of up to 770,000 kilograms of uranium of which 281,000 kilograms had been loaned by December 31, 1978. Repayment date of all uranium loaned is on or before the last business day of December 2010. As collateral for the loan in the event of non-repayment in kind, Eldor Resources Limited has provided Canada and the Corporation with a debenture in the amount of \$200,000,000.

The agreement with Eldorado Nuclear Limited provides for a loan of 115,000 kilograms of uranium, all of which had been loaned by December 31, 1978. Repayment date of the uranium loaned is on or before December 31, 1980. As collateral for the loan in the event of non-repayment in kind, Eldorado Nuclear Limited has provided Canada and the Corporation with a promissory note in the amount of \$17,250,000.

(b) Long-term interest receivable

The agreements provide for an interest charge based on the quantity of uranium borrowed as well as a stand-by fee based on the quantity of uranium optioned but not yet borrowed.

The agreement with Eldor Resources Limited provides for interest payments on the last business day of June and December in each year following achievement of commercial production planned for 1983. Accordingly, the interest accrued during 1978 (\$91,277) on the borrowed uranium has been shown as a long-term receivable.

3. Directors and Officers

The Corporation's eight directors receive no remuneration as directors. The Corporation's five officers, four of whom are also directors, receive no remuneration as officers.

4. Selling expenses

Selling expenses represent the direct out-of-pocket expenses, including commissions (\$163,199), incurred by Denison Mines Limited as sales agent for Canada and the Corporation.

5. Comparative figures

Comparative amounts have been reclassified to conform with the presentation adopted for 1978.

6. Subsequent events

On January 5, 1979 Canada and the Corporation entered into an agreement with Ontario Hydro to loan up to 800,000 kilograms of uranium over the next twelve months, with repayment to be made in kind. Repayment date of the loaned uranium is: up to 300,000 kilograms by December 31, 1983 and up to an additional 500,000 kilograms by December 31, 1984. As collateral for the loan, Ontario Hydro will provide Canada and the Corporation with promissory notes in specified amounts.

VIA RAIL CANADA INC.

AUDITORS' REPORT

TO THE HONOURABLE THE MINISTER OF TRANSPORT,
OTTAWA, CANADA.

We have examined the balance sheet of VIA Rail Canada Inc. as at December 31, 1978 and the statements of income and retained earnings and changes in financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1978

1. Nature of the Corporation

On March 31, 1978 the Minister of Transport acquired, from Canadian National Railway Company, on behalf of the Government of Canada all of the issued and outstanding shares of the Corporation.

Effective April 1, 1978 VIA Rail Canada Inc. became a Crown Corporation under Schedule D of the Financial Administration Act.

2. Operating agreements

(a) Interim Financing Agreement

An Interim Financing Agreement was entered into with the Government of Canada whereby the Government has reimbursed the Corporation for all expenditures incurred up to March 31, 1978.

(b) Railway Passenger Services Contract

As from April 1, 1978 the Corporation entered into an agreement with the Government of Canada whereby the Corporation is to provide services, activities, functions and undertakings relating to the provision, management and operation of railway passenger service in Canada. The agreement provides for the reimbursement of all management and advertising expenses incurred for the period from April 1, 1978 to March 31, 1979 up to a maximum amount of \$12,485,000. In addition a further sum not to exceed \$1,060,000 during the period from November 1, 1978 to June 30, 1979 was approved for studies related to providing more efficient and cost-effective ways and means of planning, marketing and managing the Corporation's services. It is anticipated that the total cost to be incurred to March 31 and June 30, 1979 respectively under these agreements will not exceed the maximums allowable. Accordingly for the fiscal period ended December 31, 1978 the Corporation has included as income received from the Government of Canada an amount equal to the expenses incurred.

The agreement also provides that the Minister of Transport and the Corporation shall enter into Subsidiary Service Agreements with respect to specified inter-city rail passenger services (rationalized services). On October 29, 1978 the first such service request to provide a Western Transcontinental Railway Passenger Service became effective. In consideration of the performance of the above service for the period from October 29, 1978 to October 27, 1979 the Corporation will be paid a sum not to exceed \$99,800,000.

No recognition has been given to any gain or loss under the contract in the accounts for the year. Amounts included in income in respect of the above during 1978 were as follows:

For management and advertising	\$ 8,145,000
For planning and development of rail passenger service	51,000
For Western Transcontinental railway passenger service	17,469,000
	<u>\$25,665,000</u>

(c) Canadian National Railway Company and Canadian Pacific Limited

The Corporation has entered into operating agreements with the railroads for the use of tracks and facilities, provision of operating train personnel and rolling stock servicing. The costs of these services are to be determined in accordance with the regulations of the Canadian Transport Commission with effect from the effective date of the Subsidiary Service Request for each specified rail service. Agreements were also

VIA RAIL CANADA INC.—Continued

NOTES TO FINANCIAL STATEMENTS

entered into for the transfer of personnel of both railroads associated with passenger services and for the purchase of passenger cars, locomotives and operating materials and supplies.

During the period from April 1 to December 31, 1978 the Corporation incurred certain management expenses on behalf of the railroads and in addition as from October 29 assumed responsibility for all inter-city rail passenger service personnel and costs.

By agreement the Corporation has allocated to the railroads the revenues collected and the expenses incurred with respect to those rail services not yet subject to a Subsidiary Service Request.

To December 31, 1978 the Corporation had billed the railroads a net amount of approximately \$4,290,000 and the railroads had billed the Corporation approximately \$17,030,000 for services rendered as referred to above. The Corporation has excluded from expenses approximately \$810,000 for proposed adjustments and the railroads have not accepted amounts of approximately \$690,000.

It is the opinion of management that the costs and revenues recorded will not be materially affected by the settlement of these amounts following review by the Canadian Transport Commission.

3. Summary of significant accounting policies

(a) Revenue Recognition

Net income from contracts with the Government of Canada for inter-city rail passenger services will be recognized on the completed contract basis. All losses will be recognized when known.

Passenger revenue is determined from gross sales less an estimated amount for advance ticket sales carried forward as a current liability.

(b) Adjustments of Operating Costs

Charges from the contracting railroads in respect to the operating agreements for the Western Transcontinental Services and amounts recoverable from the railroads for costs incurred by the Corporation on behalf of the railroads are recorded based on incurred and estimated expenses determined in accordance with the regulations of the Canadian Transport Commission. The estimates will be subject to adjustment following submission to and approval by the Canadian Transport Commission of the actual costs incurred each year by the parties concerned.

(c) Depreciation

Depreciation of passenger cars and locomotives is calculated on a straightline basis in accordance with the group method at rates as authorized by the Canadian Transport Commission designed to write off locomotives and other rolling stock over their estimated useful lives.

No depreciation is provided on initial purchase of office furniture and equipment. Cost of replacements will be expensed as incurred.

Leasehold and infrastructure improvements are amortized over the terms of the leases or with reference to the estimated useful life, as appropriate.

No amortization is provided for projects in progress.

(d) Capitalized Interest on Progress Payments for Purchase of Equipment

Interest on advances for purchase of equipment is capitalized to properly reflect the total cost thereof. The rates used to

to calculate interest correspond to the rates paid for capital funds.

(e) Deferred Charges

Deferred charges relate to the costs incurred subsequent to April 1, 1978 for the development of an automated reservations and ticketing system. Amortization of these costs will commence following completion of the project.

(f) Income Taxes

The Corporation follows the tax allocation basis of accounting for income taxes whereby tax provisions are based on accounting income and taxes relating to timing differences between accounting and taxable income are deferred.

(a) Advance drawn on a term loan facility authorized in the amount of \$52,000,000 to be used for the purchase of new locomotives and passenger cars. Interest at prime commercial rate until complete drawdown or December 31, 1980, whichever is the earlier and thereafter at prime plus $\frac{1}{4}$ of 1%, repayable from 1980 to 1983 inclusively. This loan is to be secured by a fixed charge on the equipment purchased.

(b) Interest at prime to September 15, 1981 and thereafter at prime plus $\frac{1}{4}$ of 1%, repayable in monthly instalments of \$171,000 to and including October 15, 1985. This loan is secured by a negative pledge upon all assets of the Corporation except those specifically pledged as security in (a) and (c).

(c) Balance of purchase price with interest at 10%, repayable in monthly instalments of \$723,000 to and including April 1, 1984. Title to the equipment purchased remains with the vendor until full payment has been made.

7. Pension plan

A condition precedent to the establishment of the Corporation was that those employees engaged by the Corporation previously employed by either Canadian National Railway Company or Canadian Pacific Limited would be fully protected insofar as their pension benefits accrued under the Pension Plans of their former employers.

For the year 1978 the Corporation continued the necessary contributions to those plans on behalf of its employees as applicable. As from January 1, 1979 the Corporation has established its own Pension Plan. Negotiations are continuing with the railroads to determine the amount of funds to be transferred to the Corporation to provide for pensions earned to December 31, 1978.

8. Commitments

As at December 31, 1978 the Corporation had outstanding commitments for the purchase of fixed assets, infrastructure improvements and the development of an automated reservations and ticketing system amounting to approximately \$53,417,000.

9. Leases

The Corporation has certain lease commitments for the rental of buildings and equipment with aggregate net rentals of approximately \$860,000 per annum expiring at various dates to 1989.

10. Subsequent event

On February 5, 1979 the Corporation issued 40,000 common shares to the Government of Canada for a total consideration of \$4,000,000.
